Re: Town of Rotterdam
Water System Improvements Phase 1 – Wellfield Chlorination
Contract No. 1 – General Construction
Change Order No. 1
Our Project No. 01-1705

Dear Mr. Maher,

Change Order No. 1 for The Town of Rotterdam, Water System Improvements, Phase 1 Wellfield Chlorination, Contract No. 1 – General Construction has been developed and is attached. The reasons for this change order are listed as follows:

- To extend the substantial completion date from June 30, 2020 to July 6, 2021. This is to accommodate the extended lead times on materials, the time needed to coordinate the contract with tank painting and Princetown Road watermain replacement, and to perform additional work.
- To increase the total costs of this project by \$59,068.96, from \$490,000.00 to \$549,068.96. This increase factors in use of the allowance for additional costs. Additional costs are described as follows:
- Extra Fill - \$10,806.64. Used to provide additional fill to fill in an existing low area behind the Well #1 building.
- Expose Broken Conduit - \$614.46. Excavation performed to expose damaged conduit to allow repairs by Brunswick Electric.
- Remove Additional Trees - \$3,619.22. Town requested removal of additional trees.
- Replace Pipe Corps - \$6,256.36. The original plan included reuse of the existing pipe corps. Providing new corps would provide a better seal with the injection lances provided.
- Driveway Backup Fill - \$1,756.70. Installed fill to back up the slope along the entrance driveway to allow for easier maintenance of the slope.
- Air Release Valves - \$480.91. Provided the supplied 2" air release valves to the Town as spares for the wells, and supplied ½" air release valves for use on chlorine piping.
- Furnco Caps Interior of Building - \$152.12. Added caps to 12" pipes carrying chlorine lines between the building and manholes to prevent debris from entering conduit.
- Vacuum Monitor - \$1,484.18. Provided an additional vacuum monitor so that one could be provided for each chlorine injection system.
- Panic Bars - \$1,458.90. Provided panic bars for exit doors as required by code.
- Relocate Flow Meters - \$4,888.40. Relocated flow meters and pressure transmitters from inside manholes to inside building to mitigate risk of damage to equipment in the event the manholes flood.
- Topsoil - \$7,841.50. Installed topsoil, seed, and mulch along driveway where extra fill was provided.
- Pump Pedestals - \$1,303.30. Added equipment pads for pumps.

- Chlorine Equipment Backboard - \$849.00. Installed painted plywood backboard on wall to mount chlorine equipment to.
- Plumbing - \$4,701.00. Installed bypass piping to allow flexibility of operations, installed connections for spare raw water and chlorine injection lines to allow any lines to be used at any time.
- T&M Plumbing Changes - \$12,856.27. Replaced injection lances to eliminate 3/8" integral check valves, replacement of chlorine ejectors, and installation of additional railings to support chlorine gas cylinders.

There are sufficient funds within the project contingency line item that will cover these additional costs without increasing the overall project cost. We recommend the Town adopt the resolution (enclosed) to accept this change order at their next meeting and for you to sign the enclosed change order at your earliest convenience.

If you have any questions or concerns about this change order, please do not hesitate to contact me.

The minimum qualifications listed in this announcement have been approved by the Schenectady County Civil Service Commission for the purpose of evaluating a candidate's education, training and experience to determine admission to this examination. This examination is being conducted to establish a Civil Service Eligible List which will be certified to appointing authorities to fill available vacancies. Candidates whose names are certified for appointment have only met the minimum qualifications to take the examination. All candidates who pass the examination will be placed on an eligible list. Unless otherwise specified, the final rank order of the eligible list will be determined on the basis of the scores received on the written test, plus Veterans Credits and Seniority Credits where appropriate. The eligible list established as a result of this examination will remain in force for at least four years and may expire when a new eligible list is established.

Seniority Credits (Promotional Exams Only). Seniority Credits will be added to an eligible score based on continuous permanent competitive class service in the jurisdiction holding the examination. Service would be credited up to and including the date of examination as follows:

A candidate claiming such credit has a minimum of two months from the application deadline to provide the necessary documentation to verify additional credit eligibility. However, no credit may be added after the eligible list has been established. You must contact this office regarding these credits upon submission or your application for examination.

- Civil Service Law Section 85-a. Children of firefighters and police officers killed in the line of duty are eligible for these additional credits.

