SECTION 9. The Town Supervisor is further authorized to take such actions and execute such documents as may be necessary to ensure the continued status of the interest on the bonds authorized by this resolution, and any notes issued in anticipation thereof, as excludable from gross income for federal income tax purposes pursuant to Section 103 of the Internal Revenue Code of 1986, as amended (the "Code") and to designate the bonds authorized by this resolution, and any notes issued in anticipation thereof as "qualified tax-exempt bonds" in accordance with Section 265(b)(3)(B)(i) of the Code.

DATE: 17 December 2021
TO: Supervisor's Office
FROM: Comptroller's Office
TITLE OF REQUEST: Town Insurance Policy Award

TOWN BOARD MEETING: 29 December 2021

Background Information: The Town is required to maintain Property and Casualty insurance policies for all Town property and functions. At the start of the renewal process, we were told to anticipate a 15% increase in most premium costs, with cyber expected to increase 25%.

Evaluation/Analysis: Following the negotiation done by USI on behalf of the Town, renewal with the current carriers was cost out at \$556,951.57; an increase of \$45,482.56 or 8.9%. However, transferring the majority of the coverage to Travelers will reduce the premium for the Town to \$447,538.24 – a savings of \$109,413.33 for the upcoming year.

Recommendation(s): Authorize the Supervisor to sign the Property and Casualty insurance policies negotiated by USI with Travelers.

**Intact Commercial Umbrella Excess is \$4 Million, not the expiring \$10 Million required by RFP. Intact had promised a quotation through their Reinsurance Brokerage facility but as of 12/15/21 have not been able to put it together as their carrier Munich Re. had declined. They were approaching Safety National as an alternative. In that they are already \$109,367 higher than Travelers who does have the full \$10 Million, advised them to not continue.

Travelers Insurance is rated A++ Superior by A.M. Best. Travelers Public Sector is the largest writer of municipalities in the USA with over 35,000 municipalities insured. Their support services and resources for municipal risks are exemplary. Their Proposal meets or exceeds the requirements of Rotterdam's 2020 RFP.

Important Provisions

Premiums are calculated based on the insurance company's rules and rates. Premiums shown as advance or deposit premiums are subject to audit and adjustment at the close of each audit period. If the advance premium is less than the earned premium as determined by the audit, the insured pays the difference. If the advance premium is more than the earned premium as determined by the audit, the insurance company returns the difference to the insured. The insured must keep records of the information needed for the audit and the premium calculations and send copies to the insurance company when it requests them.

Audit based on:

Minimum & Deposit Premium:

Building Vacancy Provision – Coverage may be restricted or excluded for any Building found to be vacant for a minimum of 30 consecutive days or longer subject to all other policy terms and conditions. If any of your covered buildings meet this description **at any time during the policy period**, please contact us so we can assist you in maintaining appropriate coverage.

Protective Safeguard Endorsement – Failure to maintain the protective safeguards in good working order or failure to notify the insurer of even a temporary impairment in protection suspends coverage until the protection is restored.

USI Disclosures

COMMISSION DISCLOSURE POLICY: As a licensed insurance producer, USI is authorized to confer with or advise our clients and prospective clients concerning substantive benefits, terms or conditions of insurance contracts, to sell insurance and to obtain insurance coverages for our clients. Our compensation for placement of insurance coverage, unless otherwise specifically negotiated and agreed to with our client, is customarily based on commission calculated as a percentage of the premium collected by the insurer and is paid to us by the insurer. We may also receive from insurers and insurance intermediaries (which may include USI affiliated companies) additional compensation (monetary and non-monetary) based in whole or in part on the insurance contract we sell, which is contingent on volume of business and/or profitability of insurance contracts we supply to them and/or other factors pursuant to agreements we may have with them relating to all or part of the business we place with those insurers or through those intermediaries. Some of these agreements with insurers and/or intermediaries include financial incentives for USI to grow its business or otherwise strengthen the distribution relationship with the insurer or intermediary. Such agreements may be in effect with one or more of the insurers with whom your insurance is placed, or with the insurance intermediary we use to place your insurance. You may obtain information about the nature and source of such compensation expected to be received by us, and, if applicable, compensation expected to be received on any alternative quotes pertinent to your placement upon your request.

The Insurance Company operates independently for the financing of your insurance premium. Your agreement to finance this premium is directly with the insurance company and not USI Insurance Services.

If payment is not received by the due date, the insurance company could cancel your insurance policy(s) for non-payment of premium. The insurance company has the right to honor the cancellation date and **NOT** offer reinstatement or rewrite the insurance coverage.

We are not in a position to make monthly reminders or verify that your payment was received. Please take the necessary action to avoid possible cancellation of your insurance policy(s) which you are paying directly to the insurance company.

AM Best Disclosures

Changes in the international insurance market have affected the ability of insurance brokers to locate insurance coverage at a scope and cost of insurance placed in prior years. Some insurance carriers have suffered significant losses that may jeopardize their financial stability. Changes in an insurance company's financial condition can, of course, affect its ability to pay claims.

