At the regularly scheduled public meeting of the Town Board of the Town of Rotterdam, held at the John F. Kirvin Government Center 1100 Sunrise Blvd. Rotterdam, New York on Wednesday, April 12, 2023, at 7:00 p.m., the following resolution was duly adopted:

TO NEGOTIATE AND EXECUTE AN AGREEMENT AUTHORIZING A PAYMENT-IN-LIEU-OF-TAXES AGREEMENT BETWEEN THE TOWN OF ROTTERDAM AND ROTTERDAM RENEWABLES, LLC

WHEREAS, Rotterdam Renewables LLC has submitted a Notice of Intent to the Town of Rotterdam that it plans to build and operate a "Solar Energy System" as defined in New York Real Property Tax Law ("RPTL") Section 487(l)(b) with an expected nameplate capacity ("Capacity") of approximately 5 Megawatts AC, as measured at the inverter (herein the "Project") on a parcel of land located within the Town of Rotterdam at 1827 Putnam Road, Rotterdam, NY (NY Tax ID: 147.-2-19.1) (herein the "Property"); and

WHEREAS, pursuant to RPTL 487(9)(a), the Town of Rotterdam has indicated its intent to require a Payment in Lieu of Taxes ("PILOT") Agreement with the Rotterdam Renewables LLC, under which Rotterdam Renewables LLC (or any successor owner of the Project) will be required to make annual payments to the Town of Rotterdam for each year during the term of this Agreement; and

WHEREAS, upon completion of the project, Rotterdam Renewables LLC will submit to the Assessor for the Town of Rotterdam, a RP-487 Application for Tax Exemption of Solar or Wind Energy Systems or Farm Waste Energy Systems with respect to the Project, demonstrating its eligibility for a real property tax exemption pursuant to RPTL Section 487; and

WHEREAS, the Parties intend that, during the term of this Agreement, the assessed value of the Property will remain on the taxable portion of the assessment roll with the value of the exemption with respect to the Project, computed pursuant to subdivision two of section 487 of the Real Property Tax Law and identified in a separate tax-exempt column of such tax rolls whereby Rotterdam Renewables LLC will be exempt from any statutory real property taxes for which it might otherwise be subjected under New York law with respect to the Project; and

WHEREAS, the Town of Rotterdam will take reasonable action, as needed, to provide documentation and acknowledgment to the Town assessor that the Project is exempt from taxation under RPTL 487 as of the applicable tax status day; NOW

THEREFORE, UPON MOTION OF Councilmember **DODSON**, seconded by Councilmember **MASTROIANNI**,

BE IT RESOLVED BY THE TOWN BOARD AS FOLLOWS:

SECTION 1. The Town Board of the Town of Rotterdam hereby authorizes the Supervisor to negotiate and execute a Payment-In-Lieu-Of-Taxes Agreement (PILOT) with Rotterdam Renewables LLC, relating to the premises located at 1827 Putnam Road, Rotterdam, NY 12306 (NY TAX ID: 47.-2-19.1) in the Town of Rotterdam, county of Schenectady, State of New York, for a solar system pursuant to Real Property Tax Law § 487.

SECTION 2. This resolution shall become effective April 12, 2023.

LEGISLATIVE REQUEST FORM

DATE:	April 18, 2023
TO:	Mollie A. Collins, Town Supervisor
FROM:	Peter Comenzo, Sr. Planner PC
TITLE OF REQUEST:	Town Board to consider calling for a public hearing on a proposed amendment to the Town Code of the Town of Rotterdam, for the allowance of microbreweries, micro wineries and micro distilleries in the Agriculture (A-1), Main Street/Neighborhood Center (MS/NC) Overlay, Corridor Commercial (CORR) Overlay, Retail Business (B-1), General Business (B-2), and Commercial Planned Unit Development (C-PUD) Zoning Districts as a Special Use Permit.
TOWN BOARD MEETING:	April 26, 2023
Background Information:	On February 8, 2023 the Town Board of the Town of Rotterdam forwarded proposed legislation to the Planning Commission for a report and recommendation which would permit and regulate the operation of microbreweries, micro wineries and micro distilleries as a special use permit in the Agricultural (A-1) Zoning District.
Evaluation/Analysis:	On February 21, 2023 and March 21, 2023, the Planning Commission reviewed and discussed the proposed legislation. On March 21st the Commission made a Positive Recommendation with several proposed changes to original proposed amendments.
Recommendation(s):	The Town Board to call for a public hearing to be held Wednesday, May 10, 2023.
Attachment/Document(s):	Planning Commission Report and Recommendation with amendments. Planning Commission Minutes February 21, 2023 and March 21, 2023 Draft Local Law
Compliance with Purchasing Policy:	N/A
Effect(s) on Existing Law(s):	NYS Town Law

RESOLUTION NO. 81.23

At the regularly scheduled public meeting of the Town Board of the Town of Rotterdam, held at the John F. Kirvin Government Center 1100 Sunrise Blvd. Rotterdam, New York on Wednesday, February 8, 2023, at 7:00 p.m., the following resolution was duly adopted:

TO RECOGNIZE THE INTRODUCTION OF INTRODUCTORY LOCAL LAW NO. 2 OF 2023 AND REFERRING SAME TO THE PLANNING COMMISSION FOR REPORT AND RECOMMENDATION

THEREFORE, UPON MOTION OF Councilmember **DODSON** seconded by Councilmember **MASTROIANNI,**

BE IT RESOLVED BY THE TOWN BOARD AS FOLLOWS:

SECTION 1. The Town Board recognizes the introduction of Introductory Local Law No. 2 of 2023 to allow for microbreweries, microwineries and microdistilleries by Special Use Permit, in the Town Agriculture (A-1) Zoning District.

SECTION 2. The Town Board hereby determines that the proposed enactment of Local Law No. 2 of 2023 is a Type I action under the State Environmental Quality Review Act pursuant to 6 NYCRR § 617.4 (b) (2), that there are no other involved agencies (as that term is defined under the SEQRA regulations) other than the Town Board, and therefore declares itself as lead agency for purposes of conducting the SEQRA review and authorizes the Supervisor or her designee to execute Part 1 of the Full Environmental Assessment Form..

SECTION 3. The Town Board hereby refers Introductory Local Law No. 2 of 2023 to the Planning Commission of the Town of Rotterdam for report and recommendation thereon.

SECTION 4. This resolution shall become effective February 8, 2023.

DATED: February 8, 2023

Facsimile (518) 355-2725

Resolution Number PC 9-2023
Moved by Mrs. Flansburg seconded by Mr. Collins

Resolution Adopting a Report and Recommendation on changes to the Town Code to Permit Brewpubs, Micro-brewery, Micro-winery, Micro-distillery in the Town of Rotterdam

WHEREAS, the Town Board of the Town of Rotterdam ("Town Board") received an inquiry regarding the allowance for the location of a microbrewery in the Town of Rotterdam. Although potentially an agriculture related use, the current Town Zoning Code does not permit this type of manufacturing, sale, or consumption in the Agriculture (A-1) Zone; and,

WHEREAS, the Town Board referred draft language similar to the adjoining community of Glenville to address the allowance for changes to the Town Zoning Code, to the Planning Commission, on February 8, 2023 for a report and recommendation thereon; and,

WHEREAS, this matter was presented for discussion to the Planning Commission through the Town Planner and Attorney for the Town, at its regularly scheduled meeting held on February 21, 2023; and

WHEREAS, the Planning Commission discussed the proposed amendments at its regularly scheduled meeting on February 21, 2023 and the consensus was to direct Town staff to look at the current Town Zoning Code and address this type of use in not only the Agriculture Zone, but the Business and Industrial Zones as well; and,

WHEREAS, the Planning Commission requested that Town staff return with updated code language that encompassed a better definition of alcohol products that included a wider variety of craft drinks that are evolving, address and allow for on-site consumption, add generic (hours of operation), specific performance standards (noise, lighting, odor), and allow for on-site food consumption; and,

WHEREAS, staff has prepared revised code language as directed and provided updated draft language to include in the report and recommendation to the Town Board for their consideration; and,

WHEREAS, the Planning Commission has reviewed staff recommendations to the updated draft language and deliberated on the proposed additions to the Town Zoning Code in this matter;

NOW, THEREFORE, upon motion of Member Flansburg, seconded by Member Collins,

BE IT RESOLVED, by the Planning Commission of the Town of Rotterdam as follows:

1. The Planning Commission hereby adopts the following as its report and recommendation on the proposed Change to the Town Zoning Code based upon review of the input received from Town Staff and deliberations at the March 21, 2023 meeting:

Recommended changes to the Town Zoning Code 270-5 Definitions.

Brewpub: An establishment which sells or produces on and/or off-site alcoholic beverages, including beers, ales, meads, braggot, hard ciders and wines and similar spirituous liquors. Ancillary activities to include on-site consumption and contains kitchen facilities for consumption of food and beverages. The maximum size for such an establishment shall not exceed 25,000 square feet. Off-site distribution of alcoholic beverages shall be consistent with New York State Liquor Authority law as now enacted and in the future.

Micro-brewery, Micro-winery, Micro-distillery: An establishment engaged in the production and distribution of beers, ales, meads, braggot, hard ciders, wines and similar spirituous liquors produced on-site. The establishment may include other uses such as a tasting room and shall allow for both sale and onsite consumption of alcoholic beverages with limited food offered for consumption in the tasting room. The maximum size for such an establishment shall not exceed 75,000 square feet. Production shall be consistent with the NYS Liquor Authority limits for these types of establishments. Off-site distribution of alcoholic beverages shall be consistent with New York State Liquor Authority law as now enacted and in the future.

Add to Town Code Chapter 270-18. Special Uses (Agriculture Zone)

(O) Microbreweries, microwineries and microdistilleries.

Micro-breweries, Micro-wineries, and Micro-distilleries however, must comply with the following:

1. Each microbrewery, microwinery, or microdistillery shall manufacture and sell alcoholic beverages in accordance with the provisions of the New York State Liquor Authority and shall maintain current licenses as required by said agency.
2. No outdoor storage shall be permitted.
3. All malt, vinous or distilled liquor production shall be within completely enclosed structures.
4. By-products or waste from the production of malt, vinous or distilled liquor shall be properly disposed of off the property.
5. The emission of odors or smells in such quantities as to produce a public nuisance or hazard is not permitted.
6. Excessive noise in violation of Chapter 188 is prohibited and may result in revocation of the Special Use Permit.
7. No more than two food cart vendors are permitted on-site.
8. Hours of operation shall be addressed during site plan review.

Add to Town Code Chapter 270-53.23. Special Uses (MS/NC Overlay Zone)
(H) Brewpubs, Microbreweries, microwineries and microdistilleries.

Brewpubs, Micro-breweries, Micro-wineries, and Micro-distilleries however, must comply with the following:

1. Each brewpub, microbrewery, microwinery, or microdistillery shall manufacture and sell alcoholic beverages in accordance with the provisions of the New York State Liquor Authority and shall maintain current licenses as required by said agency.
2. No outdoor storage shall be permitted.
3. All malt, vinous or distilled liquor production shall be within completely enclosed structures.
4. By-products or waste from the production of malt, vinous or distilled liquor shall be properly disposed of off the property.
5. The emission of odors or smells in such quantities as to produce a public nuisance or hazard is not permitted.
6. Excessive noise in violation of Chapter 188 is prohibited and may result in revocation of the Special Use Permit.
7. Food cart vendors are permitted on-site only by permission of the Planning Board.
8. Hours of operation shall be addressed during site plan review.

Add to Town Code Chapter 270-53.43. Special Uses (CORR Overlay Zone)
(H) Brewpubs, Microbreweries, microwineries and microdistilleries.

Brewpubs, Micro-breweries, Micro-wineries, and Micro-distilleries however, must comply with the following:

1. Each brewpub, microbrewery, microwinery, or microdistillery shall manufacture and sell alcoholic beverages in accordance with the provisions of the New York State Liquor Authority and shall maintain current licenses as required by said agency.
2. No outdoor storage shall be permitted.
3. All malt, vinous or distilled liquor production shall be within completely enclosed structures.
4. By-products or waste from the production of malt, vinous or distilled liquor shall be properly disposed of off the property.
5. The emission of odors or smells in such quantities as to produce a public nuisance or hazard is not permitted.
6. Excessive noise in violation of Chapter 188 is prohibited and may result in revocation of the Special Use Permit.
7. Food cart vendors are permitted on-site only by permission of the Planning Board.
8. Hours of operation shall be addressed during site plan review.

Add to Town Code Chapter 270-56. Special Uses (Retail Business Zone)
(J) Brewpubs, Microbreweries, microwineries and microdistilleries.

Brewpubs, Micro-breweries, Micro-wineries, and Micro-distilleries however, must comply with the following:

1. Each brewpub, microbrewery, microwinery, or microdistillery shall manufacture and sell alcoholic beverages in accordance with the provisions of the New York State Liquor Authority and shall maintain current licenses as required by said agency.
2. No outdoor storage shall be permitted.
3. All malt, vinous or distilled liquor production shall be within completely enclosed structures.
4. By-products or waste from the production of malt, vinous or distilled liquor shall be properly disposed of off the property.
5. The emission of odors or smells in such quantities as to produce a public nuisance or hazard is not permitted.
6. Excessive noise in violation of Chapter 188 is prohibited and may result in revocation of the Special Use Permit.
7. Food cart vendors are permitted on-site only by permission of the Planning Board.
8. Hours of operation shall be addressed during site plan review.

Add to Town Code Chapter 270-64. Permitted Uses (General Business Zone)
(H) Brewpubs, Microbreweries, microwineries and microdistilleries.

Brewpubs, Micro-breweries, Micro-wineries, and Micro-distilleries however, must comply with the following:

1. Each brewpub, microbrewery, microwinery, or microdistillery shall manufacture and sell alcoholic beverages in accordance with the provisions of the New York State Liquor Authority and shall maintain current licenses as required by said agency.
2. No outdoor storage shall be permitted.
3. All malt, vinous or distilled liquor production shall be within completely enclosed structures.
4. By-products or waste from the production of malt, vinous or distilled liquor shall be properly disposed of off the property.
5. The emission of odors or smells in such quantities as to produce a public nuisance or hazard is not permitted.
6. Excessive noise in violation of Chapter 188 is prohibited and may result in revocation of the Special Use Permit.
7. Food cart vendors are permitted on-site only by permission of the Planning Board.
8. Hours of operation shall be addressed during site plan review.

Add to Town Code Chapter 270-108.4. Special Uses (Commercial PUD Zone)
(H) Brewpubs, Microbreweries, microwineries and microdistilleries.

Brewpubs, Micro-breweries, Micro-wineries, and Micro-distilleries however, must comply with the following:

1. Each brewpub, microbrewery, microwinery, or microdistillery shall manufacture and sell alcoholic beverages in accordance with the provisions of the New York State Liquor Authority and shall maintain current licenses as required by said agency.
2. No outdoor storage shall be permitted.
3. All malt, vinous or distilled liquor production shall be within completely enclosed structures.
4. By-products or waste from the production of malt, vinous or distilled liquor shall be properly disposed of off the property.
5. The emission of odors or smells in such quantities as to produce a public nuisance or hazard is not permitted.

6. Excessive noise in violation of Chapter 188 is prohibited and may result in revocation of the Special Use Permit.
7. Food cart vendors are permitted on-site only by permission of the Planning Board.
8. Hours of operation shall be addressed during site plan review.

2. Subject to the considerations set forth in Paragraph 3, below, the Planning Commission hereby adopts a **positive recommendation** on the proposed language prepared by Town Staff with the following modifications:

_____

_____

_____

_____

_____

3. Any recommendation by the Planning Commission, should not be construed as an approval or other favorable position concerning any proposed Zoning Code language. Any proposed updates to the Town Code shall remain subject to full review approval by the Town Board who is the only governing body with the authority to modify the Town Zoning Code.

2. **Town of Rotterdam – Code Amendment. Report and Recommendation to the Town Board for a Local Law to amend Chapter 270 of the Town Code entitled "Zoning" of the Town of Rotterdam in regards to allowing microbreweries, micro-wineries and micro-distilleries by Special Use Permit in the A-1 Zoning District.**

Chairman Yuille: Peter, do you want to explain this?

We are not going to do anything tonight on this, we are just looking for comments and generate some thoughts and then the next meeting, we will probably have a recommendation.

Mr. Comenzo: Thank you, Mr. Chairman. Peter Comenzo, the Town Planner. In your packets you will see there is a letter let me back up. I received a phone call from a Laurel Boser. She was looking at property in Rotterdam but also brought up the fact that we don't permit microbreweries anywhere in town. In looking at our code, she was correct. Obviously, there has been quite a big interest in these types of facilities. They are kind of, like I mentioned earlier, there are probably 25 or so in the Capital Region.

So, basically, we looked at our neighbor in Glenville, who does have a couple, they have a winery, a distillery and also a microbrewery in their town and they have definition section in their Code as well as for the allowance for these types of facilities. At the Town Board meeting, one of our residents got up and spoke and had mentioned that mead is also something approved by the state legislature a couple of years back and braggot was also approved by the state so we added that. Then we modified the proposed language to just basically say similar type alcoholic beverages because who knows in the future what folks are going to come up with something different or some new variation of fermentation.

So, unlike typical report and recommendation at the Planning Commission does, the Board just kind of vote yes or no and state our reasons why, in this case, we thought it might be prudent to have a discussion and make a recommendation that this group would feel in terms of on-site consumption, whether that should be permissible or not. Number 1 that is kind of first and foremost. The Town of Glenville does not allow that in their Code, but I know in many instances it does occur. There is also the issue of, I don't know how far we would want to get into it, a lot of these facilities have food trucks that come and then also take a look at our other zones and make sure that both in the commercial zones in the Town and the industrial zones that there would be an ability to make, I believe it would outright be permitted, right now in the industrial zone although it doesn't say that specifically, there is a manufacturing component to it.

Just kind of looking for the Board's feedback on what thoughts are in regards to allowing for on site consumption and whether you would want to get into the other zones and come back with a recommendation to add this into our commercial zones and industrial zones and whatever performance standards that you would want to see. Maybe in the Agriculture zone you want to have a minimum acreage requirement of an acre, five (5) acres, whatever that may be and those types of performance standards we could put in the report and recommendation to the Board and then they can move forward with the public hearing process.

Ms. Heinel: There are other types as well as just the cidery, breweries, "Inaudible", there is the farm ciders, breweries and "Inaudible" and just for clarification for the Board when we get into this a farm brewery, the only difference between a farm brewery in New York State and normal brewer in New York State, is that in order to be called a farm brewery, one they have to be a on farm and their products that they use to make their product have to come from New York State so that they can get a label that get placed on the product that says New York State Agricultural product and that is what the difference between the farm versions of all these things and the non-farm version.

There is also the factor of just for inclusionary purposes of placing all of the definitions into the Code to some extent or another. Whether you wanted to accept those as well or just the limited, normal versions we take of brewer, microbrewery, because they do have different definitions in the State version of the legislature, they have each labeled with different definitions. The Board could always choose to adopt the State's definitions for each one to make it a simple process of what classifies each.

Mr. Comenzo: Or just reference the section of the State Code because things change.

Ms. Heinel: Some municipalities have said, microbreweries shall have the normal, ordinary meeting as defined in the NYS Alcoholic and Beverages Law Section, I forget what specific section number it is, but they define it just by referring to how it is defined in the Alcoholic Beverage Law of New York State. That is also a considering factor.

Mr. Collins: When it comes to the manufacturing do they give, if we put it in like a general business, does it give off odors into the atmosphere where it could be noxious to the neighbors?

Mr. Comenzo: There is a smell associated with fermenting beer. I don't know if there is some type of diffuser that's in there or fans that would exhaust that.

Mr. Collins: I was just thinking because when we talk about nail salons and so forth, they have to have certain system to stop it.

Mr. Comenzo: They boil it and there is a scent to it. I have visited microbreweries and you can smell it inside. I do not know how much of an issue it is outside.

Mr. Collins: I do not know to be honest with you.

Ms. Heinel: To my recollection, a lot of that gets contained with the modern equipment that is used in these. A lot of that gets contained within the internal structures. Now, that doesn't mean that the smokestack or whatever it might be might not give off some smell, but they would also have to comply with the Alcoholic Beverage Laws, their own regulatory and licensing authorities. Just like many of these other businesses too. It's a good idea to look into.

Mr. Comenzo: I think part of that would be during the site plan review process too. What are they doing with the waste material once it's done fermenting and what do you do with all the hops? Do you dump them in the dumpster in the back or are they fed to pigs, I don't know exactly what is done with the waste materials.

Mr. Collins: Like I say, one of those thoughts that ran through my mind.

Chairman Yuille: Mr. Calder, any questions?

Mr. Calder: Isn't the waste material going to be taken away by a truck, basically. The editorial today in the Gazette was very informative for somebody that doesn't know about this. In some of the stuff here talked about the waste being taken away.

Mr. Comenzo: I would imagine that it is organic so, I would imagine that they would feed it to animals.

Mr. Calder: And they talked about some of it going to nearby farms.

Mr. Comenzo: Or at least used for fertilizer. But the storage of it, I don't know if you have to build up enough to get a truck load of it to make it.

Mr. Calder: When we were discussing this earlier, the water at some point may have been an issue. I don't know if that is an issue but whether we should consider that with the zoning with the water, where the water is, where there is water available, where there is no water available. Does that make any sense or not?

Mr. Collins: Well, water is water but I mean I can't see them building out by Maple Ski Ridge because if that's all wells they could never produce that kind of water.

Mr. Comenzo: Depending on the size of the brewery. They didn't say they were looking at a really large operation, but I would assume that would be one of the first things that you would look at after a location or whether it's allowed in the Town or not. I know these folks were looking at several different towns and different pieces of property. They were looking at a property off of Mariaville Road. Who knows, they may have found another piece of property already. It made sense to look at this because I know from an economic standpoint and tourism, I don't think it's a matter of if we're going to see a request for a microbrewery or cidery, but its when. At least we would have a Code that would give the Board the ability to look at it. Otherwise, you just tell them no when they come.

Ms. Heinel: I think the water issue would be more of an issue that the applicant/potential buyer would have to verify for themselves whether the property could actually meet the demands for what they need it to be. That's not really a concern necessarily for the Town to take on of whether the person buying the property is aware whether they are going to get the water or not. That is part of the buyers due diligence in purchasing a property for a specific need is whether they can meet that need.

Mr. Comenzo: I think Clark might have been alluding to like living next door and having your well run dry because they are using.

Ms. Heinel: That's fair and it's something to consider but that's the problem you would have with any neighbor that potentially bought a house right next to you and tapped the same well.

Mr. Comenzo: Whether it was farming…

Ms. Heinel: Whether it was farming, whether it was a business or whatever it might be, it's going to be a potential problem for anybody purchasing a property in that area.

Mr. Calder: I think getting ahead of it is a good idea, but I'm surprised we haven't had to deal with it before since everybody has.

Mr. Comenzo: Like I said earlier, we have gotten inquiries about properties in our commercial zones for breweries and I can potentially see some of these areas where there is a lot of parking and under-utilized retail areas in town potentially going in there. We do have very good quality water in the town. I could see someone looking to do that.

Mr. Calder: I have no other questions. Thank you.

Chairman Yuille: Mark?

Mr. D'Alessandro: I have a question. Number 4 about the on-site consumption or not. I did one of those tours up in the Thousand Islands for a winery tour. Is sipping considered consumption? They had like little dixie cups that you could have the wine.

Ms. Heinel: That's a tasting versus consumption which is ordering. I think the idea there was that tasting would be a very different experience than buying a pint of beer or five (5) or six (6) or however many.

Mr. D'Alessandro: Do we have to specify anything like that or is that just like a…

Mr. Comenzo: Right now, we based this from the Town of Glenville's Code. I don't know how closely they follow that for terms of on-site or off-site consumption or that type of thing but it's something to discuss. If it's going to be a large, if it's going to be a small operation they probably wouldn't have some type of beer/alcohol sales but a lot of times if they have a good product they grow.

Ms. Heinel: The other thing is just because one business is the one spurring us to look at this as a potential change for our code, it isn't going to be the only one probably that's going to come around. What one is planning on doing is not what the other is going to plan on doing. If we don't allow on-site consumption now, good chances are that there is going to be one that comes along that is going to want it and we are going to have to go through this process all over again so it's best to have an idea of is that something that the Town is going to allow should we recommend this or should we limit it to this and this only.