- If you are claiming Veterans Credits as either a disabled or non-disabled veteran, you must check the appropriate box on the *Application for Examination* form and answer all questions accurately and completely. You must also complete the *Application for Veterans Credits* (obtained in the Schenectady County Civil Service Office or on the website at www.schenectadycounty.com), and submit the DD-214 Discharge Papers showing that you have an honorable discharge. Failure to do so may result in a denial of your claim for Veterans Credits.
- If you are claiming credits as a disabled veteran, you must in addition to meeting the requirements as indicated on the Examination Application, be certified by the United States Department of Veterans Affairs as being disabled in the actual performance of duty in any war; that the disability is rated at ten percent or more, and that the disability exists at the time of application for appointment or promotion.
- All claims and grants for Veterans Credits are tentative and must be verified through inspection of discharge papers and related documents prior to the establishment of the eligible list. All statements you make in support of your claim for Veterans Credits are subject to investigation and substantiation by the Schenectady County Civil Service Commission. In the event of subsequent disclosure of any material misstatement or fraud in your claim, your appointment may be rescinded and you may be disqualified from further appointment on which you have been granted additional credits as a result of such material misstatement or fraud.
- Any candidate who is currently serving in the Armed Forces of the United States on a full-time active duty basis, other than active duty for training, may file for Veterans Credits on an examination prior to the list being established.
- **Conditional Veterans Credits.** A qualified candidate receiving Conditional Veterans Credits will be restricted from certification using the credits until the appropriate documentary proof indicating that the service was in time of war and that the individual received an honorable discharge or was released under honorable circumstances has been presented. It is the candidate's responsibility to provide such proof to the Schenectady County Civil Service Office in order to have the restriction removed and be certified at a score including the Veterans Credits. Until such documentation is submitted, a candidate may only be certified with the examination score, not including the Veterans Credits.
- **Additional Veterans Credits.** Effective January 1, 2014, additional Veterans Credits may be granted to veterans who:
 1. Used Non-Disabled Veterans Credits to obtain a civil service appointment or promotion with New York State or a local government; and
 2. Subsequent to such appointment, are certified by the US Department of Veterans Affairs as having a service connected disability rated at 10% or more.

NEGOTIATION SERVICES

A. Preparation for Negotiations

The need for thorough preparation prior to the commencement of actual bargaining is often overlooked. We believe that preparation is a key element in assuring a successful outcome to the negotiation process.

Preparation includes:

- Reviewing the existing contract and offering advice regarding suggested modifications
- Reviewing the existing work rules and practices
- Reviewing grievances filed and arbitration decisions
- Reviewing the demands presented by both Union and Management in the last negotiations
- Reviewing the history of other benefit changes over the past six years
- Reviewing the most recent settlements in similarly situated jurisdictions
- Meeting with first line supervisors to ascertain their needs - both changes to the existing contract, as well as the needed additions to the contract
- Meeting with senior officials to determine their needs and review the findings resulting from meetings with line supervisors

B. Preparation of Demands

This phase of the process is flexible and is adapted to the needs of each jurisdiction. Generally, we recommend that Labor Counsel prepare suggested demands and that those demands be reviewed by you and modified to suit your needs.

C. Selection of Negotiating Team

We recommend that a cross-section of management representatives be appointed to the negotiating team so that the entire negotiating process can be "felt" at all levels of management. Managers appreciate the process to a much greater degree if they know and trust those who were directly involved.

D. Participation in Negotiations

The negotiations are made much easier by careful planning and research as typified in "A", "B", and "C" above. We will participate fully in all phases of negotiations including renegotiation preparatory sessions, face-to-face meetings at the bargaining table, management caucuses, and, if necessary, the impasse process. We will maintain a detailed record of the negotiations for use in future proceedings. Our services include representation through the impasse procedure.

E. Communications

Meetings with key management personnel will be scheduled throughout the negotiating process to inform them of progress in the negotiations and to recommend position modifications.

F. Drafting the Contract

All changes agreed upon in the negotiations process will be reduced to contract language which accurately reflects the agreement and is readily understood by Union and Management representatives, as well as those important persons not present at the bargaining table such as arbitrators.

G. Ratification

After a tentative agreement has been entered into, it must be presented to and approved by the appropriate Legislative body. We will appear before such body and make all necessary presentations to explain the proposed agreement.

H. Conduct Management Information Sessions

At the conclusion of negotiations it is extremely important that all changes be identified and explained to supervisors and managers. General information on reasons for the changes or failure to achieve desired changes must be explained so that managers are fully supportive of the new contract.