As a matter of policy, USI endeavors to obtain quotations and indications from insurance companies who meet or exceed the USI minimum guidelines of A- based on the A. M. Best Ratings of insurance companies. The A.M. Best Company is a recognized publisher of information concerning insurers based on many factors including financial stability. [A. M. Best's current rating scale is attached.](#)

Insurance Carrier Ratings

As a service to our clients, USI is furnishing an assessment by a financial rating service of the insurance companies included in our proposal. We are including the legends used by this service.

All ratings are subject to periodic review; therefore, it is important to obtain updated ratings from each service. Should you desire further information concerning the financial statements of any of the insurance companies being proposed, so that you can make your own assessment of the financial strength of the companies being offered, it is available from USI at your request.

USI has made no attempt to determine independently the financial capacity of the insurance companies that we are including in our proposal as we believe the nationally recognized services are better equipped to comment.

Automobile Composite Rating

Automobile Composite Rating

In order to provide our insureds better service and administrative efficiency, Travelers Public Sector Services is pleased to provide the following process for handling mid-term automobile change requests. All requests will be managed in accordance with the Composite Rate Application outlined below. The insured should continue to submit all change requests to their agent for accurate record keeping and claims verification purposes. Particular attention should be paid to Item 5, which specifies the types of automobiles that will continue to require reporting to the Company.

Composite Rate Application

1. If your policy includes the coverage for which a composite rate is designated in the table below then the premium for that coverage is composite rated. Automobile Liability is rated on a "per unit" basis and Automobile Physical Damage is rated on the basis of the original cost new of the autos. **The composite rates reflect premium charges for any applicable miscellaneous auto coverages, with the exception of Garagekeepers Legal Liability.**
2. The composite rates for Automobile Liability and Physical Damage are the rates applicable at the inception of the policy. Based on the information provided for this proposal and as of the date of this proposal, these rates are as follows:

Liability	Comprehensive	Collision
\$495	0.323	0.4

3. The premium charged at inception is the estimated annual premium based on the number of units and total original cost new for all covered autos on file with the company at inception. The insured is to submit a current schedule of owned automobiles as of the expiration of the policy and the total earned premium will be computed on the basis of the average net change in units and their corresponding original cost new for the policy term.
4. All autos added will carry the same Liability limits and Physical Damage deductibles issued at policy inception for autos of the same type.
5. Any new auto requiring valuation other than actual cash value must be reported within 30 days of acquisition. These autos will be added to the policy automobile schedule mid-term and a final premium will be determined at policy expiration.

Federal Terrorism Risk Insurance Act Disclosure

The federal Terrorism Risk Insurance Act of 2002 as amended ("TRIA") establishes a program under which the Federal Government may partially reimburse "Insured Losses" (as defined in TRIA) caused by "Acts Of Terrorism" (as defined in TRIA). "Act Of Terrorism" is defined in Section 102(1) of TRIA to mean any act that is certified by the Secretary of the Treasury – in consultation with the Secretary of Homeland Security and the Attorney General of the United States -- to be an act of terrorism; to be a violent act or an act that is dangerous to human life, property, or infrastructure; to have resulted in damage within the United States, or outside the United States in the case of certain air carriers or vessels or the premises of a United States Mission; and to have been committed by an individual or individuals as part of an effort to coerce the civilian population of the United States or to influence the policy or affect the conduct of the United States Government by coercion.

The Federal Government's share of compensation for such Insured Losses is 80% of the amount of such Insured Losses in excess of each Insurer's "Insurer Deductible" (as defined in TRIA), subject to the "Program Trigger" (as defined in TRIA).

In no event, however, will the Federal Government be required to pay any portion of the amount of such Insured Losses occurring in a calendar year that in the aggregate exceeds \$100 billion, nor will any Insurer be required to pay any portion of such amount provided that such Insurer has met its Insurer Deductible. Therefore, if such Insured Losses occurring in a calendar year exceed \$100 billion in the aggregate, the amount of any payments by the Federal Government and any coverage provided by this policy for losses caused by Acts Of Terrorism may be reduced.

For each coverage provided by this policy that applies to such Insured Losses, the charge for such Insured Losses is included in the premium for such coverage. The charge for such Insured Losses that has been included for each such coverage is the percentage of the premium for such coverage indicated below, and does not include any charge for the portion of such Insured Losses covered by the Federal Government under TRIA.

To the Town Board of the
Town of Rotterdam, New York

We have audited the financial statements of the governmental activities of the Town of Rotterdam for the year ended December 31, 2020. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated November 1, 2020. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Town of Rotterdam are described in Note 1 to the financial statements with the exception of GASB Statement No. 84, *Fiduciary Activities*, there were no new accounting policies were adopted and the application of existing policies was not changed during 2020. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The amounts estimated for pension liability and postemployment benefits were determined using estimates.