Mr. D'Alessandro: That's all that I have.

Mr. Comenzo: I kind of was torn about whether to put the letter in there or not from the property owner. It doesn't seem like the Board is focusing on this and I'm certainly not. It was just an inquiry to the Town and I said hey, if you are really interested why don't you send us a letter and I will see if the Town Board will entertain it. They did accept it and forwarded it to this board for report and recommendation. Like I said, unlike some of our other code amendments they are pretty straightforward, this one we are looking to try to get a recommendation from the Board in terms of what you think the Town should do in regards to this issue.

Ms. Heinel: Especially since a lot of these site plans, if this does go forward and get accepted, are going to come before this Board. Once it gets enacted and you start getting interest with applications, you guys are going to be the ones looking at the site plans and everything in there. Now would be the time to start thinking about the thing that you would want to require of a site plan applicant for something like this for that special use permit. What would be the things that you would be concerned with?

Mr. Comenzo: So far, I have heard water and waste or smells.

Ms. Heinel: Lighting would be a big one. I would imagine neighbors would be concerned with from a space, hours of operation would be another one to consider. Noise as well.

Mr. Comenzo: I don't know how far the Board wanted to get into that in terms of performance standards or if you wanted to direct staff to come up with an idea of specific recommendations.

Ms. Heinel: Or those things can be left to site plan and be made conditions at a site plan approval so they can be adapted to each application as well. It is just something to consider.

Chairman Yuille: I think the on-site consumption, I'm sorry, Mark, are you done?

Mr. D'Alessandro: The only thing I was going to say is four (4) years ago if you were going to talk about drug and alcohol on the Planning Commission, I would have told you were nuts.

Chairman Yuille: I think the on-site consumption we need to consider.

Mr. Comenzo: I think that is the biggest item there. Is the Board in support for allowing on-site consumption for microbreweries.

Chairman Yuille: If someone wants it, they could come back for a special use permit for that.

Mr. Comenzo: It's implied that it's allowed. Right now, the way it's written is prohibited. So, if the Board was okay with allowing for on-site consumption for having a taproom to sell beer…

Mr. Signore: I think at some point somebody is going to bring that up so why go through this again. Put a very broad description for these and I think Courtney had it right to use the State's description and "Inaudible…" in terms of the "Inaudible…" I would include everything in that and then add oversight by the Town or DPW under the discretion of the Town, perhaps so we don't have to go through this process several times because people are going to come up with a lot of ideas. We have all these different things here now.

Mr. Comenzo: I don't know if everybody agrees with what Joe is saying, he's basically saying is we should reference the State Code instead of trying to define all these different types of beverages, allow for on-site consumption and be a little more general in terms of the performance standards. In my mind, I am thinking you could address noise, odor, lighting, etc. and if you just wanted to add a statement in there to say the Planning Commission during Site Plan or during the Special Use Permit review would look at lighting, odors, you need to prepare answers to lighting, traffic, the general things you guys look at.

Ms. Heinel: Water, waste, lighting, traffic, noise, safety, hours of operation.

Mr. Comenzo: Does that sound…

Chairman Yuille: Joe, do you have anything else to add?

Mr. Signore: Like the on-site food could be discretionary as well. Put that in there and then like Tom mentioned they could come in for a special use permit but at least it would already be in the Code. I think Tom had a good idea with that.

Chairman Yuille: Joe, anything to add?

Mr. Miglucci: The waste issue is rice, hops, barley and it's all natural. The smell basically dissipates quickly and there is nothing really toxic or endangering. "Inaudible…"

Mr. Comenzo: I guess in terms how they are going to handle that would be, the other thing I was thinking of is rodents and that type of thing, would that attract them?

Chairman Yuille: VanDyke down there they have a microbrewery and they are right in the middle…

Mr. Comenzo: A lot of these places are literally right in the middle of the town or cities. I can foresee that occurring and having these in our business and industrial zones. For example, Burdeck Street or Altamont Avenue.

Mr. Signore: Do we know someone who is involved in the renderings for microbrewing and what they look like? I'm thinking a farmer would take it and plow it in.

Mr. Comenzo: I could look into it.

Ms. Heinel: I don't know if the fermenting process actually ruins the ability to compost because of the process of the breakdown of it. You can't use cooked in compost because it doesn't degrade the same way, it doesn't add the nutritional benefits and I don't know if the process of fermentation does the same thing to the waste products where it would make it not viable.

Mr. Comenzo: I can find out. I know somebody that knows somebody that runs one.

Ms. Heinel: I also have a friend who the farm manager at Indian Ladder Farms.

Chairman Yuille: Anyone else have anything else to add?

Mr. Collins: I have one more question. When it comes to the food truck thing, that way if you do it because NYS you have to food if you sell booze, right? But are we going to say you can only have one food truck because sometimes somebody will see a food truck and some guy says I got a food truck, and I will go down and hang out. Do you know what I am saying? I don't know if that would become a problem.

Mr. Comenzo: I think the food truck pays the brewery to be there.

Ms. Heinel: It's also up to the brewery on how many they want to allow on their property too.

Mr. Comenzo: It's going to depend on their customer base. If there is only 30 people going there, there is not going to be 5 trucks.

Ms. Heinel: With regards to the food concerns, that's really going to depend on what type of license they get from the Alcoholic and Beverages Committee and everything like that because that is going to dictate what they need to have on-site. They will be telling us when they come in for an application what type of license they are getting or have from the Liquor Authority and that will tell us what they are going to have on-site foodwise. Some licenses you can get away with just your peanuts on your bar.

Chairman Yuille: How are we going to put this together so that we can do it at the next meeting? Are we going to put a list together?

Mr. Comenzo: I think between Courtney and I we can probably come up with some type of draft to consider. I think Joe made some good points in referencing the State Code and then the on-site consumption. I think everybody was kind of in agreement, in at least in reading the tea leaves here, that on-site consumption is not really a concern and it would be something that would be addressed the review process.

Ms. Heinel: Any issues with on-site consumption from anybody?

Mr. Comenzo: Then generic performance standards. Ask them to come up with a plan to address safety and lighting.

Ms. Heinel: I think like you suggested something we could add in the tagline that during special use permit review the board will look at these factors…

Mr. Comenzo: Like proximity to neighbors and we can come up with a list and then when they come in, they will know they say they want to do this, but we can say we reference the Code and when you come in, here's what you need to address. Then the on-site food, I think we were okay with that.

We should be able to come up with something and come back to you in two (2) weeks.

Meeting adjourned at 8:15 p.m.

Motion to adjourn the meeting was made by Mr. Collins and Mr. D'Alessandro seconded the motion.
Next meeting scheduled for March 7, 2023.

Respectfully Submitted, Marlo L. Carter, Planning Commission Secretary

2. **Town of Rotterdam – Code Amendment. Report and Recommendation to the Town Board for a Local Law to amend Chapter 270 of the Town Code entitled "Zoning" of the Town of Rotterdam in regards to allowing microbreweries, micro-wineries, and micro-distilleries by Special Use Permit in the A-1 Zoning District**

Chairman Yuille: Peter, are you going to present?

Mr. Comenzo: Yes. Peter Comenzo, Town Planner.

If you recall, not last meeting, but the meeting before we had a discussion and proposed legislation for the microbrewery and micro-distilleries. We were directed, to look at more comprehensive and not just focus on the Ag Zone but to look at breweries and microbreweries and brew pubs townwide to check our different zones. Part of the discussion was not necessarily just the Ag zone but some of the underutilized properties in the town, people could look there and really the thing from a zoning perspective is that you have the manufacturing component as well as the beverage component. So, it really does not fit specifically into any zone. And it is certainly not allowed in the Ag zone.

After looking at this matter, there were also some other performance standards that you wanted us to address in terms of noise, food carts, hours of operation. So, I went back and went through the zoning code and did some research to other communities as to how they addressed this. So, brew pub and microbrewery, micro-distillery, micro-winery are separated. The brew pub is more like a restaurant type facility with production of beer or wine or some of the other products, like braggot or cider, and that can be done in a brew pub setting where you can also have kitchen facilities and that would be more of something you would see in a commercial zone.

The microbrewery and micro-winery, micro-distillery would be more of a production type facility so, the square footage proposed for that or what I had seen, we had discussed up to 75,000 square feet for a microbrewery, micro-winery, or micro-distillery and then the brew pub would be 25,000 square feet.

The way our code is set up, it is cumulative so, first I looked at the Ag zone and we talked about the food cart and this obviously subject to discussion tonight, I had listed no more than two (2) food cart vendors permitted on site and that was for the Ag zone. We would not allow brew pubs but the microbrewery component would be in the Ag zone. We have it listed as a special use in the Ag zone. As a special use in the Main Street Neighborhood Center Overlay District and in the Corridor Overlay District. We addressed the noise code. We allowed food carts permitted on site by permission of the Planning Commission only. So, even if one of these businesses opened, they could always come back if they wanted to add a food cart component to it or they could work that into their site plan when they came forth.

The smaller, we would have it as a special use in the less intensive zones, like Main Street Neighborhood Center and the Corridor Commercial as well as the Retail Business zones which right now, we allow restaurants in those zones. When you get over to the General Business zone, I would propose that it would be a permitted use because the way our cumulative zoning works in both the light industrial and the heavy industrial zone, whatever is allowed by right in the General Business zone is also allowed in the Industrial zones so they would be allowed outright in the I-1 and I-2 zones subject to the same performance standards that are listed in here.

As well as the Commercial PUD zone which is a new zoning classification which we don't have any right now in the Town, but that is more for like the Exit 25A area and I think we had proposed that type of zoning for Exit 25 as well in terms of some type of a planned unit development with several different types of uses on the same piece of property.

That is all that I have. Are there any questions?

Chairman Yuille: Mr. D'Alessandro?

Mr. D'Alessandro: No.

Chairman Yuille: Mr. Collins?

Mr. Collins: No.

Chairman Yuille: Mrs. Flansburg?

Mrs. Flansburg: I don't have any questions, just a comment. As I was not here for the original meeting, I appreciate that all of the minutes were part of this so I was able to read up and catch up on it. It sounds like we are modeling quite a bit of it after Glenville who has many of these.

Mr. Comenzo: Glenville's is very rudimentary, I guess, it just basically said you could allow, and it didn't actually allow on-site consumption obviously it would be an issue with anything other than maybe tasting. We kind of went back to the drawing board based on the Board's comments and we rewrote this based on some other municipalities.

Mrs. Flansburg: It was nice to have it to be able to follow along both of your comments back and forth so, I appreciate that.

Chairman Yuille: Mr. Signore?

Mr. Signore: No. We have quite a way to go on this anyway, right?

Mr. Comenzo: Well, it's a report and recommendation. The only difference with this is that what was originally forwarded to the Board is completely different than what we have here. This is really the recommendation of the Planning Commission as based on your comments from the last meeting and the work of staff to go through this and address it.

Ms. Heinel: From here it would go to the Town Board and then the Town Board would make…

Mr. Comenzo: They will call for a public hearing. If they want to add things or subtract things, they can address that.

Chairman Yuille: Mr. Miglucci?

Mr. Miglucci: I'm good with it.

Chairman Yuille: To give you a little history, this came about because someone came in looking to possibly put a microbrewery out on Mariaville Road. There isn't a current project, but since this is probably going to start to come through, we thought we would get ahead of the game with it. So, we got those, and we will go from there. Again, just to remind everybody, this is a recommendation. We are going to vote either yes or no on it and when you give your vote, explain your vote as to why you vote yes or why you vote no and give a reason. If you have something that you would like to change, there is a section here that Peter put in so that you can add a section or something that you might want to change or might want to do. We will go with that.

Ms. Heinel: I do have a question. I was just looking at the DPW comments, Peter, and I think we have addressed it, but I want to make sure that we did because these were from the February meeting, for the microbreweries, we are allowing on-site consumption, right?

Mr. Comenzo: Yes.

Ms. Heinel: Does it specifically state it? It says tasting room in the definition, and I want to make sure and I would agree that I think it's enough because brew pub covers it specifically.

Mr. Comenzo: The brew pub is covered in all zones except for Ag.

Ms. Heinel: Yeah, and it specifically states on-site consumption and I was looking at the comment and then the definition we are using for the microbreweries, micro-wineries, and micro-distilleries, it doesn't specifically say anything about the on-site consumption other than that it includes a tasting room. I was wondering if the Board wanted to specifically state on-site consumption or not.

Chairman Yuille: For the brew pubs?

Ms. Heinel: No, for the microbreweries, micro-wineries and micro-distilleries.

Mr. Comenzo: The only caveat on that, I believe we didn't really want to open this in the Ag zone to bars. I think it needs to be clear, unless the Board wants to recommend that, but I don't think we want to open up the Agricultural Districts to opening up taverns and just, I don't know if they would have some type of five (5) gallon jug in the back, like the Cuomo chips, a bucket of beer in the back.

Mr. Collins: Could they come back and ask for, say someone just opened a microbrewery in the Agricultural zone, and then later on, could they come back and ask for a special use permit to add consumption or is this strictly...

Mr. Comenzo: I guess you could tie it to the Liquor Authority approval or because of home rule, we can dictate exactly what you want to see in the agricultural district. This is a little unclear. It doesn't outright allow you to have a full service bar and then, in that, I guess the distinction between brew pub and microbrewery, at least in my mind to say okay if you are opening up a microbrewery, you are not opening a bar and you are allowed up to 75,000 square feet and you can have tastings. I think what Courtney is saying is do you want to allow someone that if they are making beer, can they sell cider and...

Ms. Heinel: Or sell their own beer?

Mr. Comenzo: I don't know if you want to put a performance standard in there to say limited to on-site production products.

Ms. Heinel: I just want clarification from the Board's perspective, is that something they want or in response to DPW comment kind of in just looking at it or do we want to leave it as is with just the tasting room reference.

Mr. Collins: I don't think, with respect to someone that's in Agricultural, they are out there for a reason. The rural setting and so forth and I kind of agree that maybe we shouldn't force them and let someone come in and open a big beer joint. It's a different atmosphere than in the business districts. So, I kind of agree with what we are saying. That is just my opinion, for what it's worth. They are living out there for a reason and for them all of a sudden to have a few beer joints, I don't know, we are just talking here.

Mrs. Flansburg: I'm just trying to think about how this applies to reality. I'm thinking Agricultural, not in our community, but Indian Ladders has a giant "Inaudible" and on-site consumption and tasting and own little restaurant, is that the kind of thing that we are talking about here or not at all?

Mr. Comenzo: I'm looking at it from a perspective if I'm looking at a developer that comes in or someone wants to come in and open up a business in the Town of Rotterdam what are the restrictions? If someone came and said hey, I want to open up a bar in the Ag zone then there is some discretion in terms of what you are looking at. I guess, to address it, you could add it in here how we are dealing with food carts or hours of operation. You could say other types of liquor as approved by the Planning Commission. If you want to address that issue. I think if you allow brew pubs in the Ag zone, I think you may find somebody that will try to use that or twist that in some way that it's an allowed use and you'll wind up with a bar.

Mr. Collins: I don't want that, I don't think.

Mr. Signore: Peter, you are going to see unforeseen issues as these progresses, right?

Mr. Comenzo: Yes, 20 years ago we wouldn't be having this conversation about microbreweries.

Mr. Signore: These people go for their permits to get established, they should understand that a lot of this is going to be under the discretion of the Town and how the Town makes changes or perhaps the State makes changes.

Mr. Comenzo: Like I said, it's either allowed or it's not. It's either in the code or it's not. I don't have that discretion to say well, I kind of like your business and I don't like this other business. You are either permitted to have other types of alcoholic beverages on-site or you are not. The other alternative is that you could make it a performance standard and have them come in and request to offer other limited types of beverages. And you could limit it to not hard liquor or whatever you could have a percentage of alcohol maybe. If you wanted to do it that way, you couldn't serve shots of some type of hard liquor as opposed to a different variety of these types of liquors.

Ms. Heinel: My question wasn't necessarily geared towards having other types of alcohol at the establishment, it's more whether they can consume their own. They can sell and consume their own product right on site. Like a tasting room is a tasting room but being sit down with a beer from there, drink a few of them is a little different than a tasting room. My question was more of if a microbrewery opens and they want to sell their product on-site to people to on-site consume, that's really the question. Would we want to allow on-site consumption of at least their own products and not even really getting into the question of having liquor, ciders and beer at the same location.

Mr. Collins: I think they should be able to see their own product but that is what their business is for but we don't want them to be bring in a full line of alcoholic beverages and start having a bar. I think that if someone opens a brewery and they have a tasting room and that person should, I feel should be able to say I like this product, I would like to buy it however it's package but they can only sell their product and not expand to other products, does that make sense? Do you know what I mean? They are producing/manufacturing a item, they are offering you to taste the item and now the reason say that I would like to buy however it's package, a quart, a six pack, I don't go out anymore doing that stuff, but I think if you are allowing them to make it there and taste it there, I think you should be able to take that product home, no other vendors product. If that makes any kind of sense?

Mrs. Flansburg: It does but I also think it's a matter of I have tasted these three (3) and I like this one and I would like a pint of that one.

Ms. Heinel: Right.

Mrs. Flansburg: They would still be limited to their product.

Ms. Heinel: At this point, I just posed a question because I wanted some clarity on that particular point, if no one else has any questions, we do the vote, for an example, a board member wanted to suggest that as a modification for a recommendation, I think you could, otherwise you could just leave it as is.

Mr. Collins: What do you think, Peter?

Mr. Comenzo: I think these other zones are going to allow restaurants which potentially have full-service bar. You could be a brew pub but you can also be a restaurant right, and the restaurant, if they get their approvals to sell liquor from the liquor authority, it really comes down to the Ag zone. I think Courtney is correct and we probably should address sale of whether, either their product from on-site which I believe would make a lot of sense and then whether you would want

limited or you could limit it to the amount of alcohol too. I guess you could say anything under 20% or 15% alcohol could be sold.

Ms. Heinel: That would kind of defeat the purpose of a micro-distillery because they make liquor.

Mr. Comenzo: That's true. I didn't think of that. I'm thinking beer.

Ms. Heinel: I know, but it does include all the other ones.

Mr. Collins: My concern is the Ag zone and not the other ones. I mean if a guy opens up in the business zone, a restaurant, that already established but in an Ag zone, I think it should be, I will make that recommendation if I can when we do it that their own product be sold on their site.

Mr. Comenzo: I guess this is an establishment engaged in the production and distribution of beers, braggot, meads, hard ciders, we could change that to distribution and sale. Just add the word and sale. Distribution could be sales.

Mrs. Flansburg: It was never a question to me that they would not be selling it there. That is their job. They are producing it and they are going to sell it there and they would hope that they are going to make agreements with other businesses to also sell their products like beverage centers or other places. I'm going to go a step further and say that I think they should be able to consume it there, whether everybody agrees with me or not, their own product they should be able to consume it there.

Ms. Heinel: I think if you are going to add that into the text Peter, where you would put it is kind of similar where it's put in the other one. So, it says the establishment may include other uses such as a tasting room with food, offer to consumption in the tasting room and/or on-site consumption of their own products. And just put it into that sentence.

Mr. Comenzo: Does that make sense, everybody?

Mr. Collins: Yes.

Chairman Yuille: We will find out when the first one comes in and we have…

Mr. Comenzo: On-site consumption and sale. Would we add the word sale?

Ms. Heinel: Yes.

Mr. Comenzo: There is a difference between distribution and sale.

Ms. Heinel: I don't know if that makes a huge difference because I think the idea behind production and distribution means they are going to produce it and distribution is inherently a sale to some extent or another involved in that process, but we can add it there just to cover our basis.

Chairman Yuille: NYS has a lot of regulations on this also.

Ms. Heinel: A whole bunch. The ABC Laws are lengthy, strict, and somewhat convoluted.

Chairman Yuille: Anymore discussion? Hearing none, at this time, I will entertain a motion for a recommendation. Please identify whether the motion is going to be positive or negative.

Mrs. Flansburg: I will make a motion that the Planning Commission adopt a positive recommendation for this, but including the new changes that we made specifically to microbrewery, micro-winery, and micro-distillery on-site consumption for sale in the Ag zone.

Mr. Comenzo: Consumption of tasting room and/or on-site consumption and sale of their own product.

Mrs. Flansburg: They are not just limited to tasting, right?

Mr. Heinel: Right.

Chairman Yuille: Motion made by Mrs. Flansburg. Is there a second?

Mr. Collins: I second the motion.

Chairman Yuille: Motion seconded by Mr. Collins. Are there any questions on the motion? Everyone understands that we changed a couple of words and added a couple of words in there? Please call the vote.

Marlo Carter: Mr. Collins?

Mr. Collins: Yes, and the reason being we made the changes that are positive and we are just bringing the town forward and trying to get ahead of the curve on this. I think this is a good recommendation and I hope the Town Board agrees with us.

Marlo Carter: Mrs. Flansburg?

Mrs. Flansburg: Yes, for the same reasons as he stated and I would like to be ahead of it when the projects come before us. I think it is helpful for a clear understanding of what is expected.

Marlo Carter: Mr. D'Alessandro?

Mr. D'Alessandro: Yes, I agree with Mr. Collins and Mrs. Flansburg.

Marlo Carter: Mr. Signore?

Mr. Signore: Yes, I agree with the others.

Marlo Carter: Mr. Miglucci?

Mr. Miglucci: Yes, just like everyone else stated and it is a nice place to take a date.

Marlo Carter: Chairman Yuille?

Chairman Yuille: Yes, and I agree with what everyone said and it is nice to get ahead of it, so we have something out there. It may not happen for a year or two but at least we have something. There will probably be something that comes up that we are going to have to change or NYS may make a change and we must abide by that.

Motion carried.

Thank you, Peter.

Meeting adjourned at 8:07 p.m.

Motion to adjourn the meeting was made by Mr. Collins and Mr. D'Alessandro seconded the motion.

Next meeting scheduled for April 4, 2023

Respectfully Submitted,

Marlo L. Carter
Planning Commission Secretary

RESOLUTION NO. 154.23

TO GRANT A UTILITY EASEMENT TO NIAGARA MOHAWK & VERIZON

THEREFORE, UPON MOTION OF Councilmember _____,

seconded by Councilmember _____,

BE IT RESOLVED BY THE TOWN BOARD AS FOLLOWS:

SECTION 1. The Town Board of the Town of Rotterdam hereby authorizes the Supervisor to grant a utility easement and execute all documents required for acceptance of this easement, as depicted on "Exhibit A", from Niagara Mohawk Power Corp. of 300 Erie Blvd. West, Syracuse, N.Y. 13202 and Verizon New York, Inc. of 140 West Street, New York, N.Y. 10007.

SECTION 2. This resolution shall become effective April 26, 2023.

DATED: April 26, 2023

LEGISLATIVE REQUEST FORM

DATE:	April 19, 2023
TO:	Town Board
FROM:	Larry Lamora
TITLE OF REQUEST:	Grant of Easement to Niagara Mohawk & Verizon
TOWN BOARD MEETING:	April 26, 2023
Background Information:	Town of Rotterdam is developing property at 23 W. Campbell Rd. Schenectady, N.Y. 12306 for the Salt Storage Building.
Evaluation/Analysis:	To develop this property, utilities need to be brought onto this property and an easement needs to be granted to do so.
Recommendation(s):	Town Board to approve a grant of easement to Niagara Mohawk Power Corp. of 300 Erie Blvd. West, Syracuse, N.Y. 13202 and Verizon New York, Inc. of 140 West Street, New York, N.Y. 10007
Attachment/Document(s):	Grant of Easement Agreement
Compliance with Purchasing Policy:	N/A
Effect(s) on Existing Law(s):	
LEGISLATION WILL BE PREPARED BY:	Supervisors Office

GRANT OF EASEMENT

Town of Rotterdam, a Municipal corporation having an address at 1100 Sunrise Boulevard, Schenectady, New York 12306 (hereinafter referred to as "Grantor"), is the owner of that certain parcel of real property commonly known as 23 W. Campbell Road located in the Town of Rotterdam, County of Schenectady in the State of New York, identified on the tax maps of the County of Schenectady, as Section 48/Block 2/Lot 8.5 (SBL# 48.-2-8.5) and pursuant to that certain deed recorded with the County Clerk of the County of Schenectady on 03/24/2021 in Liber 2055 at Page 39 (the "Grantor's Land"), and Grantor, for consideration in the amount of One Dollar ($1.00) and other valuable considerations, the receipt and sufficiency of which are hereby acknowledged, hereby grants to **NIAGARA MOHAWK POWER CORPORATION**, a New York corporation, having an address at 300 Erie Boulevard West, Syracuse, New York 13202 and **VERIZON New York, Inc.** having an address at 140 West Street, New York, NY 10007 (hereinafter collectively referred to as "Grantees"), for Grantees and their lessees, licensees, successors, and assigns a perpetual and nonexclusive easement and right of way through, over, across, under and upon the Grantor's Land (the "Easement") under the following terms and conditions.

