

At **Care4You Transportation**, our mission is to provide safe, reliable, and compassionate non-emergency transportation services that empower seniors, Medicaid recipients, individuals with Traumatic Brain Injuries (TBI), and adults with specialized mobility needs to live independently while accessing the services that are essential to their health and well-being.

As a family-owned, woman-operated transportation company proudly serving **Schenectady County** and the Capital Region, we are committed to treating every passenger with dignity, respect, and kindness. We work hand in hand with the **Schenectady County Office for the Aging** to help seniors maintain their independence by providing dependable transportation to medical appointments, dialysis treatments, rehabilitation services, pharmacies, grocery stores, senior centers, adult-oriented day programs, social activities, and other important destinations.

We understand that our job is about much more than providing a ride. That's why we offer personalized **door-to-door service**, assisting passengers safely from their home into our vehicle and from our vehicle to the entrance of their destination. Our professional drivers help clients get in and out of the vehicle, carefully handle walkers, wheelchairs, and other mobility equipment, and gladly assist with groceries, personal belongings, and other essential items to make every trip as safe and comfortable as possible.

Care4You Transportation is especially proud of the relationships we have built within the TBI community. We provide dependable transportation for individuals with **Traumatic Brain Injuries (TBI)** and proudly serve many participants attending **adult-oriented day programs**, rehabilitation services, and other community-based programs. We recognize that every client has unique needs and are dedicated to providing patient, compassionate, and individualized care on every trip.

Safety, reliability, professionalism, and compassion are the foundation of everything we do. Every ride is an opportunity to make a positive difference in someone's day, providing peace of mind to both our passengers and their families.