Management's estimates of pension liability and postemployment benefits were based on an actuarial reports prepared as of December 31, 2020. We evaluated the key factors and assumptions used to develop those estimates in determining their reasonableness in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. We have attached copies of our proposed audit adjustments to this letter.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated December 14, 2021.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We did note the following:

1) Inactive Capital Project and Reserve Accounts

The Capital Project Fund includes 22 inactive capital project and reserve accounts totaling approximately \$378,000 that should be transferred to the originating funds.

We recommend that management develop and implement procedures to transfer inactive capital project and reserve funds. (These transfers were made in April 2021).

2) Comptroller Position Vacant

During our audit we noted that due to the vacancy in the Comptroller's position the books have not been reconciled and closed for any month in 2021. If management is to make informed decisions they need timely and accurate information, which they have not had in several months.

We recommend that management consider hiring a comptroller as soon as possible.

3) Capital Project Funds

During our audit we noted that the capital projects funds are not recorded in the general ledger but are accounted for manually. While this may have been appropriate when a small number of projects with relatively small amounts were being expended, this is no longer the case with over \$4 million being expended in 2020.

We recommend that management consider establishing the accounting for all capital projects in the general ledger.

4) Payroll Bank Reconciliation

During our audit we noted that the payroll bank reconciliation had not been prepared as of year end and remained unreconciled for several months after year end.

We recommend that management develop and implement procedures to reconcile all bank accounts monthly.

5) Grant Billing

During our audit we noted a grant receivable for \$125,000 that had existed at December 31, 2019 that remained unbilled 19 months later.

We recommend that procedure be developed and implemented to insure all billings are made timely and collection monitored.

Restriction of Use

This information is intended solely for the information and use of the Town Board and management of the Town of Rotterdam and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

CUSACK & COMPANY, CPA'S LLC

INDEPENDENT AUDITOR'S REPORT

To the Town Supervisor and
Members of the Town Board of
Town of Rotterdam, New York

We have audited the accompanying financial statements of the Town Officials' accounts, which comprise the statements of cash receipts and disbursements - cash basis for the year ended December 31, 2020, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the cash basis of accounting described in Note 1; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conduct our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash receipts and disbursements of the Town Officials' accounts for the year ended December 31, 2020 in accordance with the cash basis of accounting as described in Note 1.

Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

TOWN OFFICIALS
NOTE TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Receiver of Taxes, Town Clerk, Town Justice Bradshaw and Town Justice Litz (Town Officials) collect and receive monies pursuant to Town Law. These monies are then transmitted to various governmental units and other disbursements are made as provided by law. Substantially all of the cash balances as of December 31, 2020 were so transmitted and/or disbursed in January 2021. The records and reports of the Town Officials are maintained on a single-entry basis of accounting consistent with their mode of operation, and the accompanying statements of cash receipts and disbursements present the aforementioned transactions.

The Town Officials' policy is to prepare its financial statements on the cash basis of accounting, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles. The effects on the financial statements taken as a whole of the variances between the cash basis of accounting and accounting principles generally accepted in the United States are unknown.

The Town Board exercises general oversight over the activities of the Receiver of Taxes, Town Clerk, Town Justice Bradshaw and Town Justice Litz. A separate unaudited annual financial report update document is issued for the Town.

1. Bank Statements

Bank statements and bank reconciliations are not reviewed for accuracy and reasonableness by the Town Justices. (a similar comment was made in the prior year)

We recommend that the Town Justices review and approve their respective bank statements and bank reconciliations for accuracy and reasonableness in a timely manner upon their receipt and completion.

2. Bank Statement Cancelled Checks - Bradshaw

It is important for the Justices to review the cancelled checks for unusual activity such as fictitious names or signatures. During our audit we noted that Justice Bradshaw's bank did not provide copies of the cancelled checks with the bank statements.

We recommend having Justice Bradshaw's bank provide cancelled check copies so that Justice Bradshaw may review the cancelled checks for unusual activity.

INDEPENDENT AUDITOR'S REPORT

To the Supervisor and Members of
the Town Board of the
Town of Rotterdam, New York

Report on the Financial Statements

We have audited the accompanying financial statements of all fund types and the non-current governmental liabilities account group of the Town of Rotterdam, New York (the "Town") as of and for the year ended December 31, 2020, and the related notes to the financial statements as listed in the table of contents, which collectively comprise the Town's basic financial statements.

Management's Responsibility for the Financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Unmodified Opinion

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the respective financial position of all fund types and the non-current governmental liabilities account group for the Town of Rotterdam, New York, as of December 31, 2020, and the changes in its financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements present all fund types and the non-current governmental liabilities account group, and do not purport to, and do not present fairly the financial position of the Town as of December 31, 2020, or the changes in its government-wide financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America. Additionally, we were not engaged to perform an audit of capital assets. Our opinion is not modified with respect to these matters.