Section 1 – Description of the Easement. The Easement provides the Grantees with the right, privilege, and authority to:

a. construct, reconstruct, relocate, extend, repair, maintain, operate, inspect, patrol, and, at their pleasure, remove any poles or lines of poles, supporting structures, cables, crossarms, overhead and underground wires, guys, guy stubs, insulators, transformers, braces, fittings, foundations, anchors, lateral service lines, communications facilities, and other fixtures and appurtenances (collectively, the "Facilities"), which the Grantees shall require now and from time to time, for the transmission and distribution of high and low voltage electric current and for the purpose of transmitting intelligence and communication data, by any means, whether now existing or hereafter devised, for public or private use, in, through, upon, over, under, and across that certain portion of the Grantor's Land described in Section 2 below (the "Easement Area"), and any highways abutting or running through the Grantor's Land, and to renew, replace, remove, add to, and otherwise change the Facilities and each and every part thereof and the location thereof within the Easement Area, and utilize the Facilities within the Easement Area for the purpose of providing service to the Grantor and others; and

b. from time to time, without further payment therefor, to clear the Easement Area of obstructions or structures, and clear and keep cleared the Easement Area by physical and/or mechanical means, of any and all brush, trees, limbs, branches, roots, vegetation, or other obstructions; and

c. from time to time, without further payment therefor, to clear and keep cleared by physical and/or mechanical means, the Grantor's Land beyond the bounds of the Easement Area, of any and all trees, limbs, branches, roots or vegetation that, in the sole judgment of the Grantees, due to species or structural defects or their tall growing nature, are likely to fall into or encroach upon the Easement Area or interfere in any way with the safe and reliable operation of Grantees' existing or proposed Facilities; and

d. excavate or change the grade of the Grantor's Land as is reasonable, necessary, and proper for any and all purposes described in this Easement; provided, however, that the Grantees will, upon completion of the work, backfill and restore any excavated areas to reasonably the same condition as existed prior to such excavation; and

e. pass and repass on foot and with vehicles and equipment, along, over, across and upon the Easement Area and the Grantor's Land in order to access the Easement Area and construct, reconstruct, relocate, use, and maintain roads, paths, causeways, and ways of access to and from the Easement Area as is reasonable and necessary in order to exercise to the fullest extent the Easement.

Section 2 – Location of the Easement Area. The "Easement Area" shall consist of a portion of the Grantor's Land twenty (20) feet in width throughout its extent, the centerline of the Easement Area being the centerline of the Facilities. The general location of the Easement Area is shown on the sketch entitled, **"Easement Sketch-Exhibit A, WR# 30700145"**, which sketch is attached hereto as Exhibit A and recorded herewith. The final and definitive location(s) of the Easement Area shall become established by and upon the final installation and erection of the Facilities by the Grantees in substantial compliance with Exhibit A hereto.

Section 3 – Facilities Ownership. It is agreed that the Facilities shall remain the property of the Grantees, their successors and assigns.

Section 4 – General Provisions. The Grantor, for itself, its heirs, legal representatives, successors, and assigns, hereby covenants and agrees with the Grantees that no act will be permitted within the Easement Area which is inconsistent with the Easement hereby granted; no buildings or structures, or replacements thereof or additions thereto, swimming pools, or obstructions will be erected or constructed above or below grade within the Easement Area; no trees shall be grown,

cultivated, or harvested, and no excavating, mining, or blasting shall be undertaken within the Easement Area without the prior written consent of the Grantees; the Easement shall not be modified nor the Easement Area relocated by the Grantor without the Grantees' prior written consent; the present grade or ground level of the Easement Area will not be changed by excavation or filling; the Grantees shall quietly enjoy the Grantor's Land; and the Grantor will forever warrant title to the Grantor's Land.

The Grantees, their successors and assigns, are hereby expressly given and granted the right to assign this Easement, or any part thereof, or interest therein, and the same shall be divisible between or among two or more owners, as to any right or rights created hereunder, so that each assignee or owner shall have the full right, privilege, and authority herein granted, to be owned and enjoyed either in common or severally. This Grant of Easement shall at all times be deemed to be and shall be a continuing covenant running with the Grantor's Land and shall inure to and be binding upon the successors, heirs, legal representatives, and assigns of the parties named in this Grant of Easement.

IN WITNESS WHEREOF, the Grantor has duly executed this Grant of Easement under seal this _____ day of _____, 20____.

Dear Ms. Collins;

Attached is the easement that is required to move your project forward. Please have the easement signed for the property exactly as indicated on the document.

All easements need to be signed in front of a notary public. In addition, make no changes to the document. **Please do not remove the map from the document.**

Once the easement is signed and notarized, please return the **original** to:

Right of Way Department
National Grid
Attn: Heather Miroff
1125 Broadway
Albany, NY 12204

Until we are in receipt of the **original** document, fully signed and notarized, without any changes, your application can not move forward.

If you have any questions regarding the easement, please contact me at 518-469-4166 or reply to this email. If you have any other questions, please contact your customer order fulfillment rep. at 1-800-260-0054

Very truly yours,

Heather

RESOLUTION NO. 155.23

REQUESTING BIDS FOR ONE (1) GRAPPLE TRUCK

THEREFORE, UPON MOTION OF Councilmember _____,

seconded by Councilmember _____,

BE IT RESOLVED BY THE TOWN BOARD AS FOLLOWS:

SECTION 1. The Town Board of the Town of Rotterdam hereby authorizes the Supervisor to call for bids for one (1) Grapple Truck.

SECTION 2. The Town Clerk of the Town of Rotterdam shall cause the following public notice to be published in the official newspaper of the Town of Rotterdam, and the Supervisor of the Town of Rotterdam shall cause the following public notice be published to the Empire State Purchasing Group on BidNet (http://www.bidnetdirect.com/townofrotterdam) at least five (5) days before the date of reception of bid proposals:

TOWN OF ROTTERDAM
NOTICE TO BIDDERS

PLEASE TAKE NOTICE: That all bids received by the Town Board of the Town of Rotterdam, by Friday, the 5th day of May 2023, at 10:00 A.M., will be opened electronically and in person at that time. The Town Board will subsequently post an official report to the Empire State Purchasing Group on BidNet (http://www.bidnetdirect.com/townofrotterdam) by the close of business the next day, of all bid submissions received pursuant to this notice. Additionally, the official bid report and all bids shall be available in the office of the town clerk for public inspection during regular business hours, for the purchase by the Town of Rotterdam of the following:

ONE (1) GRAPPLE TRUCK

Digital Copies of Specifications may be obtained from the Empire State Purchasing Group on BidNet at http://www.bidnetdirect.com/townofrotterdam. Copies of RFP documents obtained from any other source are not considered official copies. The Town of Rotterdam cannot guarantee the accuracy of any information not obtained from the BidNet Direct website and is not responsible for any errors contained by any information received from an alternate source. Only those vendors who obtain ITB, RFP or RFQ documents from the BidNet system are guaranteed to receive addendum information, if such information is issued. If you obtain the document from a source other than the source indicated, it is recommended that you register on the Empire State Purchasing Group website, http://www.bidnetdirect.com/new-york and obtain an official copy.

ALL BID PROPOSALS MUST BE SUBMITTED PRIOR TO
10:00 A.M., FRIDAY MAY 5, 2023

The Town Board reserves the right to accept or reject any and all bids or proposals or any specific part of any item of any bid.

BY ORDER OF THE ROTTERDAM TOWN BOARD
DIANE M. MARCO, TOWN CLERK

DATED: April 26, 2023
BidNet: Please publish on April 27, 2023
Daily Gazette: Please publish once on April 29, 2023
Town Clerk Post

Request for Bids

ONE (1) GRAPPLE TRUCK

Bid Opening:

Friday, May 5, 2023

@ 10:00 A.M.

TOWN OF ROTTERDAM

BID FORM

The undersigned has read, understands, and agrees to all conditions of this proposal and will furnish material as follows:

ONE (1) GRAPPLE TRUCK

The entire bid is strictly in accordance with the specification set forth in the bid documents herein.

I understand if I am chosen as the lowest responsible bidder, that I must comply with all federal, state, and local laws, as well as rules, regulations, policies and guidance, including the State of New York's newly released guidance on sexual harassment. By submitting a bid, I acknowledge receipt of the Town of Rotterdam *"Non-Discrimination and Harassment (Including Sexual Harassment) in the Workplace"* Policy.

Detailed Specifications:

Grapple Truck

Qty	Description
1	• 2019 or Newer Kenworth T370 Grapple Truck – or similar • 30,000 or less miles • 33,000 GVW(gross vehicle weight) • Auto Transmission • PAC-MAC 20' Grapple Loader KBF-20H with 6' x 20' Dump Body – or similar Bidder agrees to deliver or have an agreed pick-up date of all products and services within 30 days from the awarded bid date scheduled for May 10th, 2023. **NOTE: Questions should be submitted in writing to Larry LaMora, Town of Rotterdam Highway Superintendent llamora@rotterdamny.org or by calling 518-355-7722.**

INSTRUCTIONS TO BIDDERS

1. All bids must be submitted before **10:00 a.m. on May 5, 2023,** the day of opening.

2. Electronic and in person proposals for the furnishing and delivery of goods/services as required for the Town of Rotterdam, as set forth in the specifications prepared by the Town Board and received by **10:00 a.m. May 5, 2023** will be opened electronically and in person at that time, via Empire State Purchasing Group on the BidNet website (http://www.bidnetdirect.com/townofrotterdam). The Town Board will subsequently post an official report to the Empire State Purchasing Group on BidNet by the close of business the same day, of all bid submissions received. Additionally, the official bid report and all bids shall be available in the Office of the Town Clerk for public inspection during regular business hours.

3. Digital Copies of Drawings and Specifications may be obtained from the Empire State Purchasing Group on BidNet at http://www.bidnetdirect.com/townofrotterdam. Copies of RFP documents obtained from any other source are not considered official copies. The Town of Rotterdam cannot guarantee the accuracy of any information not obtained from the BidNet Direct website and is not responsible for any errors contained by any information received from an alternate source. Only those vendors who obtain ITB, RFP or RFQ documents from the BidNet system are guaranteed to receive addendum information, if such information is issued. If you obtain the document(s) from a source other than the source indicated, it is recommended that you register on the Empire State Purchasing Group website, http://www.bidnetdirect.com/new-york and obtain an official copy.

4. Purchases made by the Town of Rotterdam are not subject to State or local taxes or Federal excise taxes. Exemption certificates will be furnished upon request.

5. An "Affidavit of Non-Collusion" is attached and forms a part of this bid proposal. By submission of this bid, each bidder and each person signing on behalf of any bidder, certifies under penalty of perjury, that to the best of his/her knowledge and belief that the prices of the bid have been arrived at independently without collusion, consultation, communication or agreement, for the purpose of restricting competition, as to any matter related to such prices with any other bidder or competitor; that the prices quoted have not and will not be disclosed prior to opening, directly or indirectly, to any other bidder or competitor; that no attempt has been or will be made to induce any other person, partnership or corporation to submit or not submit a bid for the purpose of restricting competition. Each bidder must state that no officer of the Town of Rotterdam or member of the Town Board is directly or indirectly interested in the proposal. Failure to sign this statement will constitute grounds for rejection of bid.

6. Each bidder must acknowledge receipt of and comply with the Town's Non-Discrimination and Harassment (Including Sexual Harassment) in the Workplace policy.

7. Bid proposals shall remain firm, pending bid award, for a period not to exceed thirty (30) days from the bid opening date.

8. The Town Board reserves the right to reject any or all bids and re-advertise.

9. All bids are to be on the basis of delivery prepaid to destination, which shall be buildings of the Town of Rotterdam as specified (if applicable).

10. Delivery(if applicable): Time is of the essence. Material is required as soon as possible and guaranteed date of delivery may be taken into consideration in making award. Upon failure to make delivery as promised, the Town Board of the Town of Rotterdam, New York, may consider the contract breached and will then feel free to go into the open market and to maintain an action against the contractor to recover any differences which the Town Board might stand to lose between the contract price and the market price.

11. Where items or articles or equipment or supplies are designated as manufactured by a specific manufacturer, it is to be understood that the articles as specified represent an accepted standard. Where certain brands of materials, apparatus, or equipment are specified, such goods have been selected in order to establish a standard for the particular service required, but it is not the intention to limit competition thereby. If the bidder proposes to furnish the article which is specified, he is to fill in the amount on the line indicated. If he desires to bid on a substitute for the article specified, which is claimed to be equivalent to the standard specified, the amount should be recorded and also identified as "substitute" bid and furnish the required information relating to the manufacturer. In cases where the bid is based upon a substitute article, the bidder will be asked to submit a sample. Samples will be returned, if desired, as soon as the award is made.

12. The Town Board of the Town of Rotterdam reserves the right to waiver any informalities on bids received, and to accept reasonable substitutes for specified items as long as such substitutes in no way affect the performance of the item for which the bid has been requested.

13. The approximate quantities shown in the bidding documents are not meant to imply that said quantities will in fact be purchased. Payment will be based on an "as delivered" basis at the facilities listed using actual quantities received.

14. Failure to adequately and fully complete the bid packet and/or questions contained in the RFP shall be disqualified and the bid shall be rejected.

NON-COLLUSION BIDDING CERTIFICATION

A. By submission of this bid, each bidder and each person signing on behalf of any bidder certifies, an in the case of a joint bid, each party thereto certifies as to its own organization, under penalty of perjury, that to the best of knowledge and belief:

1) The prices in this bid have been arrived at independently without collusion, consultation, communication, or agreement, for the purposes of restricting competition, as to any matter relating to such prices with any other bidder or with any competitor;

2) Unless otherwise required by law, the prices which have been quoted in this bid have not been knowingly disclosed by the bidder and will not knowingly be disclosed by the bidder prior to opening, directly or indirectly, to any other bidder or to any competitor; and

3) No attempt has been made or will be made by the bidder to induce any other person, partnership or corporation to submit or not to submit a bid for the purpose of restricting competition.

B. A bid shall not be considered for award nor shall any award be made where (A), (1), (2), and (3) above have not been complied with; provided however, that if in any case the bidder cannot make the foregoing certificating, the bidder shall so state and shall furnish with the bid a signed statement which sets forth in detail the reason therefore. Where (A), (1), (2), and (3) above have not been complied with, the bid shall not be considered for award nor shall any award be made unless the head of the purchasing unit of the political subdivision, public department, agency or official thereof to which the bid is made or his designee, determines that such disclosure was not made for the purpose of restricting competition.

C. The fact that the bidder (A) has published price lists, rates or tariffs governing items being procured, (B) has informed prospective customers of proposed or pending publication of new or revised price lists for such items or (C) has sold the same item to other customers at the same prices being bid, does not constitute, without more, a disclosure within the meaning subparagraph (A)(1).

D. Any bid hereafter made to any political subdivision of the state or any public department, agency or official thereof by a corporate bidder for work or state services performed or to be performed or goods sold or to be sold, where competitive bidding is required by statute, rule, regulation, or local law, and where such bid contains the certification referred to in subdivision one (1) of this section, shall be deemed to have been authorized by the board of directors of the bidder, and such authorization shall be deemed to include the signing and submission of the bid and the inclusion therein of the certificate as to non-collusion as the act and deed of the corporation.

903 Non-Discrimination and Harassment (Including Sexual Harassment) in the Workplace

Policy Statement – It is the policy of the Town of Rotterdam to promote a productive work environment and to prohibit conduct by any Elected Official or employee (as defined in Section 104 of the Employee Handbook) that disrupts or interferes with another's work performance or that creates an intimidating, offensive, or hostile work environment. In keeping with this goal, the Town is committed to educate Elected Officials and employees in the recognition and prevention of workplace discrimination and harassment, including sexual harassment, and to provide an effective means of eliminating such discrimination and harassment from the workplace. In short, the Town does not tolerate any form of discrimination or harassment, including sexual harassment, and will take all steps necessary to prevent and stop the occurrence of such activity in the workplace. The accompanying complaint procedure is intended to provide an effective mechanism for reporting, and resolving promptly, complaints of discrimination and harassment, including sexual harassment, without any risk of repercussion to any individual covered by this policy who, in good faith, files such complaint.

Applicability of Policy – This policy applies to all Elected Officials, Appointed Members of Boards and Commissions, employees, supervisors, and Department Heads, whether employed full or part-time, temporary or seasonal, paid or unpaid interns, volunteers, and those employed by companies contracting to provide services in the workplace. Depending on the extent of the Town's exercise of control, this policy may be applied to the conduct of non-Town employees with respect to harassment of Town employees in the workplace.

Prohibited harassment (including sexual harassment) is not limited to the physical workplace itself. It can occur while Elected Officials, employees or other individuals covered by this policy are traveling for Town business or at Town sponsored events or parties. Calls, texts, emails, and social media usage by employees or other individuals covered by this policy can constitute workplace harassment, even if they occur away from the workplace premises, on personal devices, or during non-work hours.

Prohibited Activity – No Elected Official, employee or other individuals covered by this policy shall engage in any of the following:

- Harassment: Unwanted, unreasonable verbal or physical conduct directed toward or affecting another person that disturbs, frightens, insults, threatens, intimidates, demeans, or offends that other person, that continues or is repeated after a request to cease, and that: 1) has the purpose or effect of creating an intimidating, hostile, or offensive work environment; 2) has the purpose or effect of unreasonably interfering with an individual's work performance; or 3) otherwise adversely affects an individual's employment opportunities. Harassment includes offensive or inappropriate images or written materials or electronic communications (e.g. letters, e-mail, text messages, or graffiti) as well as bias-based harassment and sexual harassment (see below).

- Bias-Based Harassment: Harassment that denigrates, offends or shows hostility or aversion toward an individual on the basis of sex, (including gender identity and the

status of being transgender), sexual orientation, race, color, national origin, religion, disability, pregnancy, age, marital status, veteran status, military status, arrest or conviction record, genetic information or predisposing characteristics, domestic violence victim status, or any other protected status. Bias-based harassment includes, but is not limited to: epithets, slurs or negative stereotyping; threatening, intimidating, or hostile acts; denigrating jokes; and written, electronic, or graphic material that denigrates, ridicules, objectifies, or shows hostility, aversion or contempt toward an individual or group and that is placed on walls, bulletin boards, lockers or elsewhere on or in the Town's premises, vehicles, or equipment, or is circulated in the workplace, including through electronic means.

- Discrimination: The Town of Rotterdam is an Equal Opportunity Employer. The Town does not unlawfully discriminate on the basis of sex, (including gender identity and the status of being transgender), sexual orientation, race, color, national origin, religion, disability, pregnancy, age, marital status, veteran status, military status, arrest or conviction record, genetic information or predisposing characteristics, domestic violence victim status, or any other protected status. Unlawful discrimination based on membership in these categories is prohibited by applicable federal, state, or local laws. This policy applies to all terms and conditions of employment, including, but not limited to, hiring, placement, assignments, compensation, promotion, transfer, training, leave of absence, and termination.

Definition of Sexual Harassment – This policy places special attention on the prohibition of sexual harassment in the workplace.

Sexual harassment is a form of sex discrimination and is unlawful under federal, state, and (where applicable) local law. Sexual harassment includes harassment on the basis of sex, sexual orientation, self-identified or perceived sex, gender expression, gender identity and the status of being transgender.

Sexual harassment includes unwelcome conduct which is either of a sexual nature, or which is directed at an individual because of that individual's sex when:

- Such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile or offensive work environment, even if the reporting individual is not the intended target of the sexual harassment;
- Such conduct is made either explicitly or implicitly a term or condition of employment; or
- Submission to or rejection of such conduct is used as the basis for employment decisions affecting an individual's employment.

A sexually harassing hostile work environment includes, but is not limited to, words, signs, jokes, pranks, intimidation or physical violence which are of a sexual nature, or which are directed at an individual because of that individual's sex. Sexual harassment also consists of any unwanted

verbal or physical advances, sexually explicit derogatory statements or sexually discriminatory remarks made by someone which are offensive or objectionable to the recipient, which cause the recipient discomfort or humiliation, or which interfere with the recipient's job performance.

Sexual harassment also occurs when a person in authority tries to trade job benefits for sexual favors. This can include hiring, promotion, continued employment or any other terms, conditions or privileges of employment. This is also called "quid pro quo" harassment.

Any employee who feels harassed should report so that any violation of this policy can be corrected promptly. Any harassing conduct, even a single incident, can be addressed under this policy.

Examples of Sexual Harassment - The following describes some of the types of acts that may be unlawful sexual harassment and that are strictly prohibited:

- Physical acts of a sexual nature, such as:
    - Touching, pinching, patting, kissing, hugging, grabbing, brushing against another employee's body or poking another employee's body;
    - Rape, sexual battery, molestation or attempts to commit these assaults.
- Unwanted sexual advances or propositions, such as:
    - Requests for sexual favors accompanied by implied or overt threats concerning the target's job performance evaluation, a promotion or other job benefits or detriments;
    - Subtle or obvious pressure for unwelcome sexual activities.
- Sexually oriented gestures, noises, remarks or jokes, or comments about a person's sexuality or sexual experience, which create a hostile work environment.
- Sex stereotyping occurs when conduct or personality traits are considered inappropriate simply because they may not conform to other people's ideas or perceptions about how individuals of a particular sex should act or look.
- Sexual or discriminatory displays or publications anywhere in the workplace, such as:
    - Displaying pictures, posters, calendars, graffiti, objects, promotional material, reading materials or other materials that are sexually demeaning or pornographic. This includes such sexual displays on workplace computers or cell phones and sharing such displays while in the workplace.
- Hostile actions taken against an individual because of that individual's sex, sexual orientation, gender identity and the status of being transgender, such as:
    - Interfering with, destroying or damaging a person's workstation, tools or equipment, or otherwise interfering with the individual's ability to perform the job;
    - Sabotaging an individual's work;

- Bullying, yelling, name-calling.

Prohibition Against Retaliation – Unlawful retaliation can be any action that could discourage an employee from coming forward to make or support a claim of discrimination or harassment, including sexual harassment. Adverse action need not be job-related or occur in the workplace to constitute unlawful retaliation (e.g., threats of physical violence outside of work hours).

Unlawful retaliation against any employee who has engaged in "protected activity" is strictly prohibited by this policy as well as (where applicable) federal, state, and local law. Protected activity occurs when a person has:

- made a complaint of harassment or discrimination, either internally or with any anti-discrimination agency;
- opposed harassment or discrimination by making a verbal or informal complaint to management, or by simply informing a supervisor or management of harassment or discrimination;
- reported that another employee has been subjected to harassment or discrimination;
- encouraged a fellow employee to report harassment or discrimination;
- participated in a workplace investigation regarding harassment or discrimination;
- testified or assisted in a proceeding involving harassment or discrimination under the Human Rights Law or other anti-discrimination laws.

Even if the alleged discrimination or harassment does not turn out to rise to the level of a violation of law, the individual is protected from retaliation if the person had a good faith belief that the practices were unlawful. However, the retaliation provision is not intended to protect persons making intentionally false charges of discrimination or harassment.

Reporting of Discrimination and Harassment (including Sexual Harassment) – Reports of alleged discrimination and/or harassment (including sexual harassment) or retaliation may be made verbally or in writing. A form for the submission of a written complaint is attached to this policy and individuals are encouraged to use this form. If an individual chooses to submit a verbal complaint, such complaint will be recorded by the receiver of this complaint on this form. Employees are encouraged to report incidents of discrimination, harassment (including sexual harassment), or retaliation to their Department Head and/or the Town Supervisor as soon as possible after their occurrence. If the employee's Department Head is believed to be involved in the incident, or if the employee is not comfortable in addressing the incident with the Department Head, the report should be made directly to the Town Supervisor. If the Town Supervisor is believed to be involved in the incident or the employee is not comfortable reporting the incident to the Town Supervisor, the employee should report the incident to a member of the Town Board. Employees who believe they have been discriminated against or harassed and would like to obtain guidance as to how to proceed in filing a complaint, should contact their immediate supervisor, their Department Head, the Town Supervisor, or any member of the Town Board. Employees who work during off-hours are encouraged to contact their supervisor, their Department Head, the

Town Supervisor, or any member of the Town Board at home if these individuals do not work during the employee's shift. Non-employees are encouraged to report incidents of alleged discrimination and harassment (including sexual harassment) to either the Department Head of the department where services are being provided, the Town Supervisor, or a member of the Town Board.

Supervisory Responsibility – Supervisory personnel must make every effort to ensure a work environment that is free from discrimination and harassment, including sexual harassment. Any Department Head or supervisor who receives a complaint or information about suspected prohibited activity (as outlined above), observes behavior that may constitute prohibited activity, or for any reason suspects that prohibited activity is occurring, is required to report such suspected prohibited activity to the Town Supervisor, or any member of the Town Board.

In addition to being subject to corrective action or discipline if they engaged in prohibited activity themselves, supervisory personnel will be subject to discipline for failing to report suspected prohibited activity or otherwise knowingly allowing prohibited activity to continue. Supervisory personnel will also be subject to corrective action or discipline for engaging in any form of retaliation prohibited by this policy.

Investigation of Complaint – The Town Supervisor, in consultation with the Town Board, will determine the appropriate individual(s) to conduct the investigation. All complaints pursuant to this policy, whether reported in verbal or written form, will be investigated promptly, thoroughly, and in as impartial a manner as possible. The investigation will normally include conferring with the parties involved and any named or apparent witnesses. All employees are required to cooperate in an investigation, if so directed. All persons involved, including complainants, witnesses and alleged perpetrators will be accorded due process to protect their rights to a fair and impartial investigation. All relevant materials, including all electronic communications, documents, emails or phone records that are relevant to the allegations will also be considered. A written report will be prepared documenting the results of the investigation. The individual who reported the complaint and the individual about whom the complaint was made will be notified of the final determination.

Confidentiality – Complaints of discrimination and harassment, including sexual harassment, will be handled and investigated promptly and in a manner that is as impartial and confidential as possible. In no event will information concerning a complaint be released by the Town to third parties or to anyone within the Town employment who is not directly involved in the investigation or handling of the complaint unless otherwise required by law.

Corrective Action and Discipline – Any employee who is found to have violated any aspect of this policy will be subject to corrective or disciplinary action, up to and including termination of employment, as provided by Town operating procedures, including Civil Service Law Section 75, or a collective bargaining agreement. Any Elected Official who violates this policy will be subject to remedial action as provided for and/or allowed under NYS Public Officers Law, as well as any other applicable statutes. Any vendor, supplier, visitor, customer, or other non-employee who

violates this policy will be subject to remedial action, to the extent that the Town is empowered to take such action.

Legal Protections and External Remedies – Nothing in this policy should be construed as in any way limiting employees' rights to file a formal complaint with the appropriate state or federal agencies responsible for administering anti-discrimination laws. Complainants should be aware that time restrictions may apply and need to be considered.

Harassment (including sexual harassment) is not only prohibited by Town policy but is also prohibited by federal, state, and (where applicable) local law. Aside from the Town's internal process, employees may also choose to pursue legal remedies with the following governmental entities at any time.

New York State Division of Human Rights (DHR)

The Human Rights Law (HRL) applies to employers in New York State with regard to harassment and protects employees and non-employees regardless of immigration status. A complaint alleging violation of the Human Rights Law may be filed either with DHR or in New York State Supreme Court. Complaints with DHR may be filed any time within one year of the harassment. If an individual did not file at DHR, they can sue directly in state court under the HRL, within three years of the alleged discrimination. An individual may not file with DHR if they have already filed an HRL complaint in state court. Filing an internal complaint with the Town does not extend the time limits to file with DHR or in court. The one year or three years is counted from date of the most recent incident of harassment. An attorney is not needed to file a complaint with DHR, and there is no cost to file with DHR. DHR will investigate the complaint and determine whether there is probable cause to believe that discrimination has occurred. Probable cause cases are forwarded to a public hearing before an administrative law judge. If discrimination is found after a hearing, DHR has the power to award relief, which varies but may include requiring the Town to take action to stop the harassment, or redress the damage caused, including paying monetary damages, attorney's fees and civil fines.

DHR's main office contact information is: NYS Division of Human Rights, One Fordham Plaza, Fourth Floor, Bronx, New York 10458, (718) 741-8400. Contact DHR at (888) 392- 3644 or visit dhr.ny.gov/complaint for more information about filing a complaint. The website has a complaint form that can be downloaded, filled out, notarized and mailed to DHR. The website also contains contact information for DHR's regional offices across New York State.

United States Equal Employment Opportunity Commission (EEOC)

The EEOC enforces federal anti-discrimination laws, including Title VII of the 1964 federal Civil Rights Act (codified as 42 U.S.C. § 2000e et seq.). An individual can file a complaint with the EEOC anytime within 300 days from the harassment. There is no cost to file a complaint with the EEOC. The EEOC will investigate the complaint and determine whether there is reasonable cause to believe that discrimination has occurred, at which point the EEOC will issue a Right to Sue letter permitting the individual to file a complaint in federal court. The EEOC does not hold hearings or award relief but may take other action including pursuing cases in federal court on behalf of complaining parties. Federal courts may award remedies if discrimination is found to

have occurred. If an employee believes that he/she has been discriminated against at work, he/she can file a "Charge of Discrimination." The EEOC has district, area, and field offices where complaints can be filed. Contact the EEOC by calling 1-800-669-4000 (1-800-669-6820 (TTY)), visiting their website at www.eeoc.gov or via email at info@eeoc.gov. If an individual filed an administrative complaint with DHR, DHR will file the complaint with the EEOC to preserve the right to proceed in federal court.

Local Protections

Many localities enforce laws protecting individuals from sexual harassment and discrimination. An individual should contact the county, city or town in which they live to find out if such a law exists.

Contact the Rotterdam Police Department

If the harassment involves physical touching, coerced physical confinement or coerced sex acts, the conduct may constitute a crime. Contact the Rotterdam Police Department.

RESOLUTION NO. 156.23

TO AUTHORIZE THE PURCHASE OF ONE PICKUP TRUCK

THEREFORE, UPON MOTION OF Councilmember _____,

seconded by Councilmember _____,

BE IT RESOLVED BY THE TOWN BOARD AS FOLLOWS:

SECTION 1. The Town Board of the Town of Rotterdam hereby authorizes the purchase of one 2023 Ford F150 pickup truck for the Water Treatment Plant, from Metro Ford located at 3601 State St, Schenectady, NY 12304, with compliance under NYS contract number 13074, in the amount not to exceed fifty-three thousand five hundred eighty-six and 67/100 ($53,586.67) dollars.

SECTION 2. This resolution shall become effective April 26, 2023.

DATED: April 26, 2023

LEGISLATIVE REQUEST FORM

DATE: 4/18/2023

FROM: Justin Peterson, Sr. Water Plant Operator

TITLE OF REQUEST: Pickup Truck Purchase

TO: Town Board

TOWN BOARD MEETING: 4/26/2023

Background Information: In the past the water plant has passed vehicles in good working condition to another department in need. We are looking to replace a 2016 F150 with 55,000 miles so that it can be given to another department.

Evaluation/Analysis: A request for quotes along with a vehicle spec. was placed on NYS OGS Vehicle marketplace in order to obtain the best price. We received 3 vehicle quotes in total, 1 for a Dodge Ram that did not meet the spec. and 2 for F150s. Both F150s meet fit the specification and are identical in price. We made the selection based on color as blue is the first choice and white was an alternate. The price includes 3rd party installation of safety lights and equipment. This vehicle is in stock and immediately available.

Recommendation(s): Authorize the purchase of a 2023 F150 to be taken from W58320-2000 (Equipment) from Metro Ford to be used by the Water Plant.

Attachment/Document(s): OGS listing, Vehicle Spec., Vehicle pricing sheets, vehicle window stickers.

Compliance with Purchasing Policy: Yes

Effect(s) on Existing Law(s): N/A

LEGISLATION WILL BE PREPARED BY: Supervisors Office

EPA DOT Fuel Economy and Environment

Gasoline Vehicle

Fuel Economy These estimates reflect new EPA methods beginning with 2017 models.

17 MPG combined city/hwy
15 city 21 highway
5.9 gallons per 100 miles

Starsmart's projected range: from 12 to 20 MPG for this vehicle class: 14-23 MPG.

You spend $5,500 in fuel costs over 5 years compared to the average new vehicle.

Annual fuel cost $2,400

Fuel Economy & Greenhouse Gas Rating: 1 (worst) to 10 (best)

Smog Rating: 1 (worst) to 10 (best)

This vehicle emits 5,308 grams of CO2 per mile. The combined score considers Tailpipe and everything that went into making the fuel, such as mining or growing crops.

Actual results will vary for many reasons, including driving conditions and how you drive and maintain your vehicle. The average new vehicle gets 27 MPG and costs $6,500 to fuel over 5 years. Cost estimates are based on 15,000 miles per year at $2.15 per gallon. MPGe is miles per gasoline gallon equivalent. Vehicle emissions are a significant cause of climate change and smog.

RESOLUTION NO. 158.23

TO RECOGNIZE THE INTRODUCTION OF INTRODUCTORY LOCAL LAW NO. __ OF 2023; TO AMEND CHAPTER 267, WATER, AND SCHEDULING A PUBLIC HEARING THEREON

THEREFORE, UPON MOTION OF Councilmember _____,

seconded by Councilmember _____,

BE IT RESOLVED BY THE TOWN BOARD AS FOLLOWS:

SECTION 1. The Town Board recognizes the introduction of Introductory Local Law No. __ of 2023 to amend Chapter §267, Water, of the Town Code of the Town of Rotterdam.

SECTION 2. The Town Board of the Town of Rotterdam hereby authorizes the Town Clerk to publish in the official newspaper of the Town of Rotterdam not less than ten (10) days prior to the date designated for the public hearing provided for hereby the following notice:

TOWN OF ROTTERDAM
NOTICE OF HEARING

PLEASE TAKE NOTICE: That the Town Board of the Town of Rotterdam will hold a public hearing at the Rotterdam Junction District #1 Firehouse, 1215 Main Street, Rotterdam Junction, New York 12150, at 7:00 p.m. on the 10th day of May, 2023 for the following purpose:

For receipt of comment on the proposed Introductory Local Law No. __ of 2023; To amend Chapter §267, Water, of the Town Code of the Town of Rotterdam.

BY ORDER OF THE ROTTERDAM TOWN BOARD
DIANE M. MARCO, TOWN CLERK

DATED: April 26, 2023

LEGISLATIVE REQUEST FORM

DATE:	April 21, 2023
TO:	Town Board
FROM:	Jack Dodson, Deputy Supervisor
TITLE OF REQUEST:	To enact Local Law No. 5 of 2023; To amend Chapter 267 entitled Water
TOWN BOARD MEETING:	April 21, 2023
Background Information:	Town Code Chapter 267 Water outlines the rules and regulations for: protect the public water supply from contamination pursuant to the State Sanitary Code; water and sprinkler regulations; enforcement; remedies for non-compliance; meter requirements, and schedule of fees.
Evaluation/Analysis:	The law must be amended and passed to adopt the updated revisions to Chapter 267 of the Town Code.
Recommendation(s):	Following the Public Hearing on May 10th, 2023, adopt introductory local law 5 of 2023; To amend chapter 267 entitled Water, of the Town Code of the Town of Rotterdam.
Attachment/Document(s):	Copy of current Chapter 267, proposed amendments to Chapter 267, and Introductory Local Law to amend Chapter 267 entitled Water.
Compliance with Purchasing Policy:	N/A
Effect(s) on Existing Law(s):	N/A
LEGISLATION WILL BE PREPARED BY:	Supervisors Office

Town of Rotterdam, NY
Friday, April 21, 2023

Chapter 267. Water

[HISTORY: Adopted by the Town Board of the Town of Rotterdam 2-28-1996 by L.L. No. 4-1996. Amendments noted where applicable.]

GENERAL REFERENCES
Plumbing — See Ch. **213**.
Sewers — See Ch. **230**.

§ 267-1. Purpose.

The purpose of this chapter is to:

A. Protect the public potable water supply of the Town of Rotterdam from the possibility of contamination by isolating within its customer's internal distribution system or its customer's private water system such contaminations or pollutants which could backflow into the public water supply system.

B. Comply with the requirements of the New York State Sanitary Code 5-1.31.

§ 267-2. Definitions; word usage.

A. For the purpose of this chapter, unless it is plainly evident from the context that a different meaning is intended, certain terms used herein are defined as follows:

AIR GAP SEPARATION
A physical break between a supply pipe and a receiving vessel. The air gap shall be at least double the diameter of the supply pipe, measured vertically above the top rim of the vessel, and in no case less than one inch.

APPROVED CHECK VALVE
A check valve that seats readily and completely. It must be carefully machined to have free-moving parts and assured watertightness. The face of the closure element and valve seat must be bronze, composition or other noncorrodible material which will seat tightly under all prevailing conditions of field use. Pins and bushings shall be bronze or other noncorrodible, nonsticking material, machined for easy, dependable operation. The closure element (e.g., clapper) shall be internally weighted to otherwise internally equipped to promote rapid and positive closure in all sizes where this feature is obtainable.

APPROVED DOUBLE-CHECK-VALVE ASSEMBLY
An assembly of at least two independently acting approved check valves, including tightly closing shutoff valves on each side of the check-valve assembly and suitable test cocks plus connections available for testing the watertightness of each check valve.

APPROVED REDUCED PRESSURE PRINCIPAL BACKFLOW PREVENTION DEVICE
A device incorporating two or more check valves and an automatically operating differential relief valve located between the two checks, two shutoff valves and equipped with necessary appurtenances for testing. The device shall operate to maintain the pressure in the zone between the two check valves, less than the pressure on the public water supply side of the

device. At cessation of normal flow the pressure between the check valves shall be less than the supply pressure. In case of leakage to either valve, the differential relief valve shall operate to maintain this reduced pressure by discharging to the atmosphere. To be approved, these devices must be readily accessible for maintenance and testing and installed in a location where no part of the device will be submerged.

APPROVED WATER SUPPLY

Any water supply approved by, or under the public health supervision of, a public health agency of the State of New York, City of Schenectady or the Town of Rotterdam. In determining what constitutes an approved water supply, the Department of Public Health of the State of New York (herein called "State Health Department") shall have the final judgment as to its safety and potability.

AUXILIARY WATER SUPPLY

Any water supply on or available to the premises other than the Town water supply.

CONSUMER

Any person to whom water is sold and furnished from the Town of Rotterdam.

CONTAMINATION

An impairment of the quality of the Town water supply by the presence of any foreign substance (organic, inorganic, radiological or biological) to a degree which creates a hazard to the public health.

CROSS CONNECTION

Any unprotected connection between any part of the Town waterworks system used or intended to supply water for drinking purposes and any source or system containing water or substance that is not or cannot be approved as safe, wholesome and potable for human consumption.

ENGINEER

The Town Engineer at the Town of Rotterdam, or his authorized representative.

NONTOXIC SUBSTANCE

Any substance of a nonpoisonous nature that may create a moderate or minor hazard to the water supply system.

PERSON

Any natural person, firm, association, organization, partnership, trust or association or persons, joint venture, corporation or company, and includes the United States, the State of New York, the County of Schenectady, any special purpose district and any officer or agent thereof.

PREMISES

Integrated land area, including improvements thereon, undivided by public thoroughfares or water distribution mains of the Town of Rotterdam and where all parts of the premises are operated under the same management and for the same purpose.

PROTECTIVE DEVICE

Any of the following devices:

(1) Air gap separation.

(2) Approved reduced pressure principle backflow prevention device.

(3) Approved double-check-valve assembly.

SERVICE CONNECTION

The terminal end of a service connection from the Town water supply at its point of delivery to the consumer. If a meter is installed, "service connection" means the downstream end of the

meter. No unprotected takeoffs from the service line ahead of any meter or backflow protective device located at the point of delivery to the consumer shall be permitted.

TOWN
The Town of Rotterdam.

TOWN WATER SUPPLY
The approved water supply sold and delivered to consumer's premises through the Water Works System of the Town of Rotterdam.

TOXIC SUBSTANCE
Any substance (liquid, solid or gaseous), including raw sewage and lethal substances, that, when introduced into the water supply system, creates or may create a danger to the health and well-being of the consumer.

B. "Shall" is mandatory; "may" is permissive.

§ 267-3. Where protection is required; type of protection.

A. Auxiliary water supply. Each service connection from the Town water supply for furnishing water to premises having an auxiliary water supply shall be protected against backflow of water from the premises into the Town water supply. Where a single- or dual-family residential customer served by a public water supply system has or proposes to install an auxiliary water supply (i.e., well, cistern, spring, etc.) the supplier of water shall protect the public water supply system against backflow by requiring the customer to perform one of the following:
[Amended 5-12-1999 by L.L. No. 7-1999]

(1) Permanently disconnect the auxiliary water supply from any direct connection to the public water supply system. An inspection to determine compliance with this requirement shall be made by the supplier of water, the local plumbing or building code enforcement official, or their designee. The frequency of inspections shall be at the initial time of disconnection and at periodic intervals thereafter (i.e., every three to five years);

(2) Abandon the auxiliary water supply in a manner acceptable to the state or local Health Department; or

(3) Install an approved reduced pressure zone (RPZ) device at the public water supply service connection in accordance with Section 5-1.31 of the State Sanitary Code.

B. Toxic or hazardous substances. Should a facility be rated hazardous, a reduced pressure zone device would be required independent of a separate system handling the auxiliary water system. We would also require a reduced pressure zone device if the facility were rated nonhazardous and the auxiliary water system did not meet the water quality requirements of the Sanitary Code.

C. Nonhazardous substances. At the service connection to any premises on which a substance that would be objectionable (but not necessarily hazardous to health) if introduced into the Town water supply is handled in such a manner as to constitute a cross connection, the Town water supply shall be protected by an approved double-check-valve assembly.

D. Fire systems. At the service connection to any premises in which a fire protection system is installed, the Town water supply shall be protected based on the water source and arrangement of supplies in accordance with the following classifications:

(1) Class 1.

(a) Direct connection from public water mains only; no pumps, tanks or reservoirs; no physical connections from auxiliary water supplies, no antifreeze or other additives of any kind; all sprinkler drains discharging to atmosphere, dry wells or other safe outlets.

(b) Protection: double-check-valve assembly.

(2) Class 2.

(a) Same as Class 1, except booster pumps may be installed in the connections from the street mains.

(b) Protection: double-check-valve assembly.

(3) Class 3.

(a) Direct connection from public water supply main, plus one or more of the following: elevated storage tanks, fire pumps taking suction from aboveground covered reservoirs or tanks; and pressure tanks.

(b) Protection: double-check-valve assembly.

(4) Class 4.

(a) Directly supplied from public mains similar to Classes 1 and 2 and with an auxiliary water supply on or available to the premises; or an auxiliary supply may be located within 1,700 feet of the pumper connection.

(b) Protection: air gap or reduced pressure principle backflow prevention device.

(5) Class 5.

(a) Directly supplied from public mains and interconnected with auxiliary supplied, such as pumps taking suction from reservoirs exposed to contamination, or rivers and ponds; driven wells; mills or other industrial water systems; or when antifreeze or other industrial water systems; or where antifreeze or other additives are used.

(b) Protection: air gap or reduced pressure principle backflow prevention device.

(6) Class 6.

(a) Combined industrial and fire protection systems supplied from the public water mains only, with or without gravity storage or pump suction tanks.

(b) Protection: determined by the Engineer upon review of engineering drawings of the system.

E. Lawn sprinkling systems.
[Amended 5-12-1999 by L.L. No. 7-1999]

(1) Where a single- or dual-family residential customer served by the public water supply system has or proposes to install a lawn sprinkler or irrigation system, the minimum required backflow protection to prevent backsiphonage shall be a vacuum breaker that shall be located, specified, installed, maintained and accessible for inspection in accordance with Sections 902.2(d)(2) and 902.3(a), (b)(1), (c) and (d) of the Uniform Fire Prevention and Building Code (UFP and BC), respectively, in a manner acceptable to the supplier of water and/or the local plumbing or building code enforcement official.

(2) For the systems described below, the supplier of water shall protect the public water system against backflow by requiring the customer to perform one of the following:

(a) Install an approved double-check valve assembly (DCVA) on those systems which may be subject to backpressure from pumps or elevated piping where no chemical injection takes place; or

(b) Install an approved RPZ device on those systems where provisions are made for chemical injection.

NOTE: The supplier of water may allow protective devices to be installed in the internal supply pipes to a lawn sprinkler or irrigation system, provided that there are no other hazards associated with a residential user as described in the categories "auxiliary water supplies" and "miscellaneous residential water uses" of this document. Containment at the service connection with an approved DCVA or RPZ shall be required in any other case. For options in Subsection **E(2)(a)** or **(b)** above, the device shall be tested in accordance with Section 5-1.31(a)(3) of the State Sanitary Code and maintained in a manner and frequency acceptable to the supplier of water and/or the state or local Health Department.

(3) Automatic rain shut-off, such as Hunter Mini Clik or equal, must be installed as part of pre-installation.
[Amended 8-8-2001 by L.L. No. 10-2001]

(4) An electrical timer shut-off must be installed to control usage of sprinkler system. The timer settings must conform with the rules and regulations for sprinkling as set forth by the town.

F. Cross-connection control.
[Amended 8-8-2001 by L.L. No. 10-2001]

(1) All portions of the water distribution system serving the swimming pool and auxiliary facilities shall be protected against backflow and back-siphonage. Water introduced into the pool, either directly or to the recirculation system, shall be supplied through an air gap or by another method which will prevent backflow and back-siphonage.

(2) Outside water hose bibs shall be protected with a vacuum breaker-backflow preventer such as Watts Series 8 or equal.

G. All existing systems must comply with this local law by May 1, 2004.
[Amended 8-8-2001 by L.L. No. 10-2001]

§ 267-4. Responsibility for maintenance.

A. Consumer responsibility. It shall be the responsibility of each consumer at his own expense to furnish, install and keep in good working order and safe condition any and all protective devices required in this section. The Town shall not be responsible for any loss or damage directly or indirectly resulting from or caused by the improper or negligent installation, operation, use, repair or maintenance of or interfering with any protective device by any consumer or any other person.

B. Conflicts. Whenever two or more conditions exist on any premises for the correction of which different protective devices are required in this chapter, the consumer shall be required only to install the protective device which, in the opinion of the Engineer and County Health Officer, affords the maximum protection to the Town water supply.

§ 267-5. Inspection; records; cost.

[Amended 6-23-2004 by L.L. No. 5-2004]
The consumer on whose premises any protective device is installed shall have each such device inspected annually by an appropriately certified inspector. If successive inspections disclose repeated failures in the operation of any device, the Public Works Coordinator may require more frequent inspections. Each device shall be repaired, overhauled or replaced at the expense of the consumer whenever it is found to be defective. Records of such tests, repairs and overhauls shall be kept and a copy of such records forwarded to the Public Works Coordinator and the Schenectady County Health Department on an annual basis. The Public Works Coordinator shall have the duty of determining that the inspections required herein are performed properly. If following demand, therefore, the consumer fails to have any of the inspections made as required herein or to make the above-described records

available, the Public Works Coordinator shall have the right to inspect the device and the consumer to pay the cost thereof.

§ 267-6. Noncompliance; service to be discontinued; notice; service.

A. No water service connection shall be installed on the premises of any consumer unless the Town water supply is protected as required by this section.

B. Delivery of water to the premises of any consumer may be discontinued by the Engineer if any protective device required by this section has not been installed, inspected, tested and maintained or is defective or has been removed or bypassed.

C. Delivery of water.

(1) Delivery of water shall be discontinued immediately and without notice to the consumer if the Engineer or County Health Officer determined that:

(a) The Town water supply is being contaminated or is in immediate danger of contamination.

(b) A protective device required by this section has not been installed or is defective or has been removed or bypassed.

(c) The consumer cannot immediately be located.

(2) Delivery of water shall not be resumed until any protective device required by this section and approved by the Engineer has been properly installed or until conditions at the consumer's premises causing the contamination or danger of contamination have been abated or corrected to the satisfaction of the Engineer and County Health Officer.