As discussed in Note 1, the Town adopted the Governmental Accounting Standards Board's Statement No. 84, *Fiduciary Activities*, as of and for the year ended December 31, 2020. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information (pages 26-29), be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Government Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town of Rotterdam, New York (the “Town”), is governed by its Town Charter, other general laws of the State of New York and various local laws. The Town Board, which is the governing body of the Town, consists of the Supervisor and four voting Council members, all elected. The Town Supervisor serves as the chief executive officer and chief fiscal officer. The Town provides the following basic services: public safety, health services, maintenance of Town roads, recreation, home and community service, economic assistance and other general services.

The Town of Rotterdam, New York has prepared all fund types and non-current governmental liabilities account group financial statements in accordance with accounting principles generally accepted in the United States of America as applied to government units (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standards setting body for establishing GAAP for state and local governments through its pronouncements (Standards and Interpretation).

The Town does not comply with GASB Statement No. 34, which requires the Town to present the government-wide financial statements on a full accrual government-wide basis as well as the fund basis. The financial statements present only all fund types and the non-current governmental liabilities account group, and do not purport to, and do not present fairly the government-wide financial position or changes in financial position of the Town.

A summary of the significant accounting policies consistently applied in the preparation of the accompanying governmental funds financial statements follows.

A. Financial Reporting Entity

GASB Statement No. 61 defines the financial reporting entity for the Town to include all funds, account groups, agencies, boards, commissions, and authorities where the elected officials (the Supervisor and/or the Town Board, respectively) are financially accountable. The following terms are used to describe the components of a reporting entity:

- Primary Government

A legally separate state, general purpose local or special purpose government with a separately elected governing body. It must be fiscally independent of other primary governments.

- Component Unit

A legally separate organization for which the elected officials are financially accountable. Also the primary government is able to impose its will on the component unit or there is a potential for the component unit to provide a financial benefit or incur a financial burden on the primary government. The Town has no component units.

B. Basis of Presentation

The accounts of the Town are organized on the basis of funds or account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for within a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues and expenditures which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. The following fund types and account groups are used.

Governmental Fund Types

Governmental funds are those through which most governmental functions of the Town are financed. The acquisition, use and balances of the Town's expendable financial resources and the related liabilities are accounted for through governmental funds. The measurement focus of the governmental funds is upon determination of financial position and changes in financial position. The following are the Town's governmental fund types:

- a. General Fund - The general fund is the principal fund and includes all operations not required to be recorded in other funds.
- b. Special Revenue Funds - Used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Special Revenue Funds are:

- Highway
- Water
- Sewer
- Drainage
- Fire Protection
- Lighting
- Special Grant

- c. Capital Projects Fund - Used to account for financial resources to be used for the acquisition or construction of major capital facilities.
- d. Account Groups

Used to establish accounting control and accountability for general fixed assets and general long-term debt. The two account groups are not "funds." They are concerned with measurement of financial position and not results of operations.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basis of Presentation (Continued)

Governmental Fund Types (Continued)

d. Account Groups (Continued)

1. The Non-Current Governmental Assets Account Group - used to account for land, buildings, improvements other than buildings and equipment utilized for general government purposes. The Town does not maintain subsidiary records to support the amounts recorded in the non-current governmental assets account group.
2. The Non-Current Governmental Liabilities Account Group - used to account for all long-term obligations.

C. Basis of Accounting/Measurement Focus

Basis of accounting refers to when revenues and expenditures and the related assets and liabilities are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus. Measurement focus is the determination of what should be measured.

Modified Accrual Basis - All Governmental Funds are accounted for using the modified accrual basis of accounting.

Under this basis of accounting, revenues are recorded when measurable and available. Available means collectible within the current period or soon enough thereafter, within 60 days, to be used to pay liabilities of the current period.

Material revenues that are accrued include state and federal aid and certain user charges. If expenditures are the prime factor for determining eligibility, revenues from federal and state grants are accrued when the expenditure is made unless it is not anticipated to be received within one year.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Accounting/Measurement Focus (Continued)

Expenditures are recorded when the fund liability is incurred except that:

- a. Principal and interest on indebtedness are recognized as an expenditure when due.
- b. Compensated absences, such as vacation and sick leave which vest or accumulate, are charged as an expenditure when paid.
- c. Inventory is valued at cost utilizing the first-in, first-out method.

D. Property Taxes and Collections

Town real property taxes are levied together with Schenectady County property taxes annually no later than January 1, and become a lien on January 1. Taxes for County purposes are levied together with taxes for Town and special district purposes as a single bill. The Town and special districts receive the full amount of their levies annually out of the first amounts collected on the combined bills. The County assumes enforcement responsibility for all taxes levied in the Town.