D. Notice.

(1) Except as provided in Subsection **C**, delivery of water shall not be discontinued until written notice thereof has been given to the consumer. The notice shall state:

(a) The conditions or defects which must be corrected.

(b) The manner in which the stated conditions or defects are to be corrected.

(c) The date on or after which delivery of water will be discontinued, and which shall not be less than 15 nor more than 90 days following the date of delivery of mailing of the notice. The Engineer may grant the consumer an extension of an additional period not to exceed 90 days if he determines the consumer has exercised due diligence but has been unable to comply with the notice within the time originally allowed.

(2) The notice shall be given by delivering the same to the consumer, the manager or agent thereof, or to any person in charge of or employed in the place of business of the consumer, or, if the consumer has no place of business, then at the place of residence of the consumer if known or by leaving the notice at either the place of business or the residence of the consumer. If the consumer cannot be found, service of the notice shall be mailed, postage fully prepaid, addressed to the consumer at the place of business or residence set forth in the application of the consumer for water service in the records of the town.

(3) Once discontinued, delivery of water shall not be resumed until any protection device required by this chapter and approved by the Engineer has been properly installed or until the conditions at the consumer's premises creating the need for a protective device have been abated or corrected to the satisfaction of the Engineer.

E. For the purpose of making any inspections or discharging the duties imposed by this chapter, the Engineer shall have the right to enter upon the premises of any consumer. Each consumer, as a condition of the continued delivery to his premises of water from the Town water supply, shall be

considered as having stated his consent to the entry upon his premises of the Engineer for the purposes stated herein.

§ 267-7. Presently installed devices.

All presently installed prevention devices which do not meet the requirements of this section but were approved devices for the purposes described herein at the time of installation and which have been properly maintained shall, except for the inspection and maintenance requirements under § **267-5**, be excluded from the requirements of these rules so long as the Engineer is assured that they will satisfactorily protect the town's water supply. Whenever the existing device is moved from the present location or requires more than minimum maintenance which constitutes a hazard to health, the unit shall be replaced by a backflow prevention device meeting the requirements of this section.

§ 267-8. Enforcement; penalties for offenses.

[Amended 7-9-2003 by L.L. No. 9-2003]

A. Violations. It shall be unlawful for any person, firm or corporation to construct, alter, repair, move, remove, demolish, equip, use, occupy or maintain any premises in violation of any provision of this chapter or to fail in any manner to comply with a notice, directive or order of the Town Engineer, Chief Operator of Water, the Town Building Inspector/Code Enforcement Officer or the designee of any one of them requiring compliance with this chapter.

B. Penalties. Any person, firm or corporation who shall violate any of the provisions of this chapter or any rule or regulation made pursuant thereto shall, upon conviction thereof, be punished by a fine of no less than $500 nor more than $1,000 or imprisonment for a period not to exceed 15 days, or both, for conviction of a first offense; for conviction of a second offense, both of which were committed within a period of five years, punishable by a fine not less than $1,000 nor more than $1,500 or imprisonment for a period not to exceed 15 days, or both; and upon conviction for a third or subsequent offense, all of which were committed within a period of five years, punishable by a fine not less than $1,500 nor more than $2,000 or imprisonment for a period not to exceed 15 days, or both. Each day of continued violation shall constitute a separate, additional offense.
[Amended 6-12-2013 by L.L. No. 7-2013]

§ 267-9. Water and sprinkler regulations for consolidated water districts.

[Added 6-26-2013 by L.L. No. 8-2013]

A. Purpose. Rules, regulations and rates adopted and prescribed by the Town Board of the Town of Rotterdam, Schenectady County, New York, in accordance with § 198 of the Town Law shall apply to the territory of the Town of Rotterdam known and designated as "Water District of the Town of Rotterdam, New York."

B. Applicability. The rules and regulations herein contained shall apply to every person or user supplied with water by the Department of Public Works, and each such person or user must agree to comply with said rules and regulations as set forth herein, and the same shall constitute a part of the contract, express or implied, between such person or user and the Department of Public Works.

C. Permits.

(1) Applications for permits to connect service or supply pipes with either the Water District mains or curb connections must be made in writing at the office of the Department of Public Works by the owner of the premises or his agent on blank forms prepared for that purpose. The application shall specify the particular uses for which water is required. The owner or agent

must furnish the Department of Public Works the correct street and lot number as taken from the deed.

(2) Permits will be issued by the Department of Public Works and shall expire 30 days from date of issuance. All work done under the permit shall be performed by the owner or his agent. No work shall be covered up unless same is first inspected by the Department of Public Works. No work will be inspected until a request by the owner or his agent is made in writing to the Department of Public Works and a request for inspection is given at least 24 hours in advance. All defective work or work done not in accordance with the rules contained herein, the New York State Uniform Fire Prevention and Building Code and the Plumbing Code[1] of the Town of Rotterdam will not be approved and shall be redone, modified or reinstalled in accordance with the directions of the Department of Public Works. Failure to comply by the owner or his agent with the directions of the Department of Public Works to correct any defects in work or to carry out any directions of the Department of Public Works in connection with said work as prescribed herein shall constitute good and sufficient reason for revocation of the permit.
[1] *Editor's Note: See Ch.* ***213****, Plumbing.*

(3) No plumbing or plumbing fixtures shall be installed in any house, building, or structure thereafter to be erected or remodeled unless and until plans for installation thereof shall be first filed and approved by the Department of Public Works and a permit therefor is obtained.

(4) No extension or alteration of service pipes, whether involving new uses of water or not, shall be made without the permission of the Department of Public Works, and for any extension involving new uses of water, an application shall be filed with and approved by the Water Commissioner before such extension is made.

(5) Discontinuance of fixtures. Application must be made for a permit and such permit granted for any desired change in or discontinuance of the use of any fixture on any water service before any such change or discontinuance is made. The charge for the use of water from the fixtures will continue unchanged until the person making such change or discontinuance has notified the office of the Department of Public Works and certified that the change or discontinuance has been made.

D. Connections, construction and maintenance.

(1) Agent or owner. The agent designated and employed by the owner of the premises will be considered the agent of such owner while employed in the execution of the work of introducing water into said premises, and in no case shall the agent of the Department of Public Works or the Town of Rotterdam be responsible for the acts of such agent.

(2) Permit required; excavations. No persons, except the properly authorized employees of the Department of Public Works will be permitted to tap or make any connections with street mains or distributing pipes of the Water District. No person shall make any attachment to or connection with the pipes, or make any additions to or alterations of any tap, pipe, cock or other fixture connected with the pipes supplying water to consumers, unless a permit is first obtained. After inspection of excavations, all excavations on the premises shall be backfilled and shall not be disturbed or uncovered without written permission of the Department of Public Works.

(3) Notice for installation of laterals. After receiving a permit for the installation of any water service, the applicant requesting the work shall notify the Department of Public Works 48 hours in advance of his or her desire to have the lateral installed and shall definitely designate the name of the street and the house or lot number where the lateral is to be installed and the name of the owner or applicant.

(4) Large cut-in connections. If a larger connection than a 1 1/2 inch-tap is required, a cast-iron pipe service not less than two inches in diameter shall be installed by employees of the Department of Public Works only from the main to the property line of the premises, connections with the street main to be made with patented or standard fittings, all material to be furnished by the Department of Public Works. All such services shall have a gate valve placed in the service pipe near the street main, which gate shall be controlled exclusively by the

Department of Public Works. The owner shall be billed for this work at the actual cost of labor, material and pavement out to the Department of Public Works, which amount must be paid to the Receiver of Taxes. No estimate of the cost of installation of any connection, under these rules, shall be binding upon the Department of Public Works or the Town of Rotterdam. Upon failure to pay said charge, the cost of the work performed shall be assessed against said premises and collected as a water charge levied against said premises, in addition to any other remedies provided herein.

(5) Service pipes and fittings. Existing services installed by the Department of Public Works to the property line are to be connected to by the property owner when he makes application for a service to said property. Any changes in the location of the services shall be done at the owner's expense.

(6) Installation. The Department of Public Works shall require an inspection to be made by an inspector from the Department of Public Works of each service pipe and trench before any backfilling is done and may refuse to turn on water where backfilling is done before said inspection is made or where the work does not fulfill the requirements of these rules and regulations in every particular.

(7) Service pipes maintained. The owner of property into which water is introduced by a service pipe will be required to maintain in perfect order, at his own cost and expense, the said service pipe from and including the curb stop to his own premises, including all fixtures therein provided for delivering or supplying water for any purpose, and the curb box must be kept in view and the top thereof even with the sidewalk or street grade at all times, and in a serviceable condition. In case such service and fixtures are not kept in repair, the water may be shut off from the premises until the requirements of this rule are complied with, or the Department of Public Works may make the necessary repairs to conform to this rule and charge the cost thereof to the owner of the property at which this rule is violated and collect such cost from the owner of such property and shut off the water from such property until such charges are paid.

(8) Defective services. In all premises where water from Water District mains is now supplied by a system of pipes and fixtures for water service, and where the service pipes and fixtures are not of the standard or pattern prescribed in the rules and regulations of the Department of Public Works, or where such fixtures and devices for the prevention of damage to the service or of waste of water, as are prescribed in said rules and regulations, are lacking from said system, the owners of said premises shall, at any time when so required by order of the Department of Public Works, make such changes in and additions to said system or fixtures for said water service as shall be necessary in order to comply with such rules and regulations, and at their own cost and expense. In case of failure to comply with this rule at any premises, the water may be shut off from such premises until this rule is complied with.

(9) Discontinuance of service. No deduction shall be made from any bill for water for the discontinuance of the water supply to any premises, unless the owner of such premises shall have given notice to the Department of Public Works, in writing, when and where the water is no longer required and have requested same turned off at the curb stop by the Department of Public Works. All consumers will be charged for the use of water until notice as above is given.

(10) Responsibility for excavations. In the opening of a trench for the introduction of any water service pipe under authority of a permit from the Department of Public Works, the owner and agent will each be held responsible for the trench opened by them. Whenever any trench is opened for making a connection with or laying any water pipe, public safety and convenience shall be duly regarded and conserved by the construction of such bridges across open trenches as may be required to properly insure safety to the public. Red signal lights, barricades, railings and all other necessary means of protection against accident shall be provided by the agent or owner.

(11) Inspectors may enter premises. Employees of the Department of Public Works, upon presentation of proper identification, may enter and must be permitted to enter upon any premises in the Water District where water is being supplied or upon any premises when

application is made for a permit to connect plumbing with the water pipes for the purpose of inspecting the plumbing and fixtures of the water service, and all work in connection with such service.

E. Shutting off.

(1) Water may be shut off by the Department of Public Works from any service or main for the purpose of making or constructing new work, or making repairs in the water system, or of enforcement of payment of moneys or charges due the Department of Public Works for water supply and for other matters in accordance with these rules and regulations. In the case of making or constructing new work or in making repairs, the right is reserved to shut off the water from any consumer without notice for as long a period as may be necessary.

(2) When the water supply has been shut off for a failure to comply with these rules and regulations, it shall not again be turned on except by the Department of Public Works until compliance is made with these rules and regulations in the matter and payment made, by the owner of the premises concerned, to the Receiver of Taxes, of all expenses incurred by the said bureau in so shutting off such water supply. Notice regrading water shutoff shall conform with § **267-6**, Noncompliance; service to be discontinued; notice; service.

F. Change of pressure. The Town of Rotterdam or the Department of Public Works shall not be liable for any damage or loss of any kind, to property or persons, which may arise from any or be caused by any change in or increase of water pressure from any cause whatsoever.

G. In order to maintain sufficient water supply and pressure at all times for fire protection and household use, from May 1 through September 15, lawn sprinkling, garden sprinkling and other use of public water shall be restricted to the following days and times:
[Amended 7-24-2020 by L.L. No. 10-2020]

(1) Automatic lawn sprinkler systems.

(a) All dwellings, buildings, structures, lots, pieces or parcels of land connected to the public water supply, with even-numbered addresses and with automatic lawn sprinkler systems serviced by the municipal supply, may use the public water supply for outside lawn and garden sprinkling on even-numbered calendar days from 1:00 a.m. to 4:00 a.m., regardless of the nature of use of the premises.

(b) All dwellings, buildings, structures, lots, pieces or parcels of land connected to the public water supply, with odd-numbered addresses and with automatic sprinkling systems serviced by the municipal water supply, may use the public water supply for outside lawn and garden sprinkling on odd-numbered calendar days from 1:00 a.m. to 4:00 a.m., regardless of the nature of use of the premises.

(c) All dwellings, buildings, structures, lots, pieces or parcels of land connected to the public water supply, with automatic lawn and garden sprinkling systems serviced by the municipal supply, shall not be permitted to use manually placed and/or handheld lawn sprinklers outside of the times specified in Subsection **G(1)(a)** and **(b)**.

(2) Manually placed lawn sprinklers or handheld watering.

(a) All dwellings, buildings, structures, lots, pieces or parcels of land connected to the public water supply, with even-numbered street addresses and without automatic lawn sprinkling systems serviced by the municipal supply, may use the public water supply for outside lawn and garden sprinkling on even-numbered calendar days from 6:30 a.m. to 8:00 a.m. and 6:30 p.m. to 8:00 p.m., regardless of the nature of use of the premises.

(b) All dwellings, buildings, structures, lots, pieces or parcels of land connected to the public water supply, with odd-numbered street addresses and without automatic lawn sprinkler systems serviced by the municipal supply, may use the public water supply for outside lawn and garden sprinkling on odd-numbered calendar days from 6:30 a.m. to 8:00 a.m. and 6:30 p.m. to 8:00 p.m., regardless of the nature of use of the premises.

(3) The restrictions contained in Subsection **G(2)(a)** and **(b)** above shall not apply to hand-sprinkling of outdoor gardens used for the growing of noncommercial foodstuffs and flower gardens.

(4) In the event of a fire or other water emergency, the Supervisor, upon the recommendations of the Engineer/Director of Public Works, may modify or suspend any or all of the regulations relating to sprinkling for the duration of the emergency. The Engineer/Director of Public Works shall notify the public by publication or other appropriate manner of any modification or suspension of sprinkling as a result of such emergency.

(5) Upon application of any person, the Supervisor, or his/her designee, may vary or modify the restrictions contained herein upon such terms and conditions as he/she deems appropriate. There shall be no appeal from the decision of the Supervisor on an application made under this subsection.

(6) Nothing contained herein shall restrict the use of private wells for outside watering purposes, provided that a sign stating "PRIVATE WELL" must be displayed on the dwelling, readable from the right-of-way. All private wells' water faucets must be permanently labeled. No interconnection of the private well with the public water system shall be permitted.

(7) No person shall fill a swimming pool from the public water supply at any time without the approval of the Superintendent of the Department of Water and Wastewater Management. The Superintendent shall specify the quantity, time and method for filling of swimming pools.

H. Waste of water. Water must not be allowed to run to prevent freezing in the service pipes or their attachments or for the purpose of flushing soil pipes or sewers or for any other purposes on the premises than those paid for or indicated in the application for the same and which are allowed by these rules and regulations. Faucets must be kept properly packed and all other fixtures in repair, so as to prevent leaks.

I. Water meters.

(1) All commercial users shall have water meters. The Department of Public Works reserves the right to order a meter to be placed on any service or to take out a meter and place the consumer on a flat rate whenever in the opinion of the Department of Public Works it is for the best interests of Water District so to do. All water passing through a meter will be charged for, whether used or wasted.

(2) Service in good condition. No meter shall be installed by the Department of Public Works unless the service, service fixtures and plumbing adjacent to the proposed location of the meter are in a good and serviceable condition. The curb box must be readily accessible, the curb cock, stop and waste cock in good working order and any rusty or unsafe pipes next to the proposed location of the meter replaced. The owner, as shown on the latest assessment roll of the Water District, of the premises in which meter is to be installed shall be notified in writing by mail addressed to him at such premises of any required repairs under this rule, and if repairs are not made within 10 days.

(3) Check valves, test tees and bypasses. All meters installed by the Department of Public Works shall have check valves placed next to outlets to prevent hot water from backing through the meter. All services that are metered and require check valves to prevent hot water from backing through the meter shall be supplied, connected and fitted with such check valves up to and including meters of 1 1/2 inches in size by the Department of Public Works. Services requiring a meter over 1 1/2 inches in size and furnished by the property owner may be installed by the Department of Public Works, but if check valves are required, same are to be installed by the property owner. All sizes above 3/5 inch shall have a test tee next to the outlet of meter and the full size of same, then the check and another valve so that meter can be tested at any time in place. If the owner of premises so desires, meters two inches or larger in size may be installed with bypasses so that meters may be removed for testing or repairs made without hindering the supply of water. The expense of such bypasses and additional work shall be borne by the

owner. All such bypasses shall be locked and sealed and under the exclusive control of the Department of Public Works.

(4) Removal. No meter shall be removed or disturbed without the written permission of the Department of Public Works.

(5) Testing. Persons making complaints as to the correctness of meter bills and claiming to be overcharged can, by applying at the Department of Public Works within 10 days after meter bills have become due, have the meter examined and the dial reread. The Department of Public Works is authorized to correct any charge due to a fault in the meter or to incorrect reading of the dial but shall have no power to reduce meter bills for any other reason whatsoever.

(6) Reading of meters. Meters will be read semiannually by regular authorized agents of the Department of Public Works. Bills shall be rendered at such periods of the year as the Water Bureau may direct.

(7) Schedule bills. All bills for water furnished at schedule rates will be payable annually in advance at the office of the Receiver of Taxes on the 15th day of January in each year. For an intermediate period or for a new or additional service, the bill must be paid before the water is turned on.

(8) Meter bills. Bills for metered water will be payable annually, on the 15th day of January of each year, at the office of the Receiver of Taxes.

(9) Special bills. All special bills and charges for services rendered, material sold or expenses incurred by the Department of Public Works in connection with the enforcement of these rules and regulations must be paid at the office of the Receiver of Taxes within 30 days after the bill is rendered. The supply of water may be shut off from the premises with reference to which such charges become due in default of payment of such bills or charges and until bills and charges are paid.

(10) Default in payment of meter bills. In the case of default of payment for the period of 30 days of a meter bill after the same is due, the Department of Public Works may shut off the water supply at the premises to which such bill relates until such bill is paid.

(11) Delinquent water rentals. All delinquent water rents except meter bills which shall remain unpaid at the expiration of 30 days from due date thereof shall carry penalties and interest charges as provided by law.

(12) Nonpayment. Wherever the owner of any premises which are supplied with water shall be charged for water supplied, services rendered, material furnished or expense incurred by the Department of Public Works pursuant to these rules and regulations, and said charges are not paid and the water shall be turned off on account of such nonpayment, no application for water services for such premises need be granted by the Department of Public Works (notwithstanding the said premises may have changed ownership) until such charges shall have been paid in full to the Receiver of Taxes. Further, if water service is not turned off on account of such nonpayment, any such unpaid bills will become a lien against the property and will be added to the Town's assessment rolls for collection.

J. Discontinuance of use of water. Any consumer desiring to discontinue the use of water must notify the Department of Public Works, and an employee of the Department of Public Works will shut the water off at the curb. No rebate will be made for any period of discontinuance of such use less than six months from the time of turning off the water by the Department of Public Works. The fact that different portions of premises can be shut off inside of the same buildings will not entitle the owner to rebate.

K. Partial supply from wells. No rebate shall be made from any water bills under a claim that less water has been used because of a partial use from wells.

L. Failure to make repairs. No rebate for any water bill will be made in cases where the charges result from the failure on the part of the owner or consumer to promptly repair any broken, frozen or defective fixtures or service.

M. Fire hydrants.

(1) All street hydrants are under control of the Department of Public Works. No person shall use a wrench for opening hydrants except a wrench furnished by the Department of Public Works for the purpose. No person except an authorized agent or employee of the Department of Public Works, or of the Fire Department, or a person holding a written permit signed by the Coordinator of the Department of Public Works, shall disturb any hydrant or any part thereof, or take any water therefrom under any circumstances whatever; any person found guilty of violating any provision of this rule shall be guilty of a misdemeanor, and in addition thereto he shall pay to the Water District a penalty in the amount of any damage done to said hydrant and the cost of restoring same to its proper condition.

(2) Obstructions. Any person placing any obstructions that would prevent free access to any fire hydrant shall be guilty of obstruction, and such violation shall be punishable pursuant to the New York State Vehicle and Traffic Law or § **247-8**, Enforcement; penalties for offenses.

N. Operated by employees of Department of Public Works only. No person except an employee of the Department of Public Works shall open, close or in any way interfere with any valve or gate in any water main, conduit or street pipe. Any person who has disturbed or displaced a valve box so that the valve stem cannot be reached by a key, or has covered a valve box or a valve chamber with dirt, paving plank or other material, shall immediately replace the valve box and remove the obstruction. Any person violating this section shall be guilty of a misdemeanor.

O. Commercial use.

(1) Definitions. As used in this subsection, the following terms shall have the meanings indicated:

COMMERCIAL RATE

The prescribed rate as hereinafter set forth for the consumption of water by users other than private consumers and applicable to metered premises where owners or occupants in the course of their occupation or in the conduct of their business use and consume large quantities of water.

COMMERCIAL USER

Any person, firm or corporation consuming a large quantity of water in the course of his or its business or trade carried on the premises.

(2) Sale of water to commercial users.

(a) All commercial users, as defined in this section, are hereby required at their own cost and expense and under the supervision of the Department of Public Works to install on the premises a water meter, which meter shall be the property of Water District and not of the consumer, and may be removed by any authorized employee of Water District for repairs and/or Department of Public Works of supply of water to the premises.

(b) Upon installation of the meters as aforesaid, the water will be supplied in bulk to the metered premises and charged at the following rate:

[1] Basic rate: the rate fixed for private use.

[2] Surcharge is superimposed upon the basic rate.

[3] An amount in addition thereto shall be charged as follows.

[4] Metered water rate:

[a] Minimum charge including first 75,000 gallons: $25.

[b] Next 112,500 gallons at $0.14 per 750 gallons.

[c] Next 187,500 gallons at $0.13 per 750 gallons.

[d] Remainder at $0.12 per 750 gallons.

[5] Collection. Water rents will be collected January 15 of each year. Rates are subject to change without notice. Delinquent water rents shall be levied and collected as prescribed by Section 198 of the Town Law.

P. Should the Department of Public Works determine that water conservation is needed for the health, safety and welfare of the Town, the Town Supervisor may declare the need for water conservation and impose water restrictions, including but not limited to the restriction of water use outside the residence or commercial property.

§ 267-1. Purpose.

The purpose of this chapter is to:

A. Protect the public potable water supply of the Town of Rotterdam from the possibility of contamination by isolating within its customer's internal distribution system or its customer's private water system such contaminations or pollutants which could backflow into the public water supply system.

B. Comply with the requirements of the New York State Sanitary Code 5-1.31.

C. Promulgate the rules and regulations and schedule of fees for town water districts.

§ 267-2. Definitions; word usage.

A. For the purpose of this chapter, unless it is plainly evident from the context that a different meaning is intended, certain terms used herein are defined as follows:

AIR GAP SEPARATION — A physical break between a supply pipe and a receiving vessel. The air gap shall be at least double the diameter of the supply pipe, measured vertically above the top rim of the vessel, and in no case less than one inch.

APPROVED CHECK VALVE — A check valve that seats readily and completely. It must be carefully machined to have free-moving parts and assured watertightness. The face of the closure element and valve seat must be bronze, composition or other noncorrodible material which will seat tightly under all prevailing conditions of field use. Pins and bushings shall be bronze or other noncorrodible, nonsticking material, machined for easy, dependable operation. The closure element (e.g., clapper) shall be internally weighted to otherwise internally equipped to promote rapid and positive closure in all sizes where this feature is obtainable.

APPROVED DOUBLE-CHECK-VALVE ASSEMBLY — An assembly of at least two independently acting approved check valves, including tightly closing shutoff valves on each side of the check- valve assembly and suitable test cocks plus connections available for testing the watertightness of each check valve. Shall be New York State Department of Health (NYSDOH) approved backflow prevention device/assemblies.

APPROVED REDUCED PRESSURE PRINCIPAL BACKFLOW PREVENTION DEVICE — A device incorporating two or more check valves and an automatically operating differential relief valve located between the two checks, two shutoff valves and equipped with necessary appurtenances for testing. The device shall operate to maintain the pressure in the zone between the two check valves, less than the pressure on the public water supply side of the device. At cessation of normal flow the pressure between the check valves shall be less than the supply pressure. In case of leakage to either valve, the differential relief valve shall operate to maintain this reduced pressure by discharging to the atmosphere. To be approved, these devices must be readily accessible for maintenance and testing and installed in a location where no part of the device will be submerged. Shall be New York State Department of Health approved backflow prevention device/assemblies.

APPROVED WATER SUPPLY — Any water supply approved by, or under the public health supervision of, a public health agency of the State of New York, City of Schenectady or the Town of Rotterdam. In determining what constitutes an approved water supply, the Department of Public Health of the State of New York (herein called "State Health Department") shall have the final judgment as to its safety and potability.

AUXILIARY WATER SUPPLY — Any water supply on or available to the premises other than the Town water supply.

CONSUMER — Any person to whom water is sold and furnished from the Town of Rotterdam.

CONTAMINATION — An impairment of the quality of the Town water supply by the presence of any foreign substance (organic, inorganic, radiological or biological) to a degree which creates a hazard to the public health.

CROSS CONNECTION — Any unprotected connection between any part of the Town waterworks system used or intended to supply water for drinking purposes and any source or system containing water or substance that is not or cannot be approved as safe, wholesome and potable for human consumption.

DEPARTMENT OF PUBLIC WORKS – Department Head, Senior Building Inspector/Building Inspector, Town Engineer, Senior Water Treatment Plant Operator or authorized representative.

NONTOXIC SUBSTANCE — Any substance of a nonpoisonous nature that may create a moderate or minor hazard to the water supply system.

PERSON — Any natural person, firm, association, organization, partnership, trust or association or persons, joint venture, corporation or company, and includes the United States, the State of New York, the County of Schenectady, any special purpose district and any officer or agent thereof.

PREMISES — Integrated land area, including improvements thereon, undivided by public thoroughfares or water distribution mains of the Town of Rotterdam and where all parts of the premises are operated under the same management and for the same purpose.

PROTECTIVE DEVICE — Any of the following devices:

(1) Air gap separation.

(2) Approved reduced pressure principle backflow prevention device (NYSDOH approved).

(3) Approved double-check-valve assembly (NYSDOH approved).

SERVICE CONNECTION — The terminal end of a service connection from the Town water supply at its point of delivery to the consumer. If a meter is installed, "service connection" means the downstream end of the meter. No unprotected takeoffs from the service line ahead of any meter or backflow protective device located at the point of delivery to the consumer shall be permitted.

TOWN — The Town of Rotterdam.

TOWN WATER SUPPLY — The approved water supply sold and delivered to consumer's premises through the Water Works System of the Town of Rotterdam.

TOXIC SUBSTANCE — Any substance (liquid, solid or gaseous), including raw sewage and lethal substances, that, when introduced into the water supply system, creates or may create a danger to the health and well-being of the consumer.

B. "Shall" is mandatory; "may" is permissive.

§ 267-3. Where protection is required; type of protection.

A. Auxiliary water supply. Each service connection from the Town water supply for furnishing water to premises having an auxiliary water supply shall be protected against backflow of water from the premises into the Town water supply. Where a single- or dual-family residential customer served by a public water supply system has or proposes to install an auxiliary water supply (i.e., well, cistern, spring, etc.) the supplier of water shall protect the public water supply system against backflow by requiring the customer to perform one of the following: **[Amended 5-12-1999 by L.L. No. 7-1999]**

(1) Permanently disconnect the auxiliary water supply from any direct connection to the public water supply system. An inspection to determine compliance with this requirement shall be made by ~~the supplier of water,~~ the local plumbing or building code enforcement official, or their designee. The frequency of inspections shall be at the initial time of disconnection and at periodic intervals thereafter (i.e., every three to five years);

~~(2) Abandon the auxiliary water supply in a manner acceptable to the state or local Health Department; or~~

~~(3) Install an approved reduced pressure zone (RPZ) device at the public water supply service connection in accordance with Section 5-1.31 of the State Sanitary Code.~~

~~B.~~ Toxic or hazardous substances. Should a facility be rated hazardous, a reduced pressure zone device ~~would~~ shall be required. ~~independent of a separate system handling the auxiliary water system. We would also require a reduced pressure zone device if the facility were rated nonhazardous and the auxiliary water system did not meet the water quality requirements of the Sanitary Code.~~

C. Nonhazardous substances. At the service connection to any premises on which a substance that would be objectionable (but not necessarily hazardous to health) if introduced into the Town water supply is handled in such a manner as to constitute a cross connection, the Town water supply shall be protected by an approved double-check-valve assembly.

D. Sewage Treatment Plant/Pump Stations – At the service connection to any sewage treatment plant or sewage pumping station, the town water supply shall be protected by an air gap separation. The air gap shall be

located as close as practicable to the service connection and all piping between the service connection and receiving tank shall be entirely visible. If these conditions cannot be reasonably met, the town water supply shall be protected with an approved reduced-pressure principal backflow prevention device, provided that this alternative is acceptable by the NYSDOH.

E. Fire systems. At the service connection to any premises in which a fire protection system is installed, the Town water supply shall be protected based on the water source and arrangement of supplies in accordance with the following classifications:

(1) Class 1.

(a) Direct connection from public water mains only; no pumps, tanks or reservoirs; no physical connections from auxiliary water supplies, no antifreeze or other additives of any kind; all sprinkler drains discharging to atmosphere, dry wells or other safe outlets.

(b) Protection: double-check-valve assembly.

(c) Use NYSDOH Form 347 – Application for Approval of Backflow Prevention Device.

(2) Class 2.

(a) Same as Class 1, except booster pumps may be installed in the connections from the street mains.

(b) Protection: double-check-valve assembly.

(c) Use NYSDOH Form 347 – Application for Approval of Backflow Prevention Device.

(3) Class 3.

(a) Direct connection from public water supply main, plus one or more of the following: elevated storage tanks, fire pumps taking suction from aboveground covered reservoirs or tanks; and pressure tanks.

(b) Protection: double-check-valve assembly.

(c) Use NYSDOH Form 347 – Application for Approval of Backflow Prevention Device.

(4) Class 4.

(a) Directly supplied from public mains similar to Classes 1 and 2 and with an auxiliary water supply on or available to the premises; or an auxiliary supply may be located within 1,700 feet of the pumper connection.

(b) Protection: air gap or reduced pressure principle backflow prevention device.

(c) Use NYSDOH Form 347 – Application for Approval of Backflow Prevention Device.

(5) Class 5.

(a) Directly supplied from public mains and interconnected with auxiliary supplied, such as pumps taking suction from reservoirs exposed to contamination, or rivers and ponds; driven wells; mills or other industrial water systems; or when antifreeze or other industrial water systems; or where antifreeze or other additives are used.

(b) Protection: air gap or reduced pressure principle backflow prevention device.

(c) Use NYSDOH Form 347 – Application for Approval of Backflow Prevention Device.

(6) Class 6.

(a) Combined industrial and fire protection systems supplied from the public water mains only, with or without gravity storage or pump suction tanks.

(b) Protection: determined by the Department Head of DPW upon review of engineering drawings of the system.

(c) Use NYSDOH Form 347 – Application for Approval of Backflow Prevention Device.

F. Lawn sprinkling systems. **[Amended 5-12-1999 by L.L. No. 7-1999]**

(1) Where a single- or dual-family residential customer served by the public water supply system has or proposes to install a lawn sprinkler or irrigation system, the minimum required backflow protection to prevent back-siphonage shall be a vacuum breaker that shall be located, specified, installed, maintained and accessible for inspection in accordance with Sections 902.2(d)(2) and 902.3(a), (b)(1), (c) and (d) of the Uniform Fire Prevention and Building Code (UFP and BC), respectively, in a manner acceptable to the supplier of water and/or the local plumbing or building code enforcement official.

(2) For the systems described below, the supplier of water shall protect the public water system against backflow by requiring the customer to perform one of the following:

(a) Install an approved double-check valve assembly (DCVA) on those systems which may be subject to backpressure from pumps or elevated piping where no chemical injection takes place; or

(b) Install an approved RPZ device on those systems where provisions are made for chemical injection.

NOTE: The supplier of water may allow protective devices to be installed in the internal supply pipes to a lawn sprinkler or irrigation system, provided that there are no other hazards associated with a residential user as described in the categories "auxiliary water supplies" and "miscellaneous residential water uses" of this document. Containment at the service connection with an approved DCVA or RPZ shall be required in any other case. For options in Subsection E(2)(a) or (b) above, the device shall be tested in accordance with Section 5-1.31(a)(3) of the State Sanitary Code and maintained in a manner and frequency acceptable to the ~~supplier of water~~ Department of Public Works and/or the state or local Health Department.

(3) Automatic rain shut-off, such as Hunter Mini Clik or equal, must be installed as part of pre-installation. **[Amended 8-8-2001 by L.L. No. 10-2001]**

(4) An electrical timer shut-off must be installed to control usage of sprinkler system. The timer settings must conform with the rules and regulations for sprinkling as set forth by ~~the town~~ Section 267-9.

G. Cross-connection control. **[Amended 8-8-2001 by L.L. No. 10-2001]**

(1) All portions of the water distribution system serving the swimming pool and auxiliary facilities shall be protected against backflow and back-siphonage. Water introduced into the pool, either directly or to the recirculation system, shall be supplied through an air gap or by another method which will prevent backflow and back-siphonage.

(2) Outside water hose bibs shall be protected with a vacuum breaker-backflow preventer such as Watts Series 8 or equal.

H. All existing systems must comply with this local law by May 1, 2004. **[Amended 8-8-2001 by L.L. No. 10-2001]**

§ 267-4. Responsibility for maintenance.

A. Consumer responsibility. It shall be the responsibility of each consumer at his own expense to furnish, install and keep in good working order and safe condition any and all protective devices required in this section. The Town shall not be responsible for any loss or damage directly or indirectly resulting from or caused by the improper or negligent installation, operation, use, repair or maintenance of or interfering with any protective device by any consumer or any other person.

B. Conflicts. Whenever two or more conditions exist on any premises for the correction of which different protective devices are required in this chapter, the consumer shall be required only to install the protective device which, in the opinion of the ~~Engineer~~ Department of Public Works and ~~County Health Officer~~ NYSDOH, affords the maximum protection to the Town water supply.

§ 267-5. Inspection; records; cost. [Amended 6-23-2004 by L.L. No. 5-2004]

(1) The consumer on whose premises any protective device is installed shall have each such device inspected annually by an appropriately certified inspector. The certified inspector

shall report inspection results on NYSDOH Form 1013 – Report on the Test and Maintenance of Backflow Prevention Devices. If successive inspections disclose repeated failures in the operation of any device, the ~~Public Works Coordinator~~ Department of Public Works ~~may~~s h a l l require more frequent inspections. Each device shall be repaired, overhauled or replaced at the expense of the consumer whenever it is found to be defective. Records of such tests, repairs and overhauls shall be kept and a copy of such records forwarded to the ~~Public Works Coordinator~~ Department of Public Works and the Schenectady County Health Department on an annual basis. The ~~Public Works Coordinator~~ Department of Public Works shall have the duty of determining that the inspections required herein are performed properly. If following demand, therefore, the consumer fails to have any of the inspections made as required herein or to make the above-described records available, the ~~Public Works Coordinator~~ Department of Public Works shall have the right to inspect the device and the consumer to pay the cost thereof.

§ 267-6. Noncompliance; service to be discontinued; notice; service.

A. No water service connection shall be installed on the premises of any consumer unless the Town water supply is protected as required by this section.

B. Delivery of water to the premises of any consumer may be discontinued by the ~~Engineer~~ Department of Public Works if any protective device required by this section has not been installed, inspected, tested and maintained or is defective or has been removed or bypassed.

C. Delivery of water.

(1) Delivery of water shall be discontinued immediately and without notice to the consumer if the ~~Engineer~~ Department of Public Works or County Health Officer (NYSDOH) determined that:

(a) The Town water supply is being contaminated or is in immediate danger of contamination.

(b) A protective device required by this section has not been installed or is defective or has been removed or bypassed.

(c) The consumer cannot immediately be located.

(2) Delivery of water shall not be resumed until any protective device required by this section and approved by the ~~Engineer~~ Department of Public Works has been properly installed or until conditions at the consumer's premises causing the contamination or danger of contamination have been abated or corrected to the satisfaction of the ~~Engineer~~ Department of Public Works and County Health Officer (NYSDOH).

D. Notice.

(1) Except as provided in Subsection C, delivery of water shall not be discontinued until written notice thereof has been given to the consumer. The notice shall state:

(a) The conditions or defects which must be corrected.

(b) The manner in which the stated conditions or defects are to be corrected.

(c) The date on or after which delivery of water will be discontinued, and which shall not be less than 15 nor more than 90 days following the date of delivery of mailing the notice. The ~~Engineer~~ Department of Public Works may grant the consumer an extension of an additional period not to exceed 90 days if he determines the consumer has exercised due diligence but has been unable to comply with the notice within the time originally allowed.

(2) The notice shall be given by delivering the same to the consumer, the manager or agent thereof, or to any person in charge of or employed in the place of business of the consumer, or, if the consumer has no place of business, then at the place of residence of the consumer if known or by leaving the notice at either the place of business or the residence of the consumer. If the consumer cannot be found, service of the notice shall be mailed, postage fully prepaid, addressed to the consumer at the place of business or residence set forth in the application of the consumer for water service in the records of the Town.

(3) Once discontinued, delivery of water shall not be resumed until any protection device required by this chapter and approved by the ~~Engineer~~ Department of Public Works has been properly installed or until the conditions at the consumer's premises creating the need for a protective device have been abated or corrected to the satisfaction of the Department of Public Works.

E. For the purpose of making any inspections or discharging the duties imposed by this chapter, the Department of Public Works shall have the right to enter upon the premises of any consumer. Each consumer, as a condition of the continued delivery to his premises of water from the Town water supply, shall be considered as having stated his consent to the entry upon his premises of the ~~Engineer~~ Department of Public Works for the purposes stated herein.

§ 267-7. Presently installed devices.

All presently installed prevention devices which do not meet the requirements of this section but were approved devices for the purposes described herein at the time of installation and which have been properly maintained shall, except for the inspection and maintenance requirements under § 267-5, be excluded from the requirements of these rules so long as the Department of Public Works is assured that they will satisfactorily protect the town's water supply. Whenever the existing device is moved from the present location or requires more than minimum maintenance which constitutes a hazard to health, the unit shall be replaced by a backflow prevention device meeting the requirements of this section.

§ 267-8. Enforcement; penalties for offenses. [Amended 7-9-2003 by L.L. No. 9-2003]

A. Violations. It shall be unlawful for any person, firm or corporation to construct, alter, repair, move, remove, demolish, equip, use, occupy or maintain any premises in violation of any provision of this chapter or to fail in any manner to comply with a notice, directive or order of the Department of Public Works ~~Town Engineer~~, ~~Chief Operator of Water, the Town Building Inspector/Code Enforcement Officer~~ or the designee ~~of any one of them~~ requiring compliance with this chapter.

B. Penalties. Any person, firm or corporation who shall violate any of the provisions of this chapter or any rule or regulation made pursuant thereto shall, receive a warning for the first violation, upon conviction thereof, be punished by a fine of no less than

~~$500~~ $100 for the second violation, $200 for the third violation, and $300 for each subsequent violations. ~~nor more than $1,000 or imprisonment for a period not to exceed 15 days, or both, for conviction of a first offense; for conviction of a second offense, both of which were committed within a period of five years, punishable by a fine not less than $1,000 nor more than $1,500 or imprisonment for a period not to exceed 15 days, or both; and upon conviction for a third or subsequent offense, all of which were committed within a period of five years, punishable by a fine not less than $1,500 nor more than $2,000 or imprisonment for a period not to exceed 15 days, or both.~~ Each day of continued violation shall constitute a separate, additional offense. ~~**[Amended 6-12-2013 by L.L. No. 7-2013]**~~

§ 267-9. Water and sprinkler regulations for consolidated water districts. [Added 6-26-2013 by L.L. No. 8-2013]

A. Purpose. Rules, regulations and rates adopted and prescribed by the Town Board of the Town of Rotterdam, Schenectady County, New York, in accordance with § 198 of the Town Law shall apply to the territory of the Town of Rotterdam known and designated as "Water District of the Town of Rotterdam, New York."

B. Applicability. The rules and regulations herein contained shall apply to every person or user supplied with water by the Department of Public Works, and each such person or user must agree to comply with said rules and regulations as set forth herein, and the same shall constitute a part of the contract, express or implied, between such person or user and the Department of Public Works.

C. Permits.

1. Applications for permits to connect service or supply pipes with either the Water District mains or curb connections must be made in writing at the office of the Department of Public Works by the owner of the premises or his agent on forms prepared for that purpose. The application shall specify the particular uses for which water is required. The owner or agent must furnish the Department of Public Works the correct street and lot number as taken from the deed.

2. Permits will be issued by the Department of Public Works and shall expire 30 days from date of issuance. All work done under the permit shall be performed by the owner or his

agent. No work shall be covered up unless same is first inspected by the Department of Public Works. No work will be inspected until a request by the owner or his agent is made in writing to the Department of Public Works and a request for inspection is given at least 24 hours in advance. All defective work or work done not in accordance with the rules contained herein, the New York State Uniform Fire Prevention and Building Code and the Plumbing Code[1] of the Town of Rotterdam will not be approved and shall be redone, modified or reinstalled in accordance with the directions of the Department of Public Works. Failure to comply by the owner or his agent with the directions of the Department of Public Works to correct any defects in work or to carry out any directions of the Department of Public Works in connection with said work as prescribed herein shall constitute good and sufficient reason for revocation of the permit.

3. No plumbing or plumbing fixtures shall be installed in any house, building, or structure thereafter to be erected or remodeled unless and until plans for installation thereof shall be first filed and approved by the Department of Public Works and a permit therefore is obtained.

4. No extension or alteration of service pipes, whether involving new uses of water or not, shall be made without the permission of the Department of Public Works, and for any extension involving new uses of water, an application shall be filed with and approved by the ~~Water Commissioner~~ Department of Public Works before such extension is made.

5. Discontinuance of fixtures. Application must be made for a permit and such permit granted for any desired change in or discontinuance of the use of any fixture on any water service before any such change or discontinuance is made. The charge for the use of water from the fixtures will continue unchanged until the person making such change or discontinuance has notified the office of the Department of Public Works and certified that the change or discontinuance has been made.

D. Connections, construction and maintenance.

1. Agent or owner. The agent designated and employed by the owner of the premises will be considered the agent of such owner while employed in the execution of the work of

introducing water into said premises, and in no case shall the agent of the Department of Public Works or the Town of Rotterdam be responsible for the acts of such agent.

2. Permit required; excavations. No persons, except the properly authorized employees of the Department of Public Works will be permitted to tap or make any connections with street mains or distributing pipes of the Water District. No person shall make any attachment to or connection with the pipes, or make any additions to or alterations of any tap, pipe, cock or other fixture connected with the pipes supplying water to consumers, unless a permit is first obtained. After inspection of excavations, all excavations on the premises shall be backfilled and shall not be disturbed or uncovered without written permission of the Department of Public Works.

3. Notice for installation of laterals. After receiving a permit for the installation of any water service, the applicant requesting the work shall notify the Department of Public Works 48 hours in advance of his or her desire to have the lateral installed and shall (as per definition of shall do not need definitely) designate the name of the street and the house or lot number where the lateral is to be installed and the name of the owner or applicant.

4. Large cut-in connections. If a larger connection than a 1 1/ 2 inch-tap is required, a ~~cast-iron~~ Type K copper pipe service not less than two inches in diameter shall be installed or if larger than 3-inch diameter is required, a Class 52 ductile iron, double cement line, seal coated pipe shall be installed by ~~employees of~~ the Department of Public Works only from the main to the property line of the premises, connections with the street main to be made with patented or standard fittings, all material to be furnished by the Department of Public Works. All services greater than 3-inch ~~such services~~ shall have a gate valve placed in the service pipe near the street main, which gate valve shall be controlled exclusively by the Department of Public Works. The property owner shall be billed for ~~this~~ service work at the actual cost of labor, material, pavement, and final restoration ~~out to the Department of Public Works~~, ~~which,~~ said amount must be paid to the Receiver of Taxes. No estimate of the cost of installation of any connection, under these rules, shall be binding upon the Department of Public Works or the Town of Rotterdam. Upon failure to pay said charge, the cost of the

work performed shall be assessed against said premises and collected as a water charge levied against said premises, in addition to any other remedies provided herein.

5. Service pipes and fittings. Existing services installed by the Department of Public Works to the property line are to be connected ~~to~~ by the property owner when ~~he makes~~ application is made for a service to said property. Any changes in the location of the service~~s~~ shall be done at the owner's expense.

6. Installation. The Department of Public Works shall require an inspection to be made by an inspector from the Department of Public Works of each service pipe and trench before any backfilling is done. The inspector may refuse to turn on water where backfilling is done before said inspection is made or where the work does not fulfill the requirements of these rules and regulations. A $500 fine or re-excavating the trench to expose the pipe for inspection shall be the remedy for non-conformance.

7. Service pipes maintained. The owner of property into which water is introduced by a service pipe will be required to be maintained in ~~perfect~~ reasonable order, at his own cost and expense, the said service pipe from and including the curb stop to his own premises, including all fixtures therein provided for delivering or supplying water for any purpose, and the curb box must be kept in view and the top thereof even with the ground, sidewalk or street grade at all times, and in a serviceable condition. In case such service and fixtures are not kept in repair, the water may be shut off from the premises until the requirements of this rule are complied with, or the Department of Public Works may make the necessary repairs, to conform to this rule, and charge the cost of repair ~~thereof~~ to the owner of the property. The cost of the repair shall be paid by the property owner within 60 days from date of completion~~. at which this rule is violated and collect such cost from the owner of such property and~~ The Department of Public Works may shut off the water from such property until such time as charges are paid or a mutual payment agreement is worked out.

8. Defective services. In all premises where water from water district mains is now supplied by a system of pipes and fixtures for water service, and where the service pipes and fixtures are not of the standard or pattern prescribed in the

rules and regulations of the Department of Public Works, or where such fixtures and devices for the prevention of damage to the service or of waste of water, as are prescribed in said rules and regulations, are lacking from said system, the owners of said premises shall, at any time when so required by order of the Department of Public Works, make such changes in and additions to said system or fixtures for said water service as shall be necessary in order to comply with such rules and regulations, and at their own cost and expense. In case of failure to comply with this rule at any premises, the water may be shut off from such premises until this rule is complied with.

9. Discontinuance of service. No deduction shall be made from any bill for water for the discontinuance of the water supply to any premises, unless the owner of such premises shall have received a permit to terminate, completed the work and had an inspection showing the termination of water to said property. All consumers will be charged for the use of water for the current year and will not be charged for water the following year.

10. Responsibility for excavations. In the opening of a trench for the introduction of any water service pipe under authority of a permit from the Department of Public Works, the owner and agent will each be held responsible for the trench opened by them. Whenever any trench is opened for making a connection with or laying any water pipe, public safety and convenience shall be duly regarded and conserved by the construction of road plates, ~~such~~ bridges, or other protective devices across open trenches as may be required to properly insure safety to the public. ~~Red signal~~ Approved construction lights, barricades, railings and all other necessary means of protection against accident shall be provided by the agent or owner.

11. Inspectors may enter premises. Employees of the Department of Public Works, upon presentation of proper identification, may enter and must be permitted to enter upon any premises in the Water District where water is being supplied or upon any premises when application is made for a permit to connect plumbing with the water pipes for the purpose of inspecting the plumbing and fixtures of the water service, and all work in connection with such service.

E. Shutting off.

1. Water may be shut off by the Department of Public Works from any service or main for the purpose of making or constructing new work, or making repairs in the water system, or of enforcement of payment of monies or charges due the Department of Public Works for water supply and for other matters in accordance with these rules and regulations. In the case of making or constructing new work or in making repairs, the right is reserved to shut off the water from any consumer without notice for as long a period as may be necessary.

2. When the water supply has been shut off for a failure to comply with these rules and regulations, it shall not again be turned on except by the Department of Public Works until compliance is made with these rules and regulations in the matter and payment made, by the owner of the premises concerned, to the Receiver of Taxes, of all expenses incurred by the said ~~Bureau~~ Department of Public Works in so shutting off such water supply. Notice regrading water shutoff shall conform with § 267-6, Noncompliance; service to be discontinued; notice; service.