E. Budgetary Data

1. Budget Policies - The budget policies are as follows:

- a. No later than September 30, the budget officer submits a tentative budget to the Town Clerk for the fiscal year commencing the following January 1. The tentative budget includes proposed expenditures and the proposed means of financing for all funds, except for the Special Grant Fund.
- b. After public hearings are conducted to obtain taxpayer comments, but no later than November 20, the governing board adopts the budget.
- c. All modifications of the budget must be approved by the governing board. However, the comptroller is authorized to transfer certain budget amounts within the departments.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Budgetary Data (Continued)

2. Encumbrances

Encumbrances are reservations of fund balance for outstanding purchase commitments. Expenditures for such commitments are recorded in the period in which the liability is incurred.

3. Budget Basis of Accounting

- a. Except as indicated below, budgets are adopted annually on a basis consistent with accounting principles generally accepted in the United States of America. Appropriations authorized for the current year are increased by the amount of encumbrances carried forward from the prior years.
- b. Budgetary controls for the Special Grant Fund are established in accordance with applicable grant agreements which covers a period other than the Town's fiscal year.

F. Allowance for Uncollectible Receivables

An allowance for uncollectible receivables is maintained at a level which, in management's judgment, is adequate to absorb uncollectible amounts. The allowance for uncollectible receivables was \$0 at December 31, 2020.

G. Inventory

Inventory consists of gasoline and diesel fuel recorded at cost using the first-in, first-out basis.

H. Interfund Transactions

The operations of the Town include transactions between funds. These transactions may be temporary in nature such as with interfund borrowings. The Town typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include the transfers of expenditure and revenue to provide financing or other services.

I. Departure from the Basis of Accounting

The Town does not maintain subsidiary records to support the amounts recorded in the general fixed assets account group for land, buildings and improvements. The correct carrying values of these fixed assets at December 31, 2020 is not known.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. Deferred Outflows and Inflows of Resources

In addition to assets, a separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until that time in the government wide financial statements. In addition to liabilities, a separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time in the government wide financial statements. The Town has two deferred outflows and inflows of resources. The first relates to the effect of the change in the Town's proportion of the collective net pension liability and difference during the measurement period between the Town's contributions and its proportionate share of total contributions to the pension system not included in pension expense. The second relates to the effect of the net change in the actual and expected expense in reporting OPEB.

K. Deferred Compensation Plan

Employees of the Town may elect to participate in the Town's Deferred Compensation Plan created in accordance with Internal Revenue Code §457. The Plan, available to all employees, permits them to defer a portion of their salary until future years, usually after retirement.

Under the terms of the amended Plan agreement, these monies are not subject to the claims of the Town's general creditors after they are paid to the Plan's Trustee.

L. Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates. Significant estimates include compensated absences, postemployment benefits and pension liabilities.

M. Self-Insurance

The Town has retained a portion of the liability to cover losses under §207-C of the Workers' Compensation Law of police officers. Officers are entitled to their full pay when out on leave. The Town is required to cover any amount of losses not reimbursed by Workers' Compensation.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Compensated Absences

Town employees are granted vacation and sick leave in varying amounts. In the event of termination or upon retirement, an employee is entitled to payment for accumulated vacation and sick leave at various rates subject to certain maximum limitations. The liability for accumulated vacation and related benefits has been recorded in the respective governmental fund type in accordance with GASB 16. Payment of accumulated sick leave and related benefits is reflected in the non-current government liabilities account group since it is anticipated that none of the liability will be liquidated with expendable financial resources. However, management believes that sufficient resources will be made available for payment of accumulated sick leave and related benefits when such payments become due.

O. Postemployment Health Insurance Benefits

In addition to providing pension benefits, the Town provides certain health benefits for retired employees, their spouses and certain survivors. All of the Town's employees may become eligible for these benefits if they reach normal retirement age. Those and similar benefits for active employees are provided through payments to New York State Government Employees' Health Insurance Program.

P. New Accounting Pronouncements

GASB Statement No. 84

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*. This statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

This statement describes four fiduciary funds that should be reported, if applicable. (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria.

2. STEWARDSHIP, COMPLIANCE, ACCOUNTABILITY

Expenditures for employee benefits and home and community services in the highway fund and sewer fund, respectively, exceeded appropriations by \$49,612 and \$62,023, respectively, resulting from expenditures being made without budgetary authorizations.

The Capital Project Fund has a deficit totaling \$3,373,448 at December 31, 2020. This deficit is caused by allowing contracts for projects funded with Bond Anticipation Notes. The deficit will be eliminated when serial bonds are issued.

3. CASH AND INVESTMENTS

The Town's investment policies are governed by state statutes. The Town's monies must be deposited in FDIC-insured commercial banks or trust companies located within the state. The comptroller is authorized to use demand accounts, certificates of deposit, obligations of the United States of America, New York State and local municipalities and school districts, certificates of participation and repurchase agreements with certain restrictions.

Collateral is required for demand deposits and certificates of deposit at 100 percent of all deposits not covered by federal deposit insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of any state and its municipalities and school districts.

During 2020, cash and investments were either insured by Federal Depository Insurance or collateralized by assets of the Town's agent in the Town's name.

6. BOND ANTICIPATION NOTES

Liabilities for bond anticipation notes (BANs) issued for capital projects that are one year in duration are accounted for in the Capital Projects Fund.