F. Change of pressure. The Town of Rotterdam nor the Department of Public Works shall not be liable for any damage or loss of any kind, to property or persons, which may arise from any or be caused by any change ~~in or~~ increase/decrease of water pressure from any cause whatsoever.

G. In order to maintain sufficient water supply and pressure at all times for fire protection and household use, from May 1 through ~~September~~ October 15, lawn sprinkling, garden sprinkling and other use of public water shall be restricted to the following days and times: [Amended 7-24-2020 by L.L. No. 10-2020]

1. Automatic lawn sprinkler systems.

(a) All dwellings, buildings, structures, lots, pieces or parcels of land connected to the public water supply, with even-numbered addresses and with automatic lawn sprinkler systems serviced by the municipal supply, may use the public water supply for outside lawn and garden sprinkling on even-numbered calendar days from ~~1:00~~ 7:00 a.m. to ~~4:00~~ 9:00 a.m. and 7:00 pm to 9:00 pm, regardless of the nature of use of the premises.

(b) All dwellings, buildings, structures, lots, pieces or parcels of land connected to the public water supply, with odd-numbered addresses and with automatic sprinkling systems serviced by the municipal water supply, may use the public water supply for outside lawn and garden sprinkling on odd-numbered calendar days from ~~1:00~~ 7:00 a.m. to ~~4:00~~ 9:00 a.m. and 7:00 pm to 9:00 pm, regardless of the nature of use of the premises.

(c) All dwellings, buildings, structures, lots, pieces or parcels of land connected to the public water supply, with automatic lawn and garden sprinkling systems serviced by the municipal supply, shall not be permitted to use manually placed and/or handheld lawn sprinklers outside of the times specified in Subsection G(1)(a) and (b).

(d) Sprinkling outside of the designated days and hours is strictly prohibited.

2. Manually placed lawn sprinklers or handheld watering.

(a) All dwellings, buildings, structures, lots, pieces or parcels of land connected to the public water supply, with even-numbered street addresses and without automatic lawn sprinkling systems serviced by the municipal supply, may use the public water supply for outside lawn and garden sprinkling on even-numbered calendar days from ~~6:30~~ 7:00 a.m. to ~~8:00~~ 9:00 a.m. and ~~6:30~~ 7:00 p.m. to ~~8:00~~ 9:00 p.m., regardless of the nature of use of the premises.

(b) All dwellings, buildings, structures, lots, pieces or parcels of land connected to the public water supply, with odd-numbered street addresses and without automatic lawn sprinkler systems serviced by the municipal supply, may use the public water supply for outside lawn and garden sprinkling on odd-numbered calendar days from ~~6:30~~ 7:00 a.m. to ~~8:00~~ 9:00 a.m. and ~~6:30~~ 7:00 p.m. to ~~8:00~~ 9:00 p.m., regardless of the nature of use of the premises.

(c) Sprinkling outside of the designated days and hours in strictly prohibited.

3. The restrictions contained in Subsection G(2)(a) and (b) above shall not apply to hand-sprinkling of outdoor gardens used for the growing of noncommercial foodstuffs and flower gardens.

4. In the event of a fire or other water emergency, the Town Supervisor, upon the recommendations of the ~~Engineer/Director of Public Works~~

Department of Public Works, may modify or suspend any or all of the regulations relating to sprinkling for the duration of the emergency. The ~~Engineer/Director of Public Works~~ Department of Public Works shall notify the public by publication or other appropriate manner of any modification or suspension of sprinkling as a result of such emergency.

5. Upon application of any person, the Town Supervisor, or his/her designee, may vary or modify the restrictions contained herein upon such terms and conditions as he/she deems appropriate. There shall be no appeal from the decision of the Town Supervisor on an application made under this subsection.

6. Nothing contained herein shall restrict the use of private wells for outside watering purposes, provided that a sign stating "PRIVATE WELL" must be displayed on the dwelling, readable from the right-of- way. All private wells' water faucets must be permanently labeled. No interconnection of the private well with the public water system shall be permitted.

7. No person shall fill a swimming pool from the public water supply at any time without the approval of the ~~Superintendent of the Department of Water and Wastewater Management~~ Department of Public Works. The ~~Superintendent~~ Department of Public Works shall specify the quantity, time and method for filling of swimming pools upon receipt of pool permit.

H. Waste of water. Water must not be allowed to run to prevent freezing in the service pipes or their attachments or for the purpose of flushing soil pipes or sewers or for any other purposes on the premises than those paid for or indicated in the application for the same and which are allowed by these rules and regulations. Faucets must be kept properly packed and all other fixtures in repair, so as to prevent leaks.

I. Water meters.

1. All commercial users shall have water meters installed at the expense of the property owner and periodically inspected by the Department of Public Works. The Department of Public Works reserves the right to order a meter to be placed on any service ~~or to take out a meter and~~ or place the consumer on a flat rate whenever in the opinion of the Department of Public Works it is for the best interests of water district so to do. All water passing through a meter will be charged for, whether used or wasted.

2. Service in good condition. No meter shall be installed ~~by the Department of Public Works~~ unless the service, service fixtures and plumbing

adjacent to the proposed location of the meter are in a good and serviceable condition. The curb box must be readily accessible, the curb cock, stop and waste cock in good working order and any rusty or unsafe pipes next to the proposed location of the meter replaced. The owner, as shown on the latest assessment roll of the Water District, of the premises in which meter is to be installed shall be notified in writing by mail addressed to him at such premises of any required repairs under this rule, and if repairs are not made within 10 days.

3. Check valves/Expansion Tanks~~, test tees and bypasses~~. All meters installed ~~by the Department of Public Works~~ shall have check valve/expansion tank installed ~~placed next to outlets~~ to prevent hot water from backing through the meter or to mitigate over pressurization of the internal plumbing system. All services that are metered and require check valves/expansion tanks to prevent hot water from backing through the meter shall be supplied, connected and fitted with such check valves up to and including meters of 1 1/2 inches in size. ~~by the Department of Public Works.~~ Services requiring a meter over 1 1/2 inches in size shall be designed by a licensed professional engineer and a drawing of the water service lateral, shutoff valve, meter/setter, check valve, expansion tank shall be provided to the Department of Public Works. ~~and furnished by the property owner may be installed by the Department of Public Works, but if check valves are required, same are to be installed by the property owner. All sizes above 3/5 inch shall have a test tee next to the outlet of meter and the full size of same, then the check and another valve so that meter can be tested at any time in place. If the owner of premises so desires,~~ M~~m~~eters two inches or larger in size may be installed with bypasses so that meters may be removed for testing or repairs made without hindering the supply of water. The expense of such bypasses and additional work shall be borne by the owner. All such bypasses shall be locked and sealed (tamper proof) and under the exclusive control of the Department of Public Works.

4. Removal. No meter shall be removed or disturbed without the written permission of the Department of Public Works.

5. Testing. Persons making complaints as to the correctness of meter bills and claiming to be overcharged can, by applying at the Department of Public Works within 10 days after meter bills have become due, have the meter examined and the dial reread. The Department of Public Works is authorized to correct any charge due to a fault in the meter or to incorrect reading of the dial but shall have no power to reduce meter bills for any other reason whatsoever.

6. Reading of meters. Meters will be read ~~semi~~annually by regular

authorized agents of the Department of Public Works. Bills shall be rendered at such periods of the year as the Department of Public Works ~~Water Bureau~~ may direct.

7. Schedule bills. ~~All bills for water furnished at schedule rates will be payable annually in advance at the office of the Receiver of Taxes on the 15th day of January in each year.~~ Refer to Paragraph O – Schedule of Fees. For an intermediate period or for a new or additional service, the bill must be paid before the water is turned on.

8. Meter bills. ~~Bills for metered water will be payable annually, on the 15th day of January of each year, at the office of the Receiver of Taxes.~~ Refer to Paragraph O – Schedule of Fees.

9. Special bills. All special bills and charges for services rendered, material sold or expenses incurred by the Department of Public Works in connection with the enforcement of these rules and regulations must be paid at the office of the Receiver of Taxes within 30 days after the bill is rendered. The supply of water may be shut off from the premises with reference to which such charges become due in default of payment of such bills or charges and until bills and charges are paid.

10. Default in payment of meter bills. In the case of default of payment for the period of 30 days of a meter bill after the same is due, the Department of Public Works may shut off the water supply at the premises to which such bill relates until such bill is paid.

11. Delinquent water rentals. All delinquent water rents except meter bills which shall remain unpaid at the expiration of 30 days from due date thereof shall carry penalties and interest charges as provided by law.

12. Nonpayment. Wherever the owner of any premises which are supplied with water shall be charged for water supplied, services rendered, material furnished or expense incurred by the Department of Public Works pursuant to these rules and regulations, and said charges are not paid and the water shall be turned off on account of such nonpayment, no application for water services for such premises need be granted by the Department of Public Works (notwithstanding the said premises may have changed ownership) until such charges shall have been paid in full to the Receiver of Taxes. Further, if water service is not turned off on account of such nonpayment, any such unpaid bills will become a lien against the property and will be added to the Town's assessment rolls for collection.

J. Discontinuance of use of water. Any consumer desiring to discontinue the use of water must notify the Department of Public Works, and an employee of the Department of Public Works will shut the water off at the curb. No rebate will be

made for any period of discontinuance of such use less than six months from the time of turning off the water by the Department of Public Works. The fact that different portions of premises can be shut off inside of the same buildings will not entitle the owner to rebate.

K. Partial supply from wells. No rebate shall be made from any water bills under a claim that less water has been used because of a partial use from wells.

L. Failure to make repairs. No rebate for any water bill will be made in cases where the charges result from the failure on the part of the owner or consumer to promptly repair any broken, frozen or defective fixtures or service.

M. Fire hydrants.

1. All street hydrants are under control of the Department of Public Works. No person shall use a wrench for opening hydrants except a wrench furnished by the Department of Public Works for the purpose. No person except an authorized agent or employee of the Department of Public Works, or of the Fire Department, or a person holding a written permit signed by ~~the Coordinator of~~ the Department of Public Works, shall disturb any hydrant or any part thereof, or take any water therefrom under any circumstances whatever; any person found guilty of violating any provision of this rule shall be guilty of a misdemeanor, and in addition thereto he shall pay to the water district a penalty in the amount of $500, in addition, any damage done to said hydrant and the cost of restoring same to its proper condition.

2. Obstructions. Any person placing any obstructions that would prevent free access to any fire hydrant shall be guilty of obstruction, and such violation shall be punishable pursuant to the New York State Vehicle and Traffic Law or § 247-8, Enforcement; penalties for offenses.

N. Operated by employees of Department of Public Works only. No person except an employee of the Department of Public Works shall open, close or in any way interfere with any gate valve ~~or gate~~ in any water main. ~~conduit or street pipe.~~ Any person who has disturbed or displaced a valve box so that the valve stem cannot be reached by a key, or has covered a valve box or a valve chamber with dirt, paving plank or other material, shall immediately replace the valve box and remove the obstruction. Any person violating this section shall be guilty of a misdemeanor.

O. Schedule of Fees ~~Commercial use~~.

~~1.~~ Fees for water service shall be pursuant to the Schedule of Fees adopted by the Town Board. ~~Definitions. As used in this subsection, the following terms shall have the meanings indicated:~~

~~COMMERCIAL RATE — The prescribed rate as hereinafter set forth for the consumption of water by users other than private consumers and applicable to metered premises where owners or occupants in the course of their occupation or in the conduct of their business use and consume large quantities of water.~~
~~COMMERCIAL USER — Any person, firm or corporation consuming a large quantity of water in the course of his or its business or trade carried on the premises.~~

2. Billing Schedule ~~Sale of water to commercial users.~~

(a) Residential – Detached one and two family dwelling units and multiple single family dwelling (town houses)

(b) Non- Residential – Assembly (Group A); Business (Group B); Education (Group E); Factory and Industrial (Group F); High Hazard (Group H); Institutional (Group I); Mercantile (Group M); Residential (Group R) except as defined above; Storage (Group S); and Utility and Miscellaneous (Group U)

(c) EDU equivalent is based on 75,000 gallons per year for non residential based on metered use.

(d) ~~All commercial users, as defined in this section, are hereby required at their own cost and expense and under the supervision of the Department of Public Works to install on the premises a water meter, which meter shall be the property of Water District and not of the consumer, and may be removed by any authorized employee of Water District for repairs and/or Department of Public Works of supply of water to the premises.~~

(e) Bills for water are invoiced as follows:

- Residential – In District – Debt Service – January Tax Bill
- Residential – In District – O&M Bill – June Bill
- Residential – Out of District – Voucher – January 15th
- Non-Residential – In District – Debt Service – January Tax Bill
- Non-Residential – In District – O&M Bill – June Bill
- Non-Residential – Out of District – Voucher – January 15th

P. Should the Department of Public Works determine that water conservation is needed for the health, safety and welfare of the Town, the Town Supervisor may declare the need for water conservation and impose water restrictions, including but not limited to the restriction of water use outside the residence or commercial property.

Local Law Filing

(Use this form to file a local law with the Secretary of State.)

Text of law should be given as amended. Do not include matter being eliminated and do not use italics or underlining to indicate new matter.

☐ **County** ☐ **City** ☐ **Town** ☐ **Village**
(Select one:)

of _____

Local Law No. _____ **of the year 20**____

A local law to amend chapter 267 "Water" of the Rotterdam Town Code
(Insert Title)

Be it enacted by the Town Board **of the**
(Name of Legislative Body)

☐ **County** ☐ **City** ☒ **Town** ☐ **Village**
(Select one:)

of Rotterdam **as follows:**

See Attached

(If additional space is needed, attach pages the same size as this sheet, and number each.)

(Complete the certification in the paragraph that applies to the filing of this local law and strike out that which is not applicable.)

1. (Final adoption by local legislative body only.)

I hereby certify that the local law annexed hereto, designated as local law No. _____ of 20_____ of the (County)(City)(Town)(Village) of Rotterdam was duly passed by the Town Board on _____ 20 23, in accordance with the applicable
(Name of Legislative Body)
provisions of law.

2. (Passage by local legislative body with approval, no disapproval or repassage after disapproval by the Elective Chief Executive Officer*.)

I hereby certify that the local law annexed hereto, designated as local law No. _____ of 20_____ of the (County)(City)(Town)(Village) of _____ was duly passed by the _____ on _____ 20_____, and was (approved)(not approved)
(Name of Legislative Body)
(repassed after disapproval) by the _____ and was deemed duly adopted
(Elective Chief Executive Officer)*
on _____ 20[ ][ ], in accordance w ith the applicable provisions of law.

3. (Final adoption by referendum.)

I hereby certify that the local law annexed hereto, designated as local law No. _____ of 20_____ of the (County)(City)(Town)(Village) of _____ was duly passed by the _____ on _____ 20_____, and was (approved)(not approved)
(Name of Legislative Body)
(repassed after disapproval) by the _____ on _____ 20_____.
(Elective Chief Executive Officer)*

Such local law was submitted to the people by reason of a (mandatory)(permissive) referendum, and received the affirmative vote of a majority of the qualified electors voting thereon at the (general)(special)(annual) election held on _____ 20_____, in accordance with the applicable provisions of law.

4. (Subject to permissive referendum and final adoption because no valid petition was filed requesting referendum.)

I hereby certify that the local law annexed hereto, designated as local law No. _____ of 20_____ of the (County)(City)(Town)(Village) of _____ was duly passed by the _____ on _____ 20_____, and was (approved)(not approved)
(Name of Legislative Body)
(repassed after disapproval) by the _____ on _____ 20_____. Such local
(Elective Chief Executive Officer)*
law was subject to permissive referendum and no valid petition requesting such referendum was filed as of _____ 20_____, in accordance with the applicable provisions of law.

* Elective Chief Executive Officer means or includes the chief executive officer of a county elected on a county-wide basis or, if there be none, the chairperson of the county legislative body, the mayor of a city or village, or the supervisor of a town where such officer is vested with the power to approve or veto local laws or ordinances.

5. (City local law concerning Charter revision proposed by petition.)
I hereby certify that the local law annexed hereto, designated as local law No. _____ of 20____ of the City of _____ having been submitted to referendum pursuant to the provisions of section (36)(37) of the Municipal Home Rule Law, and having received the affirmative vote of a majority of the qualified electors of such city voting thereon at the (special)(general) election held on _____ 20____, became operative.

6. (County local law concerning adoption of Charter.)
I hereby certify that the local law annexed hereto, designated as local law No. _____ of 20____ of the County of _____State of New York, having been submitted to the electors at the General Election of November _____ 20____, pursuant to subdivisions 5 and 7 of section 33 of the Municipal Home Rule Law, and having received the affirmative vote of a majority of the qualified electors of the cities of said county as a unit and a majority of the qualified electors of the towns of said county considered as a unit voting at said general election, became operative.

(If any other authorized form of final adoption has been followed, please provide an appropriate certification.)
I further certify that I have compared the preceding local law with the original on file in this office and that the same is a correct transcript therefrom and of the whole of such original local law, and was finally adopted in the manner indicated in paragraph _____ above.

RESOLUTION NO. 159.23

REQUESTING BIDS FOR KITCHEN EQUIPMENT

THEREFORE, UPON MOTION OF Councilmember _____,

seconded by Councilmember _____,

BE IT RESOLVED BY THE TOWN BOARD AS FOLLOWS:

SECTION 1. The Town Board of the Town of Rotterdam hereby authorizes the Supervisor to call for bids for Kitchen Equipment to be utilized at the Rotterdam Senior Center located at 2639 Hamburg Street, Schenectady, NY 12303.

SECTION 2. The Town Clerk of the Town of Rotterdam shall cause the following public notice to be published in the official newspaper of the Town of Rotterdam, and the Supervisor of the Town of Rotterdam shall cause the following public notice be published to the Empire State Purchasing Group on BidNet (http://www.bidnetdirect.com/townofrotterdam) at least five (5) days before the date of reception of bid proposals:

TOWN OF ROTTERDAM
NOTICE TO BIDDERS

PLEASE TAKE NOTICE: That all bids received by the Town Board of the Town of Rotterdam, by Friday, the 5th day of May 2023, at 10:15 A.M., will be opened electronically and in person at that time. The Town Board will subsequently post an official report to the Empire State Purchasing Group on BidNet (http://www.bidnetdirect.com/townofrotterdam) by the close of business the next day, of all bid submissions received pursuant to this notice. Additionally, the official bid report and all bids shall be available in the office of the town clerk for public inspection during regular business hours, for the purchase by the Town of Rotterdam of the following:

KITCHEN EQUIPMENT

Digital Copies of Specifications may be obtained from the Empire State Purchasing Group on BidNet at http://www.bidnetdirect.com/townofrotterdam. Copies of RFP documents obtained from any other source are not considered official copies. The Town of Rotterdam cannot guarantee the accuracy of any information not obtained from the BidNet Direct website and is not responsible for any errors contained by any information received from an alternate source. Only those vendors who obtain ITB, RFP or RFQ documents from the BidNet system are guaranteed to receive addendum information, if such information is issued. If you obtain the document from a source other than the source indicated, it is recommended that you register on the Empire State Purchasing Group website, http://www.bidnetdirect.com/new-york and obtain an official copy.

ALL BID PROPOSALS MUST BE SUBMITTED PRIOR TO
10:15 A.M., FRIDAY MAY 5, 2023

The Town Board reserves the right to accept or reject any and all bids or proposals or any specific part of any item of any bid.

BY ORDER OF THE ROTTERDAM TOWN BOARD
DIANE M. MARCO, TOWN CLERK

DATED: April 26, 2023
BidNet: Please publish on April 27, 2023
Daily Gazette: Please publish once on April 29, 2023
Town Clerk Post

SECTION 3. This resolution shall become effective April 26, 2023

LEGISLATIVE REQUEST FORM

DATE:	April 24, 2023
TO:	Town Board
FROM:	Morgan Coryer, Coordinator of Parks & Senior Programs
TITLE OF REQUEST:	Requesting Bids for Kitchen Equipment
TOWN BOARD MEETING:	April 26, 2023
Background Information:	In order to fulfill the requirements of the SAM Grant awarded to the Town of Rotterdam for Creation of an Emergency Shelter and Support Services Project ID: #7134, the kitchen at the Senior Center needs to be renovated with new equipment and appliances in order to comply with NYS DOH standards.
Evaluation/Analysis:	The existing equipment/appliances are no longer functioning and are not sufficient to meet DOH regulations. Therefore, new equipment/appliances need to be purchased.
Recommendation(s):	Town Board to place the attached bid packet with equipment list on Bidnet.
Attachment/Document(s):	Bid packet calling for bids on Kitchen Equipment.
Compliance with Purchasing Policy:	Yes
Effect(s) on Existing Law(s):	General Municipal Law Section 103
LEGISLATION WILL BE PREPARED BY:	Supervisors Office

Town of Rotterdam

Request for Bids

SENIOR CENTER
KITCHEN EQUIPMENT

Bid Opening:

Friday, May 5, 2023

@ 10:15 A.M.

TOWN OF ROTTERDAM

BID FORM

The undersigned has read, understands, and agrees to all conditions of this proposal and will furnish material as follows:

SENIOR CENTER KITCHEN EQUIPMENT

The entire bid is strictly in accordance with the specification set forth in the bid documents herein.

I understand if I am chosen as the lowest responsible bidder, that I must comply with all federal, state, and local laws, as well as rules, regulations, policies and guidance, including the State of New York's newly released guidance on sexual harassment. By submitting a bid, I acknowledge receipt of the Town of Rotterdam *"Non-Discrimination and Harassment (Including Sexual Harassment) in the Workplace"* Policy.

INSTRUCTIONS TO BIDDERS

1. All bids must be submitted before **10:15 a.m. on May 5, 2023,** the day of opening.

2. Electronic and in person proposals for the furnishing and delivery of goods/services as required for the Town of Rotterdam, as set forth in the specifications prepared by the Town Board and received by **10:15 a.m. May 5, 2023** will be opened electronically and in person at that time, via Empire State Purchasing Group on the BidNet website (http://www.bidnetdirect.com/townofrotterdam). The Town Board will subsequently post an official report to the Empire State Purchasing Group on BidNet by the close of business the same day, of all bid submissions received. Additionally, the official bid report and all bids shall be available in the Office of the Town Clerk for public inspection during regular business hours.

3. Digital Copies of Drawings and Specifications may be obtained from the Empire State Purchasing Group on BidNet at http://www.bidnetdirect.com/townofrotterdam. Copies of RFP documents obtained from any other source are not considered official copies. The Town of Rotterdam cannot guarantee the accuracy of any information not obtained from the BidNet Direct website and is not responsible for any errors contained by any information received from an alternate source. Only those vendors who obtain ITB, RFP or RFQ documents from the BidNet system are guaranteed to receive addendum information, if such information is issued. If you obtain the document(s) from a source other than the source indicated, it is recommended that you register on the Empire State Purchasing Group website, http://www.bidnetdirect.com/new-york and obtain an official copy.

4. Purchases made by the Town of Rotterdam are not subject to State or local taxes or Federal excise taxes. Exemption certificates will be furnished upon request.

5. An "Affidavit of Non-Collusion" is attached and forms a part of this bid proposal. By submission of this bid, each bidder and each person signing on behalf of any bidder, certifies under penalty of perjury, that to the best of his/her knowledge and belief that the prices of the bid have been arrived at independently without collusion, consultation, communication or agreement, for the purpose of restricting competition, as to any matter related to such prices with any other bidder or competitor; that the prices quoted have not and will not be disclosed prior to opening, directly or indirectly, to any other bidder or competitor; that no attempt has been or will be made to induce any other person, partnership or corporation to submit or not submit a bid for the purpose of restricting competition. Each bidder must state that no officer of the Town of Rotterdam or member of the Town Board is directly or indirectly interested in the proposal. Failure to sign this statement will constitute grounds for rejection of bid.

6. Each bidder must acknowledge receipt of and comply with the Town's Non-Discrimination and Harassment (Including Sexual Harassment) in the Workplace policy.

7. Bid proposals shall remain firm, pending bid award, for a period not to exceed thirty (30) days from the bid opening date.