State law requires that BANs issued for capital purposes be converted to long-term obligations within five years after the original issue date. However, BANs issued for assessable improvement projects may be renewed for periods equivalent to the maximum life of the permanent financing, provided that stipulated annual reductions of principal are made. The changes in the Town's BANs outstanding during the year were as follows:

BANs Outstanding January 1, 2020	\$ 5,581,380
Repayments	(733,310)
New Debt	378,450
BANs Outstanding December 31, 2020	<u>\$ 5,226,520</u>

6. BOND ANTICIPATION NOTES (CONTINUED)

7. DEFERRED INFLOWS OF RESOURCES

Deferred inflows of resources arises when potential revenue does not meet both the measurable and available criteria for recognition in the current period. In subsequent periods, when both recognition criteria are met, the deferred inflows of resources is reduced and revenue is recognized.

Deferred inflows consist of the following:

Water Fund - Water Rents not available	<u>\$ 117,974</u>
Sewer Fund - Sewer Rents not available	<u>\$ 119,938</u>

8. LONG-TERM INDEBTEDNESS

The changes in the Town's long-term indebtedness during the year are summarized as follows:

A. *Claims and Judgments*

There were several tax review cases pending against the Town for a reduction in the assessed value of property. The petitions were for taxes collected in 2005 through 2018. The Town believes that the likelihood of a reduction is remote and therefore no provision for loss has been recorded in the non-current governmental liabilities account group at December 31, 2020.

B. *Landfill Postclosure Costs*

The Town entered into an Order of Consent with the New York State Department of Environmental Conservation (DEC) on April 17, 1990 for the purpose of ensuring the proper maintenance and future closure of the Town's landfill. The order includes specific requirements and deadlines for the Town to follow and meet or they could be subject to penalties. The status of compliance with the consent order is subject to review by the Department of Environmental Conservation. The Town has been served with a number of additional consent orders in 1996, 1997 and 1998.

The closure of the landfill was substantially completed in 1995. The remaining cost of the required maintenance, closure and postclosure monitoring costs of the landfill is estimated to be \$68,795 at December 31, 2020. The Town has recorded this estimate in the non-current governmental liabilities account group.

D. Compensated Absences

Town employees are granted vacation, holiday, sick leave and earn compensatory absences in varying amounts. In the event of termination or upon retirement, an employee is entitled to payment for accumulated vacation, holiday (police only), sick leave and unused compensatory absences at various rates subject to certain maximum limitations.

Payment of accumulated and unused vacation, holiday, sick leave and compensatory absences recorded in the non-current governmental liabilities account group is dependent upon many factors, therefore, timing of future payments is not readily determinable. However, management believes that sufficient resources will be made available for the payment of vacation, holiday, sick leave and compensatory absences when such amounts become due.

8. LONG-TERM INDEBTEDNESS (CONTINUED)

D. *Compensated Absences (Continued)*

The Town recognizes a liability for vacation, holiday and compensatory absences and additional salary-related payments as the benefits are earned by the employees, based on the rendering of past service and the probability that the employees will be compensated for the benefits through paid time off or some other means. This includes vacation, holiday and compensatory absences that were earned but not used during the current or prior periods and of which employees can receive compensation in a future period.

In addition, the Town recognizes a liability for vesting sick leave and additional salary-related payments as employees earn benefits and to the extent it is probable that the Town will compensate the employees for the benefits through cash payments, rather than be taken as absences due to illness or other contingencies for employees who, at the balance sheet date, currently are eligible to receive termination payments as well as other employees who are expected to become eligible in the future to receive such payments.

E. *Postemployment Benefits*

Plan Description

GASB Statement 75, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, requires governments to account for other postemployment benefits (OPEB) on an accrual basis, rather than on a pay-as-you-go basis. The effect is the recognition of an actuarially determined expense on the Statement of Activities when a future retiree earns their postemployment benefits, rather than when they use their postemployment benefits.

Funding Policy

The Town currently funds the Plan to satisfy current obligations on a pay-as-you-go basis. During the year ended December 31, 2020 approximately \$1,925,000 was paid on behalf of 135 retirees.

Benefits Provided

The Town provides postemployment healthcare benefits for certain eligible retirees.

Inflation	2.5%
Discount Rate	2.12%
Healthcare Cost Trend Rates	5.7% for 2020 and 2021 to 4.04% in 2075

The discount rate was based on the index provided by *Bond Buyer 20-Bond General Obligation Index* based on the 20 year AA municipal bond rate as of December 31, 2020.

Mortality rates were based on the April 1, 2010 - March 31, 2015 New York State Employees Retirement System expense with adjustments for mortality improvements based in Society for Actuaries Scale MP-2014.

9. PENSION PLAN

General Information

The Town participates in the New York State and Local Employees' Retirement System ("ERS") and New York State and Local Police and Fire Retirement System ("PFRS"). The Systems are cost sharing multiple-employer, public employee retirement systems. The Systems offers a wide range of plans and benefits which are related to years of service and final average salary, vesting of retirement benefits, death and disability.