8. The Town Board reserves the right to reject any or all bids and re-advertise.

9. All bids are to be on the basis of delivery prepaid to destination, which shall be buildings of the Town of Rotterdam as specified (if applicable).

10. Delivery(if applicable): Time is of the essence. Material is required as soon as possible and guaranteed date of delivery may be taken into consideration in making award. Upon failure to make delivery as promised, the Town Board of the Town of Rotterdam, New York, may consider the contract breached and will then feel free to go into the open market and to maintain an action against the contractor to recover any differences which the Town Board might stand to lose between the contract price and the market price.

11. Where items or articles or equipment or supplies are designated as manufactured by a specific manufacturer, it is to be understood that the articles as specified represent an accepted standard. Where certain brands of materials, apparatus, or equipment are specified, such goods have been selected in order to establish a standard for the particular service required, but it is not the intention to limit competition thereby. If the bidder proposes to furnish the article which is specified, he is to fill in the amount on the line indicated. If he desires to bid on a substitute for the article specified, which is claimed to be equivalent to the standard specified, the amount should be recorded and also identified as "substitute" bid and furnish the required information relating to the manufacturer. In cases where the bid is based upon a substitute article, the bidder will be asked to submit a sample. Samples will be returned, if desired, as soon as the award is made.

12. The Town Board of the Town of Rotterdam reserves the right to waiver any informalities on bids received, and to accept reasonable substitutes for specified items as long as such substitutes in no way affect the performance of the item for which the bid has been requested.

13. The approximate quantities shown in the bidding documents are not meant to imply that said quantities will in fact be purchased. Payment will be based on an "as delivered" basis at the facilities listed using actual quantities received.

14. Failure to adequately and fully complete the bid packet and/or questions contained in the RFP shall be disqualified and the bid shall be rejected.

NON-COLLUSION BIDDING CERTIFICATION

A. By submission of this bid, each bidder and each person signing on behalf of any bidder certifies, an in the case of a joint bid, each party thereto certifies as to its own organization, under penalty of perjury, that to the best of knowledge and belief:

1) The prices in this bid have been arrived at independently without collusion, consultation, communication, or agreement, for the purposes of restricting competition, as to any matter relating to such prices with any other bidder or with any competitor;

2) Unless otherwise required by law, the prices which have been quoted in this bid have not been knowingly disclosed by the bidder and will not knowingly be disclosed by the bidder prior to opening, directly or indirectly, to any other bidder or to any competitor; and

3) No attempt has been made or will be made by the bidder to induce any other person, partnership or corporation to submit or not to submit a bid for the purpose of restricting competition.

B. A bid shall not be considered for award nor shall any award be made where (A), (1), (2), and (3) above have not been complied with; provided however, that if in any case the bidder cannot make the foregoing certificating, the bidder shall so state and shall furnish with the bid a signed statement which sets forth in detail the reason therefore. Where (A), (1), (2), and (3) above have not been complied with, the bid shall not be considered for award nor shall any award be made unless the head of the purchasing unit of the political subdivision, public department, agency or official thereof to which the bid is made or his designee, determines that such disclosure was not made for the purpose of restricting competition.

C. The fact that the bidder (A) has published price lists, rates or tariffs governing items being procured, (B) has informed prospective customers of proposed or pending publication of new or revised price lists for such items or (C) has sold the same item to other customers at the same prices being bid, does not constitute, without more, a disclosure within the meaning subparagraph (A)(1).

D. Any bid hereafter made to any political subdivision of the state or any public department, agency or official thereof by a corporate bidder for work or state services performed or to be performed or goods sold or to be sold, where competitive bidding is required by statute, rule, regulation, or local law, and where such bid contains the certification referred to in subdivision one (1) of this section, shall be deemed to have been authorized by the board of directors of the bidder, and such authorization shall be deemed to include the signing and submission of the bid and the inclusion therein of the certificate as to non-collusion as the act and deed of the corporation.

903 Non-Discrimination and Harassment (Including Sexual Harassment) in the Workplace

Policy Statement – It is the policy of the Town of Rotterdam to promote a productive work environment and to prohibit conduct by any Elected Official or employee (as defined in Section 104 of the Employee Handbook) that disrupts or interferes with another's work performance or that creates an intimidating, offensive, or hostile work environment. In keeping with this goal, the Town is committed to educate Elected Officials and employees in the recognition and prevention of workplace discrimination and harassment, including sexual harassment, and to provide an effective means of eliminating such discrimination and harassment from the workplace. In short, the Town does not tolerate any form of discrimination or harassment, including sexual harassment, and will take all steps necessary to prevent and stop the occurrence of such activity in the workplace. The accompanying complaint procedure is intended to provide an effective mechanism for reporting, and resolving promptly, complaints of discrimination and harassment, including sexual harassment, without any risk of repercussion to any individual covered by this policy who, in good faith, files such complaint.

Applicability of Policy – This policy applies to all Elected Officials, Appointed Members of Boards and Commissions, employees, supervisors, and Department Heads, whether employed full or part-time, temporary or seasonal, paid or unpaid interns, volunteers, and those employed by companies contracting to provide services in the workplace. Depending on the extent of the Town's exercise of control, this policy may be applied to the conduct of non-Town employees with respect to harassment of Town employees in the workplace.

Prohibited harassment (including sexual harassment) is not limited to the physical workplace itself. It can occur while Elected Officials, employees or other individuals covered by this policy are traveling for Town business or at Town sponsored events or parties. Calls, texts, emails, and social media usage by employees or other individuals covered by this policy can constitute workplace harassment, even if they occur away from the workplace premises, on personal devices, or during non-work hours.

Prohibited Activity – No Elected Official, employee or other individuals covered by this policy shall engage in any of the following:

- Harassment: Unwanted, unreasonable verbal or physical conduct directed toward or affecting another person that disturbs, frightens, insults, threatens, intimidates, demeans, or offends that other person, that continues or is repeated after a request to cease, and that: 1) has the purpose or effect of creating an intimidating, hostile, or offensive work environment; 2) has the purpose or effect of unreasonably interfering with an individual's work performance; or 3) otherwise adversely affects an individual's employment opportunities. Harassment includes offensive or inappropriate images or written materials or electronic communications (e.g. letters, e-mail, text messages, or graffiti) as well as bias-based harassment and sexual harassment (see below).

- Bias-Based Harassment: Harassment that denigrates, offends or shows hostility or aversion toward an individual on the basis of sex, (including gender identity and the status of being transgender), sexual orientation, race, color, national origin, religion, disability, pregnancy, age, marital status, veteran status, military status, arrest or conviction record, genetic information or predisposing characteristics, domestic violence victim status, or any other protected status. Bias-based harassment includes, but is not limited to: epithets, slurs or negative stereotyping; threatening, intimidating, or hostile acts; denigrating jokes; and written, electronic, or graphic material that denigrates, ridicules, objectifies, or shows hostility, aversion or contempt toward an individual or group and that is placed on walls, bulletin boards, lockers or elsewhere on or in the Town's premises, vehicles, or equipment, or is circulated in the workplace, including through electronic means.

- Discrimination: The Town of Rotterdam is an Equal Opportunity Employer. The Town does not unlawfully discriminate on the basis of sex, (including gender identity and the status of being transgender), sexual orientation, race, color, national origin, religion, disability, pregnancy, age, marital status, veteran status, military status, arrest or conviction record, genetic information or predisposing characteristics, domestic violence victim status, or any other protected status. Unlawful discrimination based on membership in these categories is prohibited by applicable federal, state, or local laws. This policy applies to all terms and conditions of employment, including, but not limited to, hiring, placement, assignments, compensation, promotion, transfer, training, leave of absence, and termination.

Definition of Sexual Harassment – This policy places special attention on the prohibition of sexual harassment in the workplace.

Sexual harassment is a form of sex discrimination and is unlawful under federal, state, and (where applicable) local law. Sexual harassment includes harassment on the basis of sex, sexual orientation, self-identified or perceived sex, gender expression, gender identity and the status of being transgender.

Sexual harassment includes unwelcome conduct which is either of a sexual nature, or which is directed at an individual because of that individual's sex when:

- Such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile or offensive work environment, even if the reporting individual is not the intended target of the sexual harassment;

- Such conduct is made either explicitly or implicitly a term or condition of employment; or

- Submission to or rejection of such conduct is used as the basis for employment decisions affecting an individual's employment.

A sexually harassing hostile work environment includes, but is not limited to, words, signs, jokes, pranks, intimidation or physical violence which are of a sexual nature, or which are directed at an individual because of that individual's sex. Sexual harassment also consists of any unwanted verbal or physical advances, sexually explicit derogatory statements or sexually discriminatory remarks made by someone which are offensive or objectionable to the recipient, which cause the recipient discomfort or humiliation, or which interfere with the recipient's job performance.

Sexual harassment also occurs when a person in authority tries to trade job benefits for sexual favors. This can include hiring, promotion, continued employment or any other terms, conditions or privileges of employment. This is also called "quid pro quo" harassment.

Any employee who feels harassed should report so that any violation of this policy can be corrected promptly. Any harassing conduct, even a single incident, can be addressed under this policy.

Examples of Sexual Harassment - The following describes some of the types of acts that may be unlawful sexual harassment and that are strictly prohibited:

- Physical acts of a sexual nature, such as:
    - Touching, pinching, patting, kissing, hugging, grabbing, brushing against another employee's body or poking another employee's body;
    - Rape, sexual battery, molestation or attempts to commit these assaults.
- Unwanted sexual advances or propositions, such as:
    - Requests for sexual favors accompanied by implied or overt threats concerning the target's job performance evaluation, a promotion or other job benefits or detriments;
    - Subtle or obvious pressure for unwelcome sexual activities.
- Sexually oriented gestures, noises, remarks or jokes, or comments about a person's sexuality or sexual experience, which create a hostile work environment.
- Sex stereotyping occurs when conduct or personality traits are considered inappropriate simply because they may not conform to other people's ideas or perceptions about how individuals of a particular sex should act or look.
- Sexual or discriminatory displays or publications anywhere in the workplace, such as:
    - Displaying pictures, posters, calendars, graffiti, objects, promotional material, reading materials or other materials that are sexually demeaning or pornographic. This includes such sexual displays on workplace computers or cell phones and sharing such displays while in the workplace.
- Hostile actions taken against an individual because of that individual's sex, sexual orientation, gender identity and the status of being transgender, such as:

- Interfering with, destroying or damaging a person's workstation, tools or equipment, or otherwise interfering with the individual's ability to perform the job;
- Sabotaging an individual's work;
- Bullying, yelling, name-calling.

Prohibition Against Retaliation – Unlawful retaliation can be any action that could discourage an employee from coming forward to make or support a claim of discrimination or harassment, including sexual harassment. Adverse action need not be job-related or occur in the workplace to constitute unlawful retaliation (e.g., threats of physical violence outside of work hours).

Unlawful retaliation against any employee who has engaged in "protected activity" is strictly prohibited by this policy as well as (where applicable) federal, state, and local law. Protected activity occurs when a person has:

- made a complaint of harassment or discrimination, either internally or with any anti-discrimination agency;
- opposed harassment or discrimination by making a verbal or informal complaint to management, or by simply informing a supervisor or management of harassment or discrimination;
- reported that another employee has been subjected to harassment or discrimination;
- encouraged a fellow employee to report harassment or discrimination;
- participated in a workplace investigation regarding harassment or discrimination;
- testified or assisted in a proceeding involving harassment or discrimination under the Human Rights Law or other anti-discrimination laws.

Even if the alleged discrimination or harassment does not turn out to rise to the level of a violation of law, the individual is protected from retaliation if the person had a good faith belief that the practices were unlawful. However, the retaliation provision is not intended to protect persons making intentionally false charges of discrimination or harassment.

Reporting of Discrimination and Harassment (including Sexual Harassment) – Reports of alleged discrimination and/or harassment (including sexual harassment) or retaliation may be made verbally or in writing. A form for the submission of a written complaint is attached to this policy and individuals are encouraged to use this form. If an individual chooses to submit a verbal complaint, such complaint will be recorded by the receiver of this complaint on this form. Employees are encouraged to report incidents of discrimination, harassment (including sexual harassment), or retaliation to their Department Head and/or the Town Supervisor as soon as possible after their occurrence. If the employee's Department Head is believed to be involved in the incident, or if the employee is not comfortable in addressing the incident with the Department Head, the report should be made directly to the Town Supervisor. If the Town Supervisor is believed to be involved in the incident or the employee is not comfortable reporting the incident

to the Town Supervisor, the employee should report the incident to a member of the Town Board. Employees who believe they have been discriminated against or harassed and would like to obtain guidance as to how to proceed in filing a complaint, should contact their immediate supervisor, their Department Head, the Town Supervisor, or any member of the Town Board. Employees who work during off-hours are encouraged to contact their supervisor, their Department Head, the Town Supervisor, or any member of the Town Board at home if these individuals do not work during the employee's shift. Non-employees are encouraged to report incidents of alleged discrimination and harassment (including sexual harassment) to either the Department Head of the department where services are being provided, the Town Supervisor, or a member of the Town Board.

Supervisory Responsibility – Supervisory personnel must make every effort to ensure a work environment that is free from discrimination and harassment, including sexual harassment. Any Department Head or supervisor who receives a complaint or information about suspected prohibited activity (as outlined above), observes behavior that may constitute prohibited activity, or for any reason suspects that prohibited activity is occurring, is required to report such suspected prohibited activity to the Town Supervisor, or any member of the Town Board.

In addition to being subject to corrective action or discipline if they engaged in prohibited activity themselves, supervisory personnel will be subject to discipline for failing to report suspected prohibited activity or otherwise knowingly allowing prohibited activity to continue. Supervisory personnel will also be subject to corrective action or discipline for engaging in any form of retaliation prohibited by this policy.

Investigation of Complaint – The Town Supervisor, in consultation with the Town Board, will determine the appropriate individual(s) to conduct the investigation. All complaints pursuant to this policy, whether reported in verbal or written form, will be investigated promptly, thoroughly, and in as impartial a manner as possible. The investigation will normally include conferring with the parties involved and any named or apparent witnesses. All employees are required to cooperate in an investigation, if so directed. All persons involved, including complainants, witnesses and alleged perpetrators will be accorded due process to protect their rights to a fair and impartial investigation. All relevant materials, including all electronic communications, documents, emails or phone records that are relevant to the allegations will also be considered. A written report will be prepared documenting the results of the investigation. The individual who reported the complaint and the individual about whom the complaint was made will be notified of the final determination.

Confidentiality – Complaints of discrimination and harassment, including sexual harassment, will be handled and investigated promptly and in a manner that is as impartial and confidential as possible. In no event will information concerning a complaint be released by the Town to third parties or to anyone within the Town employment who is not directly involved in the investigation or handling of the complaint unless otherwise required by law.

Corrective Action and Discipline – Any employee who is found to have violated any aspect of this policy will be subject to corrective or disciplinary action, up to and including termination of employment, as provided by Town operating procedures, including Civil Service Law Section 75, or a collective bargaining agreement. Any Elected Official who violates this policy will be subject to remedial action as provided for and/or allowed under NYS Public Officers Law, as well as any other applicable statutes. Any vendor, supplier, visitor, customer, or other non-employee who violates this policy will be subject to remedial action, to the extent that the Town is empowered to take such action.

Legal Protections and External Remedies – Nothing in this policy should be construed as in any way limiting employees' rights to file a formal complaint with the appropriate state or federal agencies responsible for administering anti-discrimination laws. Complainants should be aware that time restrictions may apply and need to be considered.

Harassment (including sexual harassment) is not only prohibited by Town policy but is also prohibited by federal, state, and (where applicable) local law. Aside from the Town's internal process, employees may also choose to pursue legal remedies with the following governmental entities at any time.

New York State Division of Human Rights (DHR)

The Human Rights Law (HRL) applies to employers in New York State with regard to harassment and protects employees and non-employees regardless of immigration status. A complaint alleging violation of the Human Rights Law may be filed either with DHR or in New York State Supreme Court. Complaints with DHR may be filed any time within one year of the harassment. If an individual did not file at DHR, they can sue directly in state court under the HRL, within three years of the alleged discrimination. An individual may not file with DHR if they have already filed an HRL complaint in state court. Filing an internal complaint with the Town does not extend the time limits to file with DHR or in court. The one year or three years is counted from date of the most recent incident of harassment. An attorney is not needed to file a complaint with DHR, and there is no cost to file with DHR. DHR will investigate the complaint and determine whether there is probable cause to believe that discrimination has occurred. Probable cause cases are forwarded to a public hearing before an administrative law judge. If discrimination is found after a hearing, DHR has the power to award relief, which varies but may include requiring the Town to take action to stop the harassment, or redress the damage caused, including paying monetary damages, attorney's fees and civil fines.

DHR's main office contact information is: NYS Division of Human Rights, One Fordham Plaza, Fourth Floor, Bronx, New York 10458, (718) 741-8400. Contact DHR at (888) 392- 3644 or visit dhr.ny.gov/complaint for more information about filing a complaint. The website has a complaint form that can be downloaded, filled out, notarized and mailed to DHR. The website also contains contact information for DHR's regional offices across New York State.

United States Equal Employment Opportunity Commission (EEOC)

The EEOC enforces federal anti-discrimination laws, including Title VII of the 1964 federal Civil Rights Act (codified as 42 U.S.C. § 2000e et seq.). An individual can file a complaint with the EEOC anytime within 300 days from the harassment. There is no cost to file a complaint with the EEOC. The EEOC will investigate the complaint and determine whether there is reasonable cause to believe that discrimination has occurred, at which point the EEOC will issue a Right to Sue letter permitting the individual to file a complaint in federal court. The EEOC does not hold hearings or award relief but may take other action including pursuing cases in federal court on behalf of complaining parties. Federal courts may award remedies if discrimination is found to have occurred. If an employee believes that he/she has been discriminated against at work, he/she can file a "Charge of Discrimination." The EEOC has district, area, and field offices where complaints can be filed. Contact the EEOC by calling 1-800-669-4000 (1-800-669-6820 (TTY)), visiting their website at www.eeoc.gov or via email at info@eeoc.gov. If an individual filed an administrative complaint with DHR, DHR will file the complaint with the EEOC to preserve the right to proceed in federal court.

Local Protections

Many localities enforce laws protecting individuals from sexual harassment and discrimination. An individual should contact the county, city or town in which they live to find out if such a law exists.

Contact the Rotterdam Police Department

If the harassment involves physical touching, coerced physical confinement or coerced sex acts, the conduct may constitute a crime. Contact the Rotterdam Police Department.

RESOLUTION NO. 160.23

TO AUTHORIZE CHANGE ORDER NO. 1 FOR CONTRACT 1 AND 2 OF THE SALT STORAGE & YARD WASTE PROCESSING FACILITY PROJECT

THEREFORE, UPON MOTION OF Councilmember _____,

seconded by Councilmember _____,

BE IT RESOLVED BY THE TOWN BOARD AS FOLLOWS:

SECTION 1. The Town Board of the Town of Rotterdam hereby authorizes the Supervisor to execute Change Order No. 1, recommended by engineering consultant Barton & Loguidice, D.P.C., with AMZ Construction Services, Inc., located at 1234 Main Street, PO Box 232, Rotterdam Junction, NY 12150, to extend the contract time of substantial completion to September 1, 2023, and final payment date to October 31, 2023 for Contract No. 1, General Construction on the Salt Storage & Yard Waste Processing Facility project.

SECTION 2. The Town Board of the Town of Rotterdam hereby authorizes the Supervisor to execute Change Order No. 1, recommended by engineering consultant Barton & Loguidice, D.P.C., with CDE Electric Inc., located at 685 Vernal Butler Road, PO Box 204 Cairo, New York 12413, to extend the contract time of substantial completion to September 1, 2023, and final payment date to October 31, 2023 for Contract No. 2, Electrical Construction on the Salt Storage & Yard Waste Processing Facility project.

SECTION 3. This resolution shall become effective April 26, 2023.

LEGISLATIVE REQUEST FORM

DATE:	April 25, 2023
TO:	Mollie Collins, Town Supervisor
FROM:	Larry LaMora, Highway Superintendent
TITLE OF REQUEST:	Authorize Change Order #1 for AMZ Construction Services, Inc. and CDE Electric Inc. for Extension of Completion of 93 days.
TOWN BOARD MEETING:	April 26, 2023
Background Information:	The Salt Storage Facility, Project No. 904.35.002, general construction contract with AMZ Construction Services, Inc. and electrical contract with CDE Electric Inc. have a substantial completion date of May 31, 2023, and ready for final payment date of July 30, 2023.
Evaluation/Analysis:	Change Order #1 needs to be authorized by the Town Board for an extension of completion date and ready for final payment date of 93 days. Extending the completion date to be September 1, 2023 & the ready for final payment date to October 31, 2023, to provide additional days due to the approved winter shut down.
Recommendation(s):	Authorize the Supervisor to sign Change Order #1 for each, the general construction (AMZ Construction Services, Inc.) and electrical services (CDE Electric Inc.).
Attachment/Document(s):	Change Order #1 for each AMZ Construction Services, Inc. dated April 21, 2023, and CDE Electric Inc., dated April 24, 2023.
Compliance with Purchasing Policy:	N/A
Effect(s) on Existing Law(s):	None
LEGISLATION WILL BE PREPARED BY:	Supervisors Office

April 26, 2023

AMZ
CONSTRUCTION SERVICES, INC.

NYS CERTIFIED WBE COMPANY
1234 Main Street
PO Box 232
Rotterdam Junction, NY 12150

March 31,2023

To: Nicola Gosselin, I.E., Barton & Loguidice, Construction Manager

From: Annalisa Zappia, AMZ Construction Services, President

Re: Rotterdam Salt Storage & Yard Waste Processing Facility Project No. 904.035.02

Nicola,

We are writing this letter requesting an extension of time to our contract for the Rotterdam Salt Storage and Yard Waste Processing Facility.

At time of bid, our schedule and budgets were based upon an anticipated start date of early September 2022, per correspondence with Mr. Ryan Weitz at Barton & Loguidice on July 8th, 2022. We were advised that the town anticipated awarding the contracts at their August 10th board meeting. After learning that this did not take place, we called to stress our concern regarding our schedule, budget, and the projected timeframe. At the pre-construction meeting on October 24th, we again stressed our concern with concrete winter conditions, and it was agreed that a winter shutdown would be available to avoid additional cost for winter conditions. On December 9th we requested the project be placed into winter shutdown and was confirmed by the town. After careful consideration and research of historical local daily temperatures, we will be remobilizing on April 24th, 2023, this is to avoid cold winter concrete per ACI 3061-16. I have attached our updated schedule showing scopes of work and durations.

Lastly, we have concern regarding the neighboring property construction activity being conducted by W.M. Larned. Due to the SWPPP requirements that we must abide by, we are requesting they establish their own designated site access and

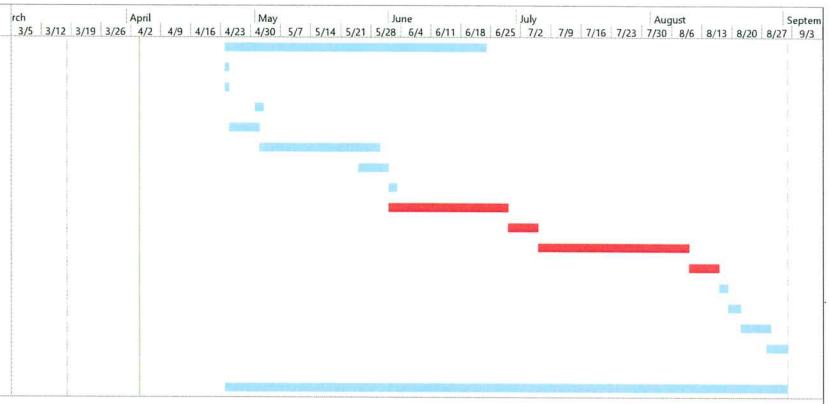

project entrance prior to our remobilization to the Salt Shed project. We also are requesting that the Salt Shed entrance is reinstated to its original condition, including proper cleaning of the road and full replacement of the roadside filter sock that has been compromised. Due to the liability that this has on AMZ, we will not be remobilizing until these are fully addressed. Our schedule is allowing this to be completed within three weeks' time. I have attached photos of these items prior to winter shutdown. As per our conversation, if the town would like us to reinstate these items, a change order would be required.

We appreciate your understanding. Please let us know if you have any questions.

Best Regards,

Annalisa Zappia