Plan Description and Benefits Provided

The Systems provide retirement benefits as well as death and disability benefits. The net position of the Systems are held in the New York State Common Retirement Fund, which was established to hold all net assets and record changes in plan net position allocated to the Systems. The Comptroller of the State of New York (the "Comptroller") serves as sole trustee and administrative head of the Systems. System benefits are established under provisions of the New York State Retirement and Social Security Laws ("NYSRSSL"). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The Systems issue a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244.

The Systems are noncontributory except for ERS employees who joined the System after July 27, 1976 who contribute 3% of their salary, for the first ten years of membership and employees who joined on or after January 1, 2010 who generally must contribute 3% of their salary for their entire length of service. Under the authority of the NYSRSSL, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the Systems' fiscal year ending March 31.

Contributions for the current year and two preceding years were equal to 100% of the contributions required as follows:

	<u>ERS</u>	<u>PFRS</u>
March 31, 2021	\$ 613,702	\$ 1,110,604
March 31, 2020	\$ 601,685	\$ 1,013,994
March 31, 2019	\$ 612,901	\$ 983,254

Chapter 260 of the laws of 2014 of the State of New York allows local employers to bond or amortize a portion (limitations established by fiscal year) of their retirement bill up to 10 years for fiscal years ended March 31, 2005 through 2008. Chapter 57 of the laws of 2010 of the State of New York allows local employers to amortize a portion (limitations established by fiscal year) of their retirement bill for 10 years for fiscal years ended March 31, 2013 and forward.

9. PENSION PLAN

Plan Description and Benefits Provided (Continued)

These laws require participating employers to make payments on a current basis, while bonding or amortizing existing unpaid amounts. The Town has not bonded or amortized any portion of their retirement obligations.

Pension Liabilities, Pension Expense, and Deferred Inflows and Outflows of Resources Related to Pensions

At December 31, 2020, the Town reported a liability of \$3,964,211 for ERS and \$7,242,956 for PFRS for its proportionate share of the net pension liability. The net pension liability was measured as of March 31, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of April 1, 2018. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined.

At December 31, 2020, the Town's proportion was .0150% percent ERS and .1355% PFRS.

At December 31, 2020, the Town reported deferred outflows and inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 715,615	\$ (121,319)
Changes in assumptions	698,917	(68,924)
Net difference between projected and actual earnings on pension plan investments	5,293,978	-

Contributions subsequent to the measurement date	<u>1,293,229</u>	<u>-</u>
	<u>\$ 8,143,826</u>	<u>\$ (712,721)</u>

9. PENSION PLAN (CONTINUED)

Pension Liabilities, Pension Expense, and Deferred Inflows and Outflows of Resources Related to Pensions (Continued)

The net amount of the employer's balances of deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

2021	\$ 2,443,467
2022	1,473,182
2023	1,909,803
2024	1,582,673
2025	21,980
	<u>\$ 7,431,105</u>

ERS Actuarial Assumptions

The total pension liability at March 31, 2020 was determined by using an actuarial valuation as of April 1, 2019, with update procedures used to roll forward the total pension liability to March 31, 2020. The actuarial valuation used the following actuarial assumptions.

	<u>ERS</u>	<u>PFRS</u>
Interest rate	6.8%	6.8%
Salary increase	4.2%	5.0%
Inflation rate	2.5%	2.5%
Cost of living adjustment	1.3%	1.3%

Annuitant mortality rates are based on April 1, 2010 - March 31, 2015 System's experience with adjustments for mortality improvements based on MP-2014.

The actuarial assumptions used in the April 1, 2015 valuation are based on the results of an actuarial experience study for the period August 1, 2010 - March 31, 2015.

The long term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

9. PENSION PLAN (CONTINUED)

ERS Actuarial Assumptions (Continued)

Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of March 31, 2020 were as follows:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic equity	4.05%
International equity	6.15%
Private equity	6.75%
Real estate	4.95%
Absolute return strategies	3.25%
Opportunistic portfolio	4.65%
Real assets	5.95%
Bonds and mortgages	.75%
Cash	.50%

Discount Rate

The discount rate used to calculate the total pension liability was 6.8% for ERS and PFRS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Assets/Liability to the Discount Rate Assumption

The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 6.8%, as well as what the Town's proportionate share of the net pension asset/liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	<u>1%</u> <u>Decrease</u>	<u>Current</u> <u>Assumption</u>	<u>1%</u> <u>Increase</u>
<u>ERS</u>			
Town's proportionate share of the net pension asset (liability)	\$ <u>(7,275,446)</u>	\$ <u>(3,964,211)</u>	\$ <u>(914,549)</u>

Pension Plan Fiduciary Net Position

The components of the net pension liability of the fiduciary as of March 31, 2020 was as follows (in thousands):

	<u>ERS</u>	<u>PFRS</u>
Fiduciary total pension liability	\$ (194,596,261)	\$ (35,309,017)
Fiduciary net position	<u>168,115,682</u>	<u>29,964,080</u>
Fiduciary net pension liability	<u>\$ (26,480,579)</u>	<u>\$ (5,344,937)</u>
Ratio of fiduciary net position to the fiduciary total pension liability	<u>86.39%</u>	<u>84.86%</u>

10. FUND BALANCE

The Town implemented GASB 54 "Fund Balance Reporting and Governmental Fund Type Definitions."

GASB 54 defines five categories of fund balances as follows:

1. **Nonspendable** fund balance includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. The Town's nonspendable fund balance consists of inventories and prepaid expenses at December 31, 2020.

10. FUND BALANCE (CONTINUED)

2. **Restricted** fund balance includes amounts restricted when constraints placed on the use of resources are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. Restricted fund balance includes the following:

	<u>General Fund</u>	<u>Highway Fund</u>	<u>Water Fund</u>	<u>Sewer Fund</u>
Capital Reserve	\$ 99,301	\$ -	\$ -	\$ -
Parkland Reserve	138,341	-	-	-
Employee Benefit Reserve	134,367	-	-	-
Assets Forfeiture Reserve	46,417	-	-	-
Repair Reserve	703,029	650,884	1,310,080	198,208
	<u>\$ 1,121,455</u>	<u>\$ 650,884</u>	<u>\$ 1,310,080</u>	<u>\$ 198,208</u>

3. **Committed** fund balance includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Town Board. The Town had no committed fund balances at December 31, 2020.
4. **Assigned** fund balance includes amounts that are constrained by the Town's intent to be used for specific purposes, but are neither restricted nor committed. Assigned fund balances include funds that are legally mandated to be accounted for separately as well as amounts that have been contractually obligated by the Town or designated by the Town for ensuing year's budget. Assigned fund balance includes the following:

	<u>General Fund</u>	<u>Highway Fund</u>	<u>Water Fund</u>	<u>Sewer Fund</u>
Assigned for Encumbrances	\$ 157,147	\$ 268,969	\$ 82,966	\$ 203,888
Assigned for Tax Certiorari	81,164	43,701	-	-
Assigned for Ensuing Year's Budget	1,609,647	200,000	150,000	363,000
Assigned for Special Revenue	-	731,156	1,978,428	1,362,787
Total	<u>\$ 1,847,958</u>	<u>\$ 1,243,826</u>	<u>\$ 2,211,394</u>	<u>\$ 1,929,675</u>

5. **Unassigned** fund balance represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the fund.

The Town Board determines whether restricted, committed, assigned or unassigned amounts are considered to have been spent first when resources are available from multiple constraint levels. The default policy is that resources are spent first from the highest constraint level.

11. TAX ABATEMENT

The Town enters into Payment in Lieu of Taxes (“PILOTS”) agreements with some local businesses. PILOTS are often included as part of an Industrial Development Agency (“IDA”) agreement with a commercial or industrial development for the purpose of attracting or retaining business within their jurisdictions. PILOT agreements normally provide for payments of amount lesser than would have been collected for real estate taxes for a number of years.

For the year ended December 31, 2020, the Town recognized \$989,723 in PILOT revenue under PILOT agreements. Abated property taxes amounted to approximately \$121,000 under this program.

12. INTERFUND BALANCES AND TRANSFERS

Interfund balances and transfers were as follows:

	<u>Due From</u>	<u>Due To</u>	<u>Transfer In</u>	<u>Transfer Out</u>
General	\$ 35,974	\$ -	\$ 349,497	\$ 569,977
Highway	-	-	36,896	60,000
Water	44,547	-	-	503,255

Total	<u>\$ 80,521</u>	<u>\$ 80,521</u>	<u>\$ 1,263,378</u>	<u>\$ 1,263,378</u>

Administrative changes to other funds by the general fund were \$349,497. The remaining transfers were to fund capital projects.

13. COMMITMENTS AND CONTINGENCIES

Litigation

Several claims against the Town are presently pending for various reasons including condemnation and personal injuries. Although the final outcome of these matters cannot be predicted, management of the Town, based on the advice of the Town’s legal counsel, does not believe that the final settlement of these matters will have a material adverse effect on the financial condition of the Town.

13. COMMITMENTS AND CONTINGENCIES (CONTINUED)

Grant Programs

The Town participates in a number of grant programs. These programs are subject to financial and compliance audits by the grantor or its representatives. The Town believes, based upon its review of current activity and prior experience, the amount of disallowances resulting from these audits, if any, will not be significant to the Town's financial position or results of operations.

Environmental Concerns

The Town is engaged in many activities (*e.g.*, water and sewer service, refuse collection, gasoline storage), in the normal course of operations, that are potentially hazardous to the environment. As of December 31, 2020, the Town is not aware of any significant environmental problems that should be disclosed in the Financial statements.
